CIRCULAR LETTER TO ALL MEMBER COMPANIES

Re: Revisions to Endorsement PP 55 45 – Limited Transportation  
Network Driver Coverage (No Passenger) – North Carolina

The Facility Board of Governors has approved, and the Commissioner of Insurance has approved, revisions to Endorsement PP 55 45 – Limited Transportation Network Driver Coverage (No Passenger) – North Carolina, for use with the Personal Auto Policy in the Facility. The revisions were made in order to align with changes made to the Personal Automobile Program regarding the addition of vehicle sharing and delivery services exclusions. This endorsement removes the requirement to schedule the specific transportation network platforms.

Please note that the Facility has adopted this endorsement and manual rule as the only endorsement and manual rule to be used with a ceded Personal Auto Policy. Regardless of what policy form a member company chooses to use in the voluntary market, the company is required to use endorsement PP 55 45 and the associated manual rule for any policy ceded to the Facility.

Copies of the revised endorsement will be distributed in the usual way.

Please see to it that this circular is brought to the attention of all interested personnel in your company.

Sincerely,

Andy Montano

Automobile Manager
