The IDC application uses **session cookies** to remember important information as you move from page to page within the application. These session cookies reside in your browser's memory only as long as your browser session is active.

If you have multiple web user accounts for multiple companies you need to close the web browser after each company's submission or the previous company's data will still show up.

In other words, when you close your web browser after using IDC, the session cookie is destroyed, thus protecting any data you entered while using IDC.

Unlike some web applications, IDC does not write any data to your hard drive using cookies.

- **IDC Reporting Guidebook**

For those data calls submitted via IDC, the IDC Reporting Guidebook provides an overview of the data submission process, an overview of the edit process and provides detail for the data elements contained in each call. The Data Reporting Guidebook is also located under Private Passenger Automobile or Residential Property Data Reporting tabs.

- **NCRB Fine Procedures**

To encourage timely submission of the data, the NCRB Governing Committee has approved the implementation of a penalty fine for the late submission of annual data calls. A penalty fine of \$100 per day will be imposed for all late submissions. The \$100 per day fine is imposed for each of the requested data calls. Member companies are urged to meet the requested due dates to avoid late penalty (submission) fines.

Preface - Summary of 2023 Changes

The changes in the 2023 IDC Reporting Guidebook are editorial in nature.

Part 1- Industry Data Collection Reporting Guidebook Overview

Each year, North Carolina Rate Bureau (NCRB) member companies are required to submit their NAIC Annual Statement, Installment Premium charges, and Automobile and Property Expense Experience data. Members of the North Carolina Insurance Guaranty Association (NCIGA) are required to submit their NAIC Annual Statement data for assessment purposes only. NCRB only accepts data call information electronically. The Industry Data Collection (IDC) web application provides a data entry tool for the data submission and allows NCRB administrators to audit the Expense Experience data through a series of edits to ensure the data is accurate. This data is then compiled for use in NCRB rate filings.

In addition to the IDC Guidebook, there is also an IDC User Guide and an IDC Getting Started Guide to help with the submission of the annual data calls.

Part 2- Data Call Schedule

A. Annual Calls and Due Dates

Annual Calls	Due Dates	IDC
P & C Annual Statement	March 1, 2023	Y
Insurance Expense Exhibit	April 3, 2023	Y
Automobile Expense Experience	April 20, 2023	Y
Installment Premium Charges	May 1, 2023	Y
Ceded Other than Nonfleet Private Passenger Motor Vehicle (Commercial) Data Call	June 1, 2023	
Homeowners/Mobile Home Expense Experience	June 1, 2023	Y
Dwelling Expense Experience	June 1, 2023	Y
Private Flood Expense Experience	June 1, 2023	Y
Ceded Motorcycle Data Call	November 1, 2023	

Part 3- Personal Lines Reporting Workflow

Based on the annual call due dates, the data is required to be submitted into IDC in this order:

- Annual Statement
- Insurance Expense Exhibit
- Auto Expense Experience
 - Edits
- Installment Premium Charges
- Homeowners/Mobile Home Expense Experience
 - Edits
- Dwelling Expense Experience
 - Edits
- Private Flood Expense Experience
 - Edits

The Expense Experience calls are submitted after the NAIC Annual Statement and the Insurance Expense Exhibit because they require data to be reconciled back to specific items that are included in the NAIC Annual Statement and the Insurance Expense Exhibit (IEE).

Part 4- NAIC Annual Statement and Insurance Expense Exhibit Data Submission

The first step in submitting coverage data to NCRB is to upload the required NAIC Annual Statement and Insurance Expense Exhibit (IEE) data files. The files are required to conform to the NAIC Electronic Filing Specifications. There are many files generated by each carrier for their submission to the NAIC. NCRB is specifically looking for the carrier's March and April data files.

These files have the following naming convention:

Ccccc_vc_s_yyyy_f_d_vv_sa_ss_fb.txt

Symbol	Description
Ccccc	NAIC Code
vc	Vendor code
s	Statement Type Code – this should equal “p”
yyyy	Four-digit filing year
f	Submission filing type code. Valid codes are: O – Original, R – Refiling or A - Amended
d	Submission group type code. This should equal “M” for the Annual Statement file and “A” for the IEE file.
vv	One- or two-digit filing version number
sa	One- or two-digit separate account id
ss	Two-character state supplement code
fb	Filing by Line of Business (BLOB) type code

Part 5- Company Information & Allocations

The Company Information tab requires responses to questions about your company data. A company's expenses may be collected specifically for North Carolina or countrywide expenses may be allocated to North Carolina. When a company allocates expenses to North Carolina, the allocation questions request more detail on the method of allocation.

If expenses are allocated to North Carolina, answer yes to the allocation questions and further identify the basis of the allocation.

The allocation choices are:

- Direct country-wide expenses to direct country-wide written premium
- Direct country-wide expenses to direct country-wide earned premium
- Direct country-wide expenses to direct country-wide incurred losses
- Other (for example, loss reserves)

If expenses are collected specifically for North Carolina, you should answer no. The expenses submitted on the Expense Experience forms should be the actual incurred expenses for North Carolina.

IDC Web Application Note: The IDC application will use your responses to the allocation questions to determine IEE edits for each line of business. For example, if you allocate "Other Acquisition" expenses based on written premium, the ratio of direct countrywide "Other Acquisition" expenses to direct countrywide written premium should be comparable to North Carolina only reported "Other Acquisition" expenses to North Carolina written premium.

The Homeowners allocation tab has a few additional questions regarding Mobile Home business. The answers to these questions will enable/disable functionality on the Homeowners Expense form.

IDC Web Application Note: After you have entered your Homeowners form data, revisions to the Mobile Home answers on the Allocations tab will result in your Homeowners data being cleared from the system. The web application will validate whether you want to change your answers. If you select OK, the Homeowners data will have to be re-entered.

Screen shots of each allocation tab of questions are shown in the detail below.

Part 7- Edits

Once data has been entered into the system, the system performs a series of data validation tests to help verify the accuracy of the data submitted. These tests are called “edits” by the system, and fall into several categories. When an edit fails, the system displays the details of the calculation for the company to review. The following pages describe the edit process in more detail.

A. Edit Generation and Review Process Diagram:

B. Edit Tabs Generated:

Edits, which are calculated in a similar manner, are grouped into “tabs”. The tabs, by form, are as follows:

On each tab, various types of data are compared to data submitted in prior years. The individual items vary by tab, but generally include the following:

- Adjusting & Other Expense (ULAE)
- Branch & Home Office
- Commission
- Defense
- Earned Premium
- General Expenses
- Taxes
- Written Premium

The Edits are designed to compare the current data submission with prior year data. The system reviews each item and assigns one of the following statuses, as appropriate:

 Company Response Needed	Company Response Needed indicates a variance was found and the carrier needs to review the data for accuracy and, if the data is incorrect, make any necessary changes to the data. If the data is correct, the carrier must submit an explanation for the variance.
 NCRB Reviewing	NCRB Reviewing indicates an explanation for a variance was submitted to NCRB for review but NCRB has not reviewed the explanation.
 Accepted by NCRB	Accepted by NCRB indicates either that no variance in the data was found, or, NCRB has reviewed the explanation submitted for a variance and has accepted the explanation.

When a variance is found, the data must first be reviewed for accuracy. For example, if this year's ratio is 0.000 and prior year ratios have been non-zero, a value may have been omitted from the data call. In this case, the data would need to be corrected.

If data is found to be correct, a **business explanation** of the variance is required. For example, if the commission has increased, an explanation might be that the company has changed their commission structure. Often, the explanations require assistance outside the company's accounting and/or reporting department.

It is **not** appropriate to respond only that the "data is correct" or that the "data matches the Statutory Annual Statement".

Once all items are marked as either "Accepted by NCRB" or "NCRB Reviewing", the company has completed the data call.

Once NCRB reviews the data call submission, they will request additional information of the company on an as needed basis. If no further information is required, NCRB will mark each item as "Accepted by NCRB".

Part 8- Fines

To encourage timely submission of the data, the Governing Committee has approved the implementation of a penalty fee for the late submission of annual data calls. A penalty fee of \$100 per day will be imposed for all late submissions. The \$100 per day fee is imposed for each of the requested data calls. Member companies are urged to meet the requested due dates to avoid late penalty charges.

North Carolina Rate Bureau Fine Procedures

The North Carolina Rate Bureau has established a fining program for data errors or late reporting of Workers Compensation USR data, Workers Compensation Policy data and Personal Lines Annual Data Calls. If a fine is assessed, an invoice is sent to the contact designated by the member company for receipt of fine information. Detailed information for Workers Compensation fines is available via the ManagePolicy/USR web application. Refer to circular C-15-11 for additional information.

Requests For Waiver/Appeals:

- Carriers have 90 days after the receipt of a fine invoice to request a waiver of the fine(s). All requests for waiver must be in writing, must include the item number in question and must set forth all the factors which the carrier wishes to be considered in review of the request for waiver. The request should be sent directly to the Data Services & Systems Support department at support@ncrb.org.
- Requests for Waiver will be reviewed by Bureau staff and will be responded to within 30 days of receipt.
- If a company disagrees with Bureau staff's response to a request for waiver, the company may request a management appeal of the fine(s) by sending the appeal request to the Data Services & Systems Support department at dataservices@ncrb.org. The results of the appeal review will be communicated to the carrier within 30 days of receipt.
- Member companies wishing to further appeal the decision of Bureau staff may request review of such decision by the Governing Committee of the North Carolina Rate Bureau. The review by the Governing Committee will take place at the next regularly scheduled meeting of the Governing Committee after the appeal.

Follow-up for Past Due Fines:

- Once a month, carriers will receive detailed information regarding all outstanding payments due to NCRB. (Note: Personal Lines Data Call fines are sent out once a year).
- Carriers that have fines 90 days past due will receive a follow-up letter from Bureau staff notifying them of the outstanding balance and requesting prompt remittance of payment. The initial communication will be sent to the company contact responsible for the submission of the data.
- If no response is received as a result of the first letter, a second follow-up letter will be sent 30 days later. The second letter will be sent to the company contact

responsible for the submission of the data as well as the President or CEO of the company. If the outstanding balance is in excess of \$10,000, contact is made with the CFO as well.

- If no response is received as a result of the second letter, a third follow-up letter will be sent to the President or CEO of the company. The third letter will provide specific detail of the Bureau's next course of action if the outstanding amount remains unresolved. The course of action may include an appearance before the North Carolina Rate Bureau's Governing Committee or escalation to the North Carolina Department of Insurance.
