Re: Workers Compensation Insurance

Loss Costs Filing

A loss costs reference filing has been filed with and approved by the North Carolina Commissioner of Insurance to become effective April 1, 1997. Pursuant to North Carolina General Statute 58-36-100, a copy of the approved reference filing is enclosed.

The filing includes exhibits that display (i) the derivation of the final pure premium level change; (ii) a summary of the expense provisions that are included in the loss costs, (iii) the advisory loss costs and rating values, by class code; (iv) appendices that underlie the derivation of the overall pure premium level change and the distribution of that change by industry group and by class code; (v) the derivation of "F" classification loss costs; (vi) a summary of benefit changes; and (vii) a comparison, by class code, of the April 1, 1996 loss costs to the April 1, 1997 loss costs. Appendix D recites statutory requirements for data to be included in NCRB rate filings. The extensive data that were submitted to the Department of Insurance as an adjunct to the loss costs reference filing, referenced as "11 NCAC 10.1111 responses", are not being reproduced for distribution. Similarly, the Bureau's pre-filed testimony that accompanied the filing is not being distributed.

The approved prospective loss costs are based on historical data that have been developed and trended to their ultimate values and, except for (i) loss adjustment expenses and (ii) taxes, licenses, fees and loss-based assessments which are specifically authorized to be included in the loss costs by statute, include no provisions for expenses, dividends, profit or contingencies.

Pursuant to NC GS 58-36-100, the prospective loss costs reference filing does not develop or propose minimum premiums, minimum premium formulas, expense constants or premium discount plans. Any amendments to your current minimum premiums, minimum premium formula, expense constant or premium discount plan must be filed with and approved by the North Carolina Department of Insurance.

With regard to the Bureau's prospective loss costs reference filings, NC GS 58-36-100(j) provides as follows:

- (1) If the insurer has filed to have its loss multiplier remain on file, applicable to subsequent reference filings, and a new reference filing is filed and approved and if:
 - a. The insurer decides to use the revision of the prospective loss costs and effective date as filed, then the insurer does not file anything with the Commissioner. Rates are the combination of the prospective loss costs and the on-file loss multiplier and become effective on the effective date of the loss costs.
 - b. The insurer decides to use the prospective loss costs as filed but with a different effective date, then the insurer must notify the Commissioner of its effective date before the effective date of the loss costs.

c. The insurer decides to use the revision of the prospective loss costs, but wishes to change its loss multiplier, then the insurer must file for approval a revised reference filing adoption form before the effective date of the reference filing.

d. The insurer decides not to revise its rates using the prospective loss costs, then the insurer must notify the Commissioner before the effective date of the loss costs.

(2) If an insurer has not elected to have its loss multiplier remain on file, applicable to future prospective loss costs reference filings, and a new reference filing is filed and approved, and if:

a. The insurer decides to use the prospective loss costs to revise its rates, then the insurer must file a reference filing adoption form for approval including its effective date.

b. The insurer decides not to use the revisions, then the insurer does not file anything with the Commissioner.

For those member insurers that have not yet filed loss costs multipliers, NC GS 58-36-100(a) provides as follows:

Nothing in this section requires the Bureau or its member insurers to refile rates previously implemented before two years after the effective date of this section. Any member insurer of the Bureau may continue to use all rates and deviations filed and approved for its use until disapproved, or the insurer makes its own filing to change its rates . . . (Note: The effective date of this section was July 28, 1995.)

Included in Part I, Exhibit III of the filing are approved advisory Miscellaneous Values and Retrospective Rating Plan State Special Rating Values. Pursuant to NC GS 58-36-100(1), as a result of the Commissioner's approval of the miscellaneous and Retrospective Rating Plan values, (i) a carrier may elect to implement the values, in which event the carrier need not file anything with the Commissioner; (ii) a carrier may elect to implement the values with a different effective date, in which event the carrier must notify the Commissioner of its effective date before the effective date of the Bureau filing; (iii) a carrier may elect not to implement the values, in which event the carrier must notify the Commissioner before the effective date of the Bureau filing; or (iv) a carrier may elect to implement the values with modifications, in which event the carrier must file the modifications with the Commissioner for approval, and must specify the basis for the modifications and the carrier's proposed effective date if different from the effective date of the Bureau filing.

With regard to the Loss Elimination Ratios shown with the advisory Miscellaneous Values, a carrier should file with the Commissioner its factor(s) to be applied to the approved Loss Elimination Ratios or its own table of deductible percentages. Similarly, with regard to the Retrospective Rating Plan, each carrier should file its factor(s) to be applied to the Excess Loss Pure Premium Factors and Excess Loss and Allocated Expense Pure Premium Factors or file its own tables. It is the Rate Bureau's interpretation of the statute that, if the factors for these tables have previously been filed and approved, and if the factors will not be revised, they may be applied to the April 1, 1997 tables without a new filing with the Commissioner.

Note: The obligations of carriers with respect to use of the prospective loss costs and use of the advisory Miscellaneous Values and Retrospective Rating Plan State Special Rating Values are different. The statutory provisions with regard to use of the approved prospective loss costs and an insurer's loss multiplier are set forth in NC GS 58-36-100, portions of which have been quoted above. With respect to the advisory Miscellaneous Values and Retrospective Rating Plan State Special Rating Values, a carrier is required to implement those values effective April 1, 1997 unless it makes a filing with the Commissioner indicating that it elects to do otherwise, as described above.

Enclosed is a copy of the North Carolina Department of Insurance (i) Reference Filing Adoption Form, (ii) Summary of Supporting Information Form - Calculation of Company Loss Costs Multiplier and (iii) Summary of Supporting Information Form - Expense Provisions Exhibit which have been developed for insurers to file their loss multipliers.

Note: The Reference Filing Adoption Form should be completed to show NCDOI File Number : 124107, NCRB Reference Filing Number: August 30, 1996 and NCRB Effective Date: April 1, 1997. Additionally, Item 7,

"Provision for premium taxes, licenses, fees and loss based assessments," of the Summary Of Supporting Information Form - Calculation of Company Loss Costs Multiplier should be completed to include .0268 (2.68% expressed in decimal form - See NCRB Reference Filing Part I, Exhibit II).

Duplicate copies of the reference filing adoption forms (with a \$20 filing fee and a postage-paid, self-addressed envelope) are to be submitted to:

Mr. Charles A. Swindell, Deputy Commissioner
Property and Casualty Division
North Carolina Department of Insurance
PO Box 26387, 430 North Salisbury Street
Raleigh, North Carolina 27611

A copy of each insurer's filing should also be sent to the North Carolina Rate Bureau.

Included is a diskette which contains a Lotus spreadsheet with the April 1, 1997 advisory loss cost and rating values for each class code. The diskette also contains the residual market rates and rating values. The diskette is formatted for IBM -PC compatible machines and is being provided to assist carriers in the mechanics of generating individual class code rates. One file has each class assigned to one of the following industry groups:

- | | |
|------------------------|---|
| 1. Manufacturing | 7. Per Capita Classifications |
| 2. Contracting | 8. "a" Rated Classifications |
| 3. Office and Clerical | 9. Chemical & Dyestuff Plan Classifications |
| 4. Goods and Services | 10. Maritime and Federal Classifications |
| 5. Miscellaneous | 11. Miscellaneous Disease Classifications |
| 6. "F" Classifications | |

Note: The industry group designations are for the purpose of identifying the group to which a class belongs on the diskette and are so designated only for the loss costs. The residual market data are in class code sequence.

If you want an additional copy of the approved reference filing and diskette for your internal use, or for other carriers in your group, please make your request in writing and include a check in the amount of \$75, payable to the North Carolina Rate Bureau. Additional copies of the diskette alone are available to company members for \$20 per diskette.

Very truly yours,

Jerry G. Hamrick

Workers Compensation Manager
