Edit ID	Reject Msg
000001	USR must have 1 and only 1 header record.
000002	USR must have 1 and only 1 name record.
000003	USR must have 1 and only 1 totals record.
000007	Injury code is not acceptable.
000009	Type of coverage (policy type id code) is not acceptable.
000010	Plan indicator (policy type id code) is not acceptable.
000011	Non-standard type (policy type id code) is not acceptable.
000012	Deductible type is not acceptable (first two positions).
000014	Pre-ASWG excess coverage policy condition is not acceptable.
000016	Pre-ASWG assigned risk policy condition is not acceptable.
000017	Pre-ASWG canceled policy - policy condition is not acceptable.
000018	Pre-ASWG estimated audit policy condition is not acceptable.
000019	Pre-ASWG Disease B policy condition is not acceptable.
000020	Pre-ASWG excluding disease policy condition is not acceptable.
000021	Pre-ASWG clerical error policy condition is not acceptable.
000022	Pre-ASWG retrospective rated policy condition is not acceptable.
000023	Pre-ASWG no excess payroll policy condition is not acceptable.
000024	Pre-ASWG large risk-large deductible policy condition is not acceptable.
000025	Pre-ASWG MCO indicator policy condition is not acceptable.
000026	Three year fixed rate policy condition is not acceptable.
000027	Multistate policy condition is not acceptable.
000028	Interstate rated policy condition is not acceptable.
000029	Policy Condition - Estimated Audit Code - is invalid.
000030	Retrospective rated policy condition is not acceptable.
000031	Canceled mid term policy condition is not acceptable.
000033	Exposure previously reported indicator is not acceptable.
000034	Exposure update type is not acceptable.
000035	Exposure act is not acceptable.
000036	Loss previously reported indicator is not acceptable.
000037	Loss update type is not acceptable.
000038	Claim status is not acceptable.

000039	Loca tuno in not accontable
000039	Loss type is not acceptable.
000040	Loss recovery type is not acceptable.
000041	Type of Claim Code is invalid. Report a valid code that corresponds to the type of claim. (01, 02, 03, 04)
000042	Loss settlement type is not acceptable.
000043	Loss act is not acceptable.
000045	Injury part is not acceptable.
000046	Injury nature is not acceptable.
000047	Injury cause is not acceptable.
000048	Exposure amount must be zero for statistical codes.
000049	Exposure coverage code is not acceptable.
000050	Loss coverage code is not acceptable.
000051	Exposure is not allowed for this class code.
000052	Loss record is not allowed for this class code.
000053	Premium amount is invalid.
000056	ASWG indicator is not acceptable.
000057	Vocational rehabilitation indicator is not acceptable.
000058	Class codes 0063 and 0064 should not be on the same policy.
000059	Rate effective date not within policy period.
000060	Multiple rate dates supplied within the same split period.
000061	Incorrect split indicator.
000062	Class code and accident date do not identify exposure record with premium > 0.
000063	Number of claims provided is incorrect.
000064	USR cancelation date is not the same as the policy file cancelation date. Claims have been filed on the USR that are not within the policy filed term dates.
000065	Claim number has invalid characters.
000066	No duplicate claim numbers allowed.
000068	Incurred indemnity amount cannot be 0 when incurred medical >0 for this injury code.
000069	Incurred indemnity amount must be zero for injury code of 6 or 7.
000071	There must be 2 or more claims for each distinct catastrophe.
000072	Catastrophe codes are not in sequence.
000074	The accident date must be the same for every loss included in the catastrophe.
000075	No group claims may be included in a catastrophe.
000077	Total claim amount for loss > \$2,000 must have a claim number.
000082	Paid indemnity cannot be greater than incurred indemnity.
000083	Paid medical cannot be greater than incurred medical.
000084	Carrier ID entered is not a valid carrier ID.
000085	Policy to be reported on does not exist in Spectrum.
000086	Non-North Carolina state code.
000000	Troit rectains state code.

000087	Report too early for policy entered.
000089	Report received was out of sequence.
000090	Assigned Risk policy condition not consistent with policy in Spectrum.
000092	Correction type must be compatible with actual data changed.
000093	State effective date is invalid.
000099	Previous exposure state is incorrect.
000100	Must be consistent with the carrier's ASWG approval date and the policy effective date.
000101	Name record can not be blank on tape.
000103	Multiple revised exposure records in the same split period with the same non-standard class code.
000107	Previous exposure line not found.
000108	Previous exposure line not found.
000109	Previous loss line not found.
000110	Previous loss line not found.
000111	Total payroll amount is incorrect.
000113	Total subject premium amount is incorrect.
000116	Total standard premium amount is incorrect.
000117	Total number of claims is incorrect.
000118	Total incurred indemnity amount is incorrect.
000119	Total incurred medical amount is incorrect.
000121	Previous totals record is not acceptable.
000122	Total paid indemnity amount is incorrect.
000124	Must have at least 1 exposure record on a rpt 01 correction 00.
000125	Must be rpt 01 corr > 00, there must be at least 1 exposure record and no loss records on this USR.
000126	There should be no previous records on a rpt 01 corr 00.
000127	Previous exposure line not found.
000128	Previous loss line not found.
000130	Invalid numeric or date field in loss record.
000131	Invalid numeric or date field in header record.
000132	Invalid numeric or date field in link record.
000133	Calculated loss amount or premium amount is invalid.
000134	Invalid numeric or date field in exposure record.
000135	Class code and/or expo act not reported on exposure card.
000137	Unexpected record type received.
000138	Expmod should be zero for below the line class codes.
000141	Split indicator must start with zero and the reported split periods must be in chronological order.
000142	Class code must be a statistical code.
000144	Carrier not approved for subsequent rpts.
000145	Carrier not approved for premium corrections.

000146	Carrier not approved for first reports.
000147	Carrier not approved for loss corrections
000149	Error matching previous and revised loss records.
000150	Policy canceled flat.
000151	Premium amount is invalid.
000152	Incorrect split indicator.
000153	This is a correction to a USR that has not been received or is rejected.
000154	This USR has already been entered.
000155	Multiple mod dates supplied within the same split period.
000156	Multiple expmod values supplied within the same split period.
000158	Loss declared - There are loss records in accepted with this class code.
000161	Missing a unit report for the policy.
000162	Zero exposure card submitted incorrectly.
000163	Loss declared and premium for class code is zero.
000165	Link data in submission control record must be filled with '9's
000167	The USR count is incorrect.
000168	The ASWG indicator in the control record is incorrect and/or the carrier is not approved to submit this tape.
000169	The tape must contain a submission control record.
000170	The letter of transmittal detail record count must match the actual detail record count on tape.
000171	The letter of transmittal total unit reports submitted must match the actual USR count on tape.
000172	Carrier not approved for submitting first reports in ASWG format.
000173	Carrier not approved for submitting subsequent reports in ASWG format.
000174	Carrier not approved for submitting premium correction reports in ASWG format.
000175	Carrier not approved for submitting loss correction reports in ASWG format.
000176	Open claim on previous report not on this report.
000182	The ASWG indicator for a subsequent or correction report must match the ASWG indicator for the previous report.
000184	This tape has PRE-ASWG USRs with a policy effdt that is greater than or equal to the ASWG deadline date.
000185	Claim status of 2 (reopened) is not allowed for this USR.
000186	A subsequent USR must have at least 1 loss record.
000187	A correction must have at least 1 expo record or 1 loss record.
000198	Exposure supplied and manual rate is zero.
000202	Class category of class reported does not match class table.
000257	Class code requires a partner class.
000411	This USR filed as a replacement is not a 1st report. NCCI requirements only allow "R" reports to replace 1st reports assigned
	data Grade 5.

000412	This USR has been filed as a replacement report for a data grade 5 USR. NCCI requirements, a pending file number is required on all replacement unit reports.
000414	This USR is a replacement report with an invalid data grade. The only option is to file a correction report.
000424	Subject to Experience Modification class code with zero exposure and/or zero premium.
000439	Losses can not be coded to class 9740.
000440	Class 9740 should be reported for the approved date range.
000468	Type of Coverage including Employer's Liability has been reported with injury code 06.
000470	Deductible Reimbursement is not acceptable.
000476	This USR has a report level that is greater than 10.
000477	"No exposure developed" unit report, must use class code 1111 and leave the exposure field blank.
000494	Verify replacement not reporting claim records.
000501	Corrections to the correction sequence number are not allowed.
000503	Header correction is not allowed on report/correction of 01/00 or reports greater than 01.
000504	Header Link data corrections not allowed at report levels greater than 01 and Previous fields must be different than Link data fields.
000505	Max number of attempts reached during USR Correction Processing. Unable to apply corrections - Staff intervention is required.
000506	Error processing Link Data Correction during USR Correction Processing. Unable to apply corrections.
000507	Header link data corrections are not allowed when subsequent USRs exist for the policy.
000508	Update Type of C found on USR - Change records are not allowed in USR Correction Processing.
000509	Invalid jurisdiction state for claim submitted with Catastrophe Code 87.
000510	Invalid accident date for claim submitted with Catastrophe Code 87.
000511	Please review loss type code and cat code reporting. Loss type of 02 is required if cat code 87 or 12 is applicable and submit the necessary corrections. See circular C-20-7 reference to Covid-19 under Occupational Disease.
000512	Invalid injury cause for claim submitted with Catastrophe Code 87.
000520	Losses can not be coded to class 9741.
000521	Warning: Class 9741 should be reported for the approved date range.
000533	Change in loss settlement type requires correction reports for all prior reports to remove the non-compensable portion of this claim
000535	Change in Loss Condition Type of Recovery Code. Correction reports are required for all prior reports to reflect the change in
000536	loss due to the subrogation or second injury fund recovery. Change in Loss Condition Type of Loss Code - correction reports are required for all prior reports where this loss detail has been reported.
000545	Warning: Correction type A must be compatible with actual data changed.
000553	Correction type code is invalid for this report level.
000556	Premium amount is invalid.
000563	An Aggravated Inequity correction report cannot be filed for a claim that has not closed.

claim number. This USR received a Data Grade 5 error from NCCI and has been rejected at NCRB for this reason. Custom created rejection message from NCRB. Please reach out to support@ncrb.org if you see this edit and you are u as to how to address it. Two units with the same report and correction have been reported with different NCCI admin numbers. This unit is a separated USR. This unit is a separated USR. An accepted first report does not exist for the policy number that this separated data is being reported. The Separated Segment Number cannot contain embedded spaces or special characters. The reported Separated Date must be a valid date that is greater than or equal to the policy effective date.
