North Carolina Reinsurance Facility

October 30, 2023

Honorable Mike Causey Commissioner of Insurance North Carolina Department of Insurance Raleigh, North Carolina 27611

Re: Revision of Commercial Automobile

Insurance Rates

Dear Sir:

Pursuant to North Carolina General Statute 58-37-35(I), the North Carolina Reinsurance Facility hereby files on behalf of its member companies revised basic limits premium rates for liability insurance for trucks, tractors and trailers, auto dealers, zone rated vehicles, and private passenger types not eligible for rating under the North Carolina Personal Auto Manual for such coverages rated under the Facility's Commercial Automobile Manual.

Enclosed are memoranda and exhibits which set forth and explain the calculations of the revised rates and rating factors. The rates established herein are based upon automobile liability insurance experience for the five years ending December 31, 2022 and automobile liability insurance expense data for calendar year ending December 31, 2022, the latest years for which such data are available.

The information and statistical data required pursuant to G.S. 58-36-15(h) are included. Additionally, the pre-filed testimony of (a) Joanna Biliouris, General Manager - North Carolina Reinsurance Facility; (b) James Davidson, Senior Actuarial Director, Commercial Casualty Lines (including Automobile) - Insurance Services Office; and (c) Alyssa Irving, Senior Managing Director – Fixed Income Portfolio Manager, Wellington Management Company, LLP is submitted herewith.

These revised rates will become effective April 1, 2024, in accordance with the following Rule of Application:

These changes are applicable to all policies becoming effective on or after April 1, 2024. No policy effective prior to April 1, 2024 shall be endorsed or cancelled and rewritten to take advantage of or to avoid the application of these changes except at the request of the insured and at the customary

short rate charges as of the date of such requests, but in no event prior to April 1, 2024.

If you have any questions regarding this filing, please feel free to contact me.

Very truly yours,

Thomas F. Burns

Director Auto Operations

North Carolina Reinsurance Facility

NORTH CAROLINA REINSURANCE FACILITY REVISION OF RATES FOR COMMERCIAL AUTOMOBILE LIABILITY INSURANCE

This section contains the revision of rates for classes of business ceded to the Reinsurance Facility that appear in the North Carolina Reinsurance Facility Commercial Automobile Insurance Manual of Rules and Rates.

Set forth below are the percentage changes in manual rates resulting from this revision for the major classes of Commercial business.

	Filed Percentage Changes	
	Basic	Total
<u>Classes and Coverages</u>	<u>Limits</u>	<u>Limits</u>
Trucks, Tractors, and Trailers Liability		
Bodily Injury (30/60)	10.6%	11.6%

SECTION B

Determination of Statewide Rate Level Indications

NORTH CAROLINA REINSURANCE FACILITY COMMERCIAL AUTOMOBILE LIABILITY

DETERMINATION OF STATEWIDE RATE LEVEL CHANGES SPLIT LIMIT LIABILITY COVERAGE

<u>Experience</u> - The statewide rate level indications on these exhibits were determined separately for bodily injury and property damage. For Trucks, Tractors, & Trailers, Private Passenger Types, Auto Dealers and Zone Rated Risks, the limits on which the indications are based are \$30,000 per person, subject to \$60,000 per occurrence, for bodily injury and \$25,000 per occurrence for property damage.

<u>Premiums</u> - The earned premiums are the premiums that would have resulted if present rates had been charged during the experience period. Therefore, they reflect fully any rate and rule changes that have occurred during and since the experience period; however, they have not been adjusted to reflect the new applicability of sales tax to the labor of auto repairs, which became effective March 1, 2016. No trend in premium (or rating exposure) is assumed.

<u>Losses</u> - As described on the exhibit, unallocated loss adjustment expenses have been included with losses and allocated loss expense by use of appropriate factors. Also, the losses have been developed to an ultimate settlement basis.

<u>Expenses</u> - Unallocated loss adjustment expenses are trended separately from losses and then combined. Underwriting expenses are separated into fixed and variable expense and are appropriately trended.

SECTION C

Exhibits of Revised Rates

NORTH CAROLINA REINSURANCE FACILITY COMMERCIAL AUTOMOBILE LIABILITY

EXHIBITS OF REVISED RATES

Exhibit 1 - Relativities Used to Develop the Rates

Exhibit 2 - Trucks, Tractors, & Trailers and Related Classes

The revised non-fleet base rates are based upon the voluntary territory relativities that become effective on March 1, 2024. The revised fleet base rates are derived using the current approved factor of 1.10 to the revised non-fleet rates.

Exhibit 3 - Private Passenger Types

The revised non-fleet base rates are based upon the voluntary territory relativities that become effective on March 1, 2024.

Exhibit 4 - Auto Dealers

The revised non-fleet base rates are based upon the voluntary territory relativities that become effective on March 1, 2024.

Exhibit 5 - Zone Rated Risks

The indicated bodily injury and property damage changes were applied to the current Zone Rated risks base rates. These base rates became effective October 1, 2022.

The out of state zone rates were updated to reflect ISO filing CA-2021-RZRLC, which became effective April 1, 2022.

NORTH CAROLINA REINSURANCE FACILITY COMMERCIAL AUTOMOBILE LIABILITY

EXHIBITS OF REVISED RATES

Medical Payments

The medical payments rates are determined by multiplying the 30/60 Bodily Injury non-fleet rates by the following factors:

<u>Limits</u>	
<u>1000</u>	<u>2000</u>
0.350	0.384
0.216	0.247
0.266	0.306
0.155	0.175
0.350	0.384
0.125	0.142
	1000 0.350 0.216 0.266 0.155 0.350

The medical payments rates for Zone Rated Risks are calculated by multiplying the bodily injury rates by a factor of .193.

Hired Cars

The rate for hired cars applies to all territories, and is determined by multiplying the current rate by the Trucks, Tractors, & Trailers statewide rate level change.

Public Automobiles

Rates for Public Automobiles are calculated as factor derivatives of the Trucks, Tractors, & Trailers non-fleet base rates. The relativities are listed below:

	Differential to 1	Base Rate
	BI	<u>PD</u>
Taxis and Limousines	4.62	3.05
School and Church Buses	0.70	0.42
Other Buses	5.06	2.50
Van Pools	0.82	0.82

SW	3,536	309.17	381.65		484.277		26.9%

Weighted average factor x percent change = new weighted average $381.65 \times 1.269 = 484.3139$

[#] The loss costs presented in Column (2) are on a Combined Single Limit (CSL) basis. That is, they provide coverage for both Bodily Injury and Property Damage.

^{*} The rates in column (6) are keyed to a statewide revenue change of +26.9 percent.

^{**} Column (7) is the change in the base rate by territory. It is calculated by dividing column (6) by column (3).

Supporting Exhibits

NORTH CAROLINA REINSURANCE FACILITY COMMERCIAL AUTOMOBILE LIABILITY

EXHIBITS OF REVISED RATES

Exhibit 1 - Loss Development Factors

Both 30/60/25 limit and total limits loss development factors based on North Carolina Facility data are shown in this exhibit.

Exhibit 2 - Trend in Claim Severity and Claim Frequency

The historical average annual change in claim costs for both Bodily Injury and Property Damage coverages are displayed for North Carolina voluntary experience and a credibility-weighted mix of multistate and North Carolina only data. Prospective average annual changes for claim cost (severity trend) were selected based on the review of both 12 and 24 point fits. Prospective average annual changes for claim frequency have been selected based on multistate, North Carolina voluntary, and NCRF data. Combining the selected claim cost trends with the selected frequency trends results in the selected Bodily Injury and Property Damage pure premium trends used to adjust the losses to a prospective level.

- Exhibit 3 Trend in Expense
- Exhibit 4 Expense Experience
- Exhibit 5 Tables of Credibility and Weights
- Exhibit 6 Investment Income
- Exhibit 7 Adjusted and Unadjusted Experience
- Exhibit 8 Contingency Factor

LIABILITY FREQUENCY TREND

The data underlying the claim frequency trend selections is shown on the following exhibits. The exhibits include quarterly points for Multistate, North Carolina Voluntary, and NCRF incurred frequency trends, as well as, annual changes in incurred frequency trend, for the combined experience of all commercial automobile classes that employ a common exposure base (car-years). As can be seen from the exhibits, frequency for both bodily injury and property damage has changed from year to year in an unpredictable manner. Historically, frequency trend for commercial auto liability has been quite variable, often cyclical in nature. As a result, an exponential curve of the form Y=A(B^X) does not fit the data well over the long term. Frequency trend is being selected to be 0.0% for bodily injury and 0.0% for property damage.

Credibility for use with Trend Data**

credibility formula = (# claims)/(# claims + K),

where K = 25,000 for Bodily Injury and 10,000 for Property Damage

Accident Year and/or Policy Year Weights

The loss and loss adjustment expense ratios are weighted as follows:

Year Ending	Weights
12/31/2018	0.05
12/31/2019	0.10
12/31/2020	0.15
12/31/2021	0.25
12/31/2022	0.45

^{*} These credibility standards are based on the first model discussed in "An Introduction to Credibility Theory" by L.H. Longley-Cook. The full credibility standard for Trucks and Private Passenger Types is based on P and K values of 90% and 5% respectively. For Auto Dealers and Zone Rated Risks, the P and K values are 95% and 7.5% respectively.

^{**} These trend credibility standards are based on a Bayesian model which expresses credibility in terms of the observed number of claims and a constant K. The model measures the variation in the trend points between states compared to the variation on a countrywide basis.

In setting the rates, income from investment earnings from assets attributable to unearned premium and loss reserves was considered.

Estimated Investment Earnings on Unearned Premium Reserves and on Loss Reserves

Section D Exhibit 6 Sheet 4

Line A-1

Direct earned premiums are determined from NCRF net underwriting results.

Line A-2

The *mean direct unearned premium reserve* is determined by multiplying the direct earned premiums in line A-1 by the ratio of the mean direct unearned premium reserves to the direct earned premium for the latest available calendar year for the line of business.

1.	Direct Earned Premium for Calendar Year 2021	\$38,969,221
2.	Direct Unearned Premium Reserve as of 12/31/20	16,015,995
3.	Direct Unearned Premium Reserve as of 12/31/21	18,551,440
4.	Mean Direct Unearned Premium Reserve = $\frac{1}{2}$ [(2) + (3)]	17,283,718
5.	Ratio (4) / (1)	0.444

Line A-3

Deduction for prepaid expenses:

Production costs and a large part of the other company expenses in connection with the writing and handling of insurance policies, exclusive of claim adjustment expenses, are incurred when the policy is written and before the premium is paid. Therefore, the deduction for these expenses is determined by use of the provisions for expenses used in our determination of an expected loss and LAE ratio.

Line A-4

Deduction for Federal taxes payable:

The Tax Cuts and Jobs Act of 2017 did not alter the 20% tax on the unearned premium reserve, existing since 1986. At a corporate tax rate of 21%, this tax equals 4.2% ($0.20 \times 0.21 = 0.042$) of the unearned premium reserve.

Line B-2

Delayed remission of premium:

This deduction is necessary because of delay in collection and remission of premium to the companies beyond the effective dates of the policies. Funds for the unearned premium reserve required during the initial days of all policies must be taken from the company's surplus.

The total of admitted and non-admitted agents' balances, or uncollected premiums due, amounts to 0.000 of net earned premums for all companies. The 0.205 is based on the following:

5.	Ratio (4) / (1)	0.205
4.	Mean Agents' Balances: ½ [(2) + (3)]	140,069,131
3.	Net Agents' Balances as of 12/31/21	143,554,025
2.	Net Agents' Balances as of 12/31/20	136,584,237
1.	Net Earned Premium for Calendar Year 2021	\$684,749,769

Estimated Investment Earnings on Unearned Premium Reserves and on Loss ReservesSection D Exhibit 6 Sheet 5

Line C-2

The *expected incurred losses* are determined by multiplying the direct earned premium by the average expected loss ratio (including loss adjustment expense).

Line C-3

The *expected mean loss reserve* is determined by multiplying the expected incurred losses in line (C-2) by the average ratio of the mean loss and loss adjustment reserves to the incurred losses and loss adjustment expenses in the latest two available calendar years for the line of business. This ratio is based on industry-aggregate data and includes an adjustment for the estimated federal income taxes payable due to discounting of loss reserves.

1.	Direct Incurred for Calendar Year 2020	\$27,502,061
2.	Direct Incurred for Calendar Year 2021	30,669,995
3.	Direct Reserves as of 12/31/19	50,123,209
4.	Direct Reserves as of 12/31/20	55,064,652
5.	Direct Reserves as of 12/31/21	62,620,419
6.	Mean Loss Reserve 2020: ½ [(3) + (4)]	52,593,931
7.	Mean Loss Reserve 2021: ½ [(4) + (5)]	58,842,536
8.	Ratio (6) / (1)	1.912
9.	Ratio (7) / (2)	1.919
10.	$\frac{1}{2}[(8)+(9)]$	1.916

Notes:

Direct incurred and direct reserves include both indemnity and loss adjustment expense.

SECTION E

Revision of Increased Limits Tables

North Carolina Reinsurance Facility Commercial Automobile Liability

Revision of Increased Limits Tables

Summary of Changes

The following is a proposed revision of Commercial Automobile Liability Increased Limit Factors. A review of the experience indicates a change of 1.0% in total liability premium for bodily injury and 3.6% for property damage. This document presents revised factors for the following increased limits tables:

- Light and Medium Trucks
- Heavy Trucks and Truck-Tractors
- Extra-Heavy Trucks and Truck-Tractors
- Zone Rated Risks
- All Other Risks

Notes Pertaining to the Revision

- This revision is based upon North Carolina Reinsurance Facility experience. North Carolina and Countrywide Voluntary data has been considered when necessary to promote stability.
- Data for accident years ending December 31, 2018 to December 31, 2022 have been used to develop the indicated changes for each table.
- The five years of data have been developed to an ultimate settlement basis by using the loss development factors shown in Exhibit 3 of Section F.
 - Data has been trended to one year beyond the assumed effective date of 4/1/2024.

SECTION F

Increased Limits Experience Review

Section F

North Carolina Reinsurance Facility

Increased Limits Experience Review

Introduction

Charges for coverage in excess of the basic limit of liability (\$30,000/\$60,000 for bodily injury, \$25,000 for property damage) are calculated by multiplying the applicable basic limit manual rate for the class by the appropriate increased limit factor for the desired liability limit. For example, a Light Truck risk desiring to purchase coverage of \$100,000/\$300,000 bodily injury per person/per accident might pay a premium calculated as 1.70 times the manual rate for the risk classification.

The Commercial Automobile Liability Increased Limits Tables are reviewed to ensure that a consistent pricing relationship is maintained between factors for different limits.

Exhibit 1: Development of Increased Limits Table Change Indications

Set forth on this exhibit is the North Carolina Reinsurance Facility experience for all companies for the latest five accident years.

Losses include allocated loss adjustment expenses and are developed to an ultimate settlement basis using the North Carolina statewide loss development factors shown in Exhibit 3. Additionally, the losses have been trended from the average date of loss to twelve months beyond an anticipated effective date of April 1, 2024 by an exponential projection of the annual loss trend factors for basic and total limits losses developed on Exhibit 2.

The indicated average increased limit factor has been compared to the present average increased limit factor to develop an overall increased limits factor change indication. These indications are 1.0% and 3.6% for bodily injury and property damage, respectively.

Exhibit 2: Bodily Injury and Property Damage Trend Factors

North Carolina and Countrywide paid claim data for Commercial Automobile Bodily Injury and Property Damage Liability Insurance, as reported to ISO, were used to develop average annual trend factors for basic and total limits losses. The derivation of these factors is shown in Exhibit 2 of Section D.

Section F

North Carolina Reinsurance Facility

Increased Limits Experience Review

Introduction (Cont'd)

Exhibit 3: Loss Development Factors

Set forth on this exhibit are the factors used to develop the losses to an ultimate basis. The derivation of these factors is shown in Exhibit 1 of Section D. These factors are based on North Carolina facility data.

Exhibit 4: North Carolina Facility Data

Data set forth on this exhibit represent North Carolina Reinsurance Facility loss data. This exhibit also displays the data developed to ultimate settlement basis and trended to one year beyond the proposed effective date.

Exhibit 5: Policy Limit Distribution

Set forth on this exhibit is the basic limit loss distribution (including ALAE) for each increased limits table by policy limit. These table distributions are based on all detailed statistics reported to ISO for Facility business for fiscal accident years ending 6/30/18 through 6/30/22.

ACTUARIAL SUPPORT FOR RATE MODIFICATION

This exhibit should provide actuarial support for the proposed rate modification and must include the following information as required in NCGS 58-36-15(h):

- (1) North Carolina earned premiums at the actual and current rate level; losses and loss adjustment expenses, each on paid and incurred bases without trending or other modification for the experience period, including the loss ratio anticipated at the time the rates were promulgated for the experience period;
- (2) Credibility factor development and application;
- (3) Loss development factor derivation and application on both paid and incurred bases and in both numbers and dollars of claims;
- (4) Trending factor development and application;
- (5) Changes in premium base resulting from rating exposure trends;
- (6) Limiting factor development and application;

- (7) Overhead expense development and application of commission and brokerage, other acquisition fees, general expenses, taxes, licenses and fees;
- (8) Percentage rate change;
- (9) Final proposed rates;
- (10) Investment earnings, consisting of investment income and realized plus unrealized capital gains, from loss, loss expense and unearned premium reserves;
- (11) Identification of applicable statistical plans and programs and a certification of compliance with them;
- (12) Investment earnings on capital and surplus;
- (13) Level of capital and surplus needed to support premium writings without endangering the solvency of member companies.

STATISTICAL DATA TO COMPLY WITH NORTH CAROLINA STATUTORY REQUIREMENTS FOR A COMMERCIAL AUTOMOBILE RATE FILING

2. Credibility factor development and application

Credibility factor determination

Credibility considerations enter into the Commercial Automobile ratemaking in three areas:

1) Statewide rate level, in the determination of the statewide rate level loss ratio for each coverage.

The credibility tables are displayed in Section D, Exhibit 5 of Exhibit RF-1.

2) Trend factor calculation, in the determination to base the selected average annual change on North Carolina data and a credibility-weighted combination of North Carolina and multistate data.

The credibility procedure for the statewide loss ratio calculation is based on the first model discussed in "An Introduction to Credibility Theory" by L.H. Longley-Cook. The full credibility standard for Trucks, Tractors, & Trailers and Private Passenger Types is based on P and K values of 90% and 5% respectively. For Zone Rated Risks, the P and K values are 95% and 7.5% respectively.

The trend credibility standards are based on a Bayesian model which expresses credibility in terms of the observed number of claims and a constant K which is 25,000 for Bodily Injury and 10,000 for Property Damage. The model measures the variation in the trend points between states compared to the variation on a multistate basis.

Credibility factor application

Credibility is applied in the statewide rate level calculations in Section B, Exhibits 1 - 4 of Exhibit RF-1.

Credibility is used in the claim cost trend calculations in Section D, Exhibit 2, Sheets 3 - 6 of Exhibit RF-1.

See also the pre-filed testimony of James Davidson.

STATISTICAL DATA TO COMPLY WITH NORTH CAROLINA STATUTORY REQUIREMENTS FOR A COMMERCIAL AUTOMOBILE RATE FILING

3. Loss Development factor derivation and application on both paid and incurred bases and in both numbers and dollars of claims.

Development

The following incurred loss development exhibits are shown in Exhibit RF-1:

Basic Limits

Trucks, Tractors, & Trailers - Section D, Exhibit 1, Sheets 1 and 2 Private Passenger Types - Section D, Exhibit 1, Sheets 5 and 6 Auto Dealers - Section D, Exhibit 1, Sheets 9 and 10 Zone Rated Risks - Section D, Exhibit 1, Sheets 13 and 14 Publics and Buses - Section D, Exhibit 1, Sheets 17 and 18 Miscellaneous Classes - Section D, Exhibit 1, Sheets 21 and 22

Total Limits

Trucks, Tractors, & Trailers - Section D, Exhibit 1, Sheets 3 and 4 Private Passenger Types - Section D, Exhibit 1, Sheets 7 and 8 Auto Dealers - Section D, Exhibit 1, Sheets 11 and 12 Zone Rated Risks - Section D, Exhibit 1, Sheets 15 and 16 Publics and Buses - Section D, Exhibit 1, Sheets 19 and 20 Miscellaneous Classes - Section D, Exhibit 1, Sheets 23 and 24

The following pages contain the Total Limits and Basic Limits paid loss development exhibits. Also included are exhibits for paid and incurred claims development.

Application

Loss development is applied on Sheet 2 of Exhibits 1 - 4 in Section B of Exhibit RF-1.

See also the pre-filed testimony of James Davidson.

4. Trending factor development and application.

Development

The claim cost trend is developed on Exhibit 2, Sheets 3 - 6 of Section D of Exhibit RF-1.

The claim frequency trend is developed on Exhibit 2, Sheets 7 - 12 of Section D of Exhibit RF-1.

The calculation of the trend for expenses is shown on Exhibit 3, Sheets 1 - 4 of Section D of Exhibit RF-1.

Application

The claim cost trend is applied on Sheet 2 of Exhibits 1 - 4 of Section B of Exhibit RF-1.

The expense trend is applied on Sheet 2 of Exhibits 1 - 4 of Section B of Exhibit RF-1.

See also the pre-filed testimony of James Davidson.

5. Changes in premium base resulting from rating exposure trends.

NOT APPLICABLE.

6. Limiting factor development and application.

NOT APPLICABLE.

7. Overhead expense development and application of commission and brokerage, other acquisition expenses, general expenses, taxes, licenses, and fees.

Development

See Exhibit 4 of Section D of Exhibit RF-1 for the development of various expense components.

Application

See Exhibit 1 of Section A and Exhibit 1 (Sheet 1), Exhibit 2 (Sheet 1), Exhibit 3 (Sheet 1), and Exhibit 4 (Sheet 1) of Section B for the application of the expense components.

See also the pre-filed testimony of James Davidson.

8. Percentage rate change.

See Summary of Indications (page a) and page 1 (the page preceding Section A) of Exhibit RF-1.

9. Final proposed rates.

See Exhibit 2 (Sheets 3-9), Exhibit 3 (Sheet 3), Exhibit 4 (Sheet 3), and Exhibit 5 (Sheets 1 and 2) of Section C of Exhibit RF-1.

10. Investment earnings, consisting of investment income and realized plus unrealized capital gains, from loss, loss expense and unearned premium reserves.

See Exhibit 6 of Section D of Exhibit RF-1 and the pre-filed testimony of James Davidson and Alyssa Irving.

- 11. Identification of applicable statistical plans and programs and a certification of compliance with them.
- a) The statistical plans utilized are:

ISO Commercial Statistical Plan - Commercial Automobile Module

ISO Commercial Minimum Statistical Plan - Commercial Automobile Module

Annual Statement for 2022

Insurance Expense Exhibits for 2022

Rate Bureau Call for 2022 Automobile and Motorcycle Expense Experience

b) The North Carolina Reinsurance Facility certifies that there is no evidence known to it or, insofar as it is aware following reasonable inquiry, to the statistical agents involved that the data which were collected under the statistical plans identified in response (11) (a) above and used in the filing are not materially true and accurate representations of the experience of the companies whose data underlie such experience. While the Reinsurance Facility is aware that the collected data sometimes require corrections or adjustments, the Reinsurance Facility's review of the data, the data collection process, and the ratemaking process indicates that the aggregate data are reasonable and reliable for ratemaking purposes. See also the pre-filed testimony of James Davidson.

12. Investment earnings on capital and surplus.

NOT APPLICABLE.

13. Level of capital and surplus needed to support premium writings without endangering the solvency of member companies.

NOT APPLICABLE.

NEW CHANGES

The Territories Section is revised to replace the current territory definitions with zip code rating.

The basic limits premium rates for liability insurance for trucks, tractors, and trailers, hired cars, private passenger types, taxis and limousines, buses, van pools, auto dealers, and zone rated vehicles garaged in North Carolina are revised.

These changes are effective October 1, 2022 in accordance with the following Rule of Application:

These changes are applicable to all policies becoming effective on or after October 1, 2022. No policy effective prior to October 1, 2022 shall be endorsed or cancelled and rewritten to take advantage of or to avoid the application of these changes except at the request of the insured and at the customary short rate charges as of the date of such request, but in no event prior to October 1, 2022.

STANDARD PRACTICES SECTION

NOTES

STANDARD PRACTICES SECTION

Unless otherwise noted, the following provisions are restated from the Standard Practice Manual. This chapter does not include all provisions found in the Standard Practice Manual. The provisions not included should be referred to as needed.

A. Membership Obligation

There is created pursuant to Article 37 of Chapter 58 of the General Statutes of North Carolina a non-profit unincorporated legal entity to be known as the North Carolina Reinsurance Facility (hereinafter referred to as the "Facility") consisting of all insurers licensed to write and engaged in writing within this State motor vehicle insurance or any component thereof. Every such insurer, as a prerequisite to further engaging in writing such insurance in this State, shall be a member of the Facility and shall be bound by the provisions of said Article 37, and the Plan of Operation (hereinafter referred to as the "Plan") and the Rules of Operation promulgated by the Board of Governors (hereinafter referred to as the "Board") pursuant thereto.

B. Eligibility (GS 58-37-1)

"Eligible risk", for the purpose of motor vehicle insurance, other than nonfleet private passenger motor vehicle insurance means:

- A person who is a resident of this State who owns a motor vehicle registered or principally garaged in this State;
- A person who has a valid driver's license in this State;
- A person who is required to file proof of financial responsibility under Articles 9A or 13 of Chapter 20 of the General Statutes, in order to register his or her motor vehicle, or to obtain a driver's license in this State;
- A nonresident of this State who owns a motor vehicle registered and principally garaged in this State; or
- The State and its agencies and cities, counties, towns and municipal corporations in this State and their agencies.

However, no person shall be deemed an eligible risk if timely payment of premium is not tendered or if there is a valid unsatisfied judgment of record against such person for recovery of amounts due for motor vehicle insurance premiums and such person has not been discharged from paying said judgment, or if such person does not furnish the information necessary to effect insurance.

Refer to paragraph H.2, Application Requirements, Rate Evasion Fraud, for criteria regarding proof of North Carolina residency or eligible risk status.

C. Extent of Coverage

Policies issued to risks ceded to the Facility shall have the contract terms established by the Board of Governors and filed with the Commissioner of Insurance. Such contract terms will be disseminated by or on behalf of the Facility.

The ceding privileges are as follows:

 For eligible risks (except as provided in paragraph 2 below) motor vehicle insurance coverage up to the following limits shall be eligible for cession to the Facility:

a. Bodily Injury Liability:

\$100,000 Each Person; \$300,000 Each Accident

b. Property Damage Liability:

\$50,000 Each Accident

Single Limit Bodily Injury and Property Damage Liability:

A limit per accident equal to the total of the minimum per accident Bodily Injury and Property Damage Liability limits required under the North Carolina Vehicle Financial Responsibility Act of 1953 as it is in effect on the date of cession to the Facility.

d. Medical Payments:

\$2,000 Each Person, except that this coverage shall not be available for motorcycles.

e. Uninsured Motorists:

\$1,000,000 Each Person and \$1,000,000 Each Accident for Bodily Injury, \$50,000 for Property Damage (\$100 Deductible).

f. Combined Uninsured and Underinsured Motorists:

\$1,000,000 Each Person and \$1,000,000 Each Accident for Bodily Injury and, for Uninsured Motorists, \$50,000 Each Accident for Property Damage (\$100 deductible).

- If an eligible risk is subject to motor vehicle insurance or financial responsibility limits required by:
 - a. Any federal law or federal agency regulation;
 - b. Any law of the State of North Carolina;
 - c. Any rule duly adopted under Chapter 150B, General Statutes of North Carolina; or
 - d. Any rule duly adopted by the North Carolina Utilities Commission

motor vehicle insurance coverages up to the limits required by such law or rule shall be eligible for cession to the Facility.

- 3. For persons who must maintain liability coverage limits above those available under paragraph C.1 of this Section, in order to obtain or continue coverage under personal excess liability or personal "umbrella" insurance policies, motor vehicle insurance coverage up to the following limits shall be eligible for cession to the Facility:
 - a. Bodily Injury Liability:

\$250,000 Each Person; \$500,000 Each Accident

b. Property Damage Liability:

\$100,000 Each Accident

STANDARD PRACTICES

Single Limit Bodily Injury and Property Damage Liability:

A limit per accident equal to the total of the minimum per accident Bodily Injury and Property Damage Liability limits required under the North Carolina Vehicle Financial Responsibility Act of 1953 as it is in effect on the date of cession to the Facility.

d. Medical Payments:

\$5,000 Each Person, except that this coverage shall not be available for motorcycles.

e. Uninsured Motorists:

\$1,000,000 Each Person and \$1,000,000 Each Accident for Bodily Injury, \$50,000 for Property Damage (\$100 Deductible).

f. Combined Uninsured and Underinsured Motorists:

\$1,000,000 Each Person and \$1,000,000 Each Accident for Bodily Injury and, for Uninsured Motorists, \$50,000 Each Accident for Property Damage (\$100 deductible).

D. Rules And Rates; Policy Forms

All policies issued on risks ceded to the Facility shall be in accordance with the policy forms and endorsements and with the rules, rates, and rating by a licensed or statutory rating bureau or organization authorized by the Board of Governors, and filed with the Commissioner of Insurance. Such forms, rules, rates, and rating plans will be disseminated by or on behalf of the Facility.

E. Termination of Cession

1. Expiration

Cession of a risk automatically terminates on the expiration date of the policy period covered by the Notice of Cession, unless the policy has been terminated at an earlier date.

Please note that the Plan of Operation requires the risk to have an underwriting review and the Facility to be again notified of cession prior to the renewal effective date if cession of the risk is to be continued. This requirement applies to each subsequent renewal.

2. Flat Cancellation

When a company cedes a risk for a renewal term and the policyholder does not pay any renewal premium, the company must notify the Facility of termination of cession (See Section 3. Paragraph E. of the Standard Practice Manual). This shall be done in one of two ways depending on the accounting practices of the company.

a. If the company has submitted a cession record only for the ceded policy, then the company must notify the Facility of termination of cession by cancelling the cession via online data entry in EDGE, or through a transaction Code 4 cession sent in an FTP cession file. Such notice must be submitted to the Facility by not more than 90 days after the renewal effective date.

Flat cancellations made after 90 days from the effective date of cession will be suspended pending review by NCRF and will be processed separately.

b. If the company does record the renewal quotation as written premium and cancels such amount when the renewal is not taken, the termination of cession will be accomplished either through the Monthly Accounting Detail Premium Report or through cancellation premium created directly online in EDGE and the Notice of Cession record should not be cancelled online in EDGE on such not-taken renewals.

3. Termination of Insurance (GS 58-37-50)

No member may terminate insurance to the extent that cession of a particular type of coverage and limits is available under the provisions of this Article except for the following reasons:

- Nonpayment of premium when due to the insurer or producing agent.
- b. The named insured has become a nonresident of this State and would not otherwise be entitled to insurance on submission of new application under this Article.
- c. A member company has terminated an agency contract for reasons other than the quality of the agents' insureds or the agent has terminated the contract and such agent represented the company in taking the original application for insurance.
- When the insurance contract has been cancelled pursuant to a Power of Attorney given a company licensed pursuant to the provisions of GS 58-35-5.
- e. The named insured, at the time of renewal, fails to meet the requirements contained in the corporate charter, articles of incorporation, and/or bylaws of the insurer, when the insurer is a company organized for the sole purpose of providing members of an organization with insurance policies in North Carolina.
- The named insured is no longer an eligible risk under GS 58-37-1.

In accordance with the instructions in the initial part of this Section, it should be apparent that when insurance terminates the cession is likewise terminated. If the termination of insurance results in an accounting transaction, for the purpose of cancelling written premium, the Facility will be notified of the termination of cession through the Monthly Detail Premium Records. If the termination occurs at the end of the policy period, cession automatically terminates.

(GS 58-2-164)

If an applicant provides false or misleading information material to the applicant's or any named insured's status as an eligible risk and that fraudulent information makes the applicant or any named insured appear to be an eligible risk when that person is in fact not an eligible risk, the insurer may do any or all of the following:

(1) Refuse to issue, amend, or endorse a policy.

STANDARD PRACTICES

- (2) Cancel or refuse to renew a policy that has been issued.
- (3) Deny coverage for any claim by the applicant for auto liability, comprehensive, or collision coverage. This subdivision does not apply to bodily injury or property damage claims of innocent third parties to the extent of any minimum financial responsibility requirement of State or federal law.

Any motor vehicle liability policy may provide that the insured shall reimburse the insurer for any payment made under a policy of insurance if the issuance of the policy was induced by a knowing and material misrepresentation of facts relating to the insured's status as an eligible risk. For purposes of this subsection, a payment made shall include any sums paid for satisfaction, in whole or in part, of any judgment against the insured or for a reasonable settlement of a claim against the insured for bodily injury or property damage. A payment made shall further include any costs or attorneys' fees incurred by the insurer in the adjustment, investigation, or defense of a claim.

F. Commissions

Commissions paid to producers on business ceded to the North Carolina Reinsurance Facility are subject to minimums as provided in GS 58-37-30. These minimums are defined as not less than the commission on insurance coverage written through the North Carolina Automobile Insurance Plan on May 1, 1973 which is as follows:

- For long-haul trucking applicants and public passenger carrying vehicles other than school buses, 5% of the policy premium for commission to a licensed producer designated by the insured.
- For other applicants, 10% of the policy premium for commission to a licensed producer designated by the insured.
- On any applicant rated and domiciled outside of this State, the licensed producer may be paid only that portion of the producer's commission specified above which is permissible under the laws of the state in which the applicant is rated and domiciled.

The same commission must apply uniformly statewide. Commissions paid on business submitted to designated carriers are contained in Section 3. Paragraph L. of the Standard Practice Manual.

G. Service Standards

- Each insurer shall provide the same type of service to ceded business that it provides for its voluntary market.
- Records provided to agents and brokers shall include an indication that the business is ceded.
- When an insurer cedes a policy or renewal to the Facility and the Facility premium is higher than the premium that would normally be charged if retained by the insurer, the policyholder shall be informed:
 - a. that the policy is ceded;

- that the coverages are written at the Facility rate, which rate differential must be specified;
- of the reason or reasons for the cession to the Facility;
- that the specific reason or reasons for the cession to the Facility will be provided upon the written request of the policyholder to the insurer; and
- that the policyholder may seek insurance through other insurers who may elect not to cede the policy.

If the policyholder obtains motor vehicle liability insurance through another insurer which elects not to cede the policy to the Facility and the policyholder cancels the ceded policy within 45 days of the effective date of the ceded policy, the earned premium for the ceded policy shall be calculated on the pro rata basis, except that the pro rata calculation shall not apply to a cancellation by any insurance premium finance company as provided in GS 58-35-85.

4. Upon the written request of any eligible risk who has been notified pursuant to paragraph 3 above that his motor vehicle insurance policy has been ceded to the Facility, the insurer ceding the insurance policy must provide in writing to that eligible risk the specific reason or reasons for the decision to cede that policy to the Facility. Proof of mailing of the written reason or reasons is sufficient proof of compliance with this obligation.

Note: GS 58-37-25 provides: "With regard to any notice of cession or any written or oral communications specifying the reason or reasons for cession, there will be no liability on the part of, and no cause of action of any nature will arise against: (1) any insurer or its authorized representatives, agents, or employees, or (2) any licensed agent, broker, or persons who furnish to the insurer information as to the reason or reasons for the cession, for any communications or statements made by them, unless the communications or statements are shown to have been made in bad faith with malice in fact".

H. Minimum Underwriting Requirements

- Standards—Each member company is responsible to meet the following minimum underwriting standards for all business ceded to the Facility. Each member ceding risks is responsible to determine that all business ceded to the Facility is correctly classified and rated to develop the correct and proper premium. Classification and rating practices and procedures of each member company shall correspond with those followed for non-Facility business, subject to the following:
 - As to private passenger cars ceded to the Facility, member companies shall:
 - (1) Obtain the identification, date of birth, driver license number and state of issue (including date of original licensing for persons licensed less than two years) of the applicant, of all operators resident in

STANDARD PRACTICES

- the applicant's household and of any non-residents shown as regular operators.
- (2) Determine the use and place of principal garaging of each vehicle to be insured.
- (3) Obtain within 60 days of the cession effective date, for each initial cession, and at least annually thereafter, a current record of convictions for moving traffic violations for the applicant and each operator whose driving record would affect the subclass for every vehicle subject to rating under the North Carolina Safe Driver Insurance Plan.
- (4) Correctly classify and rate each vehicle in accordance with the approved North Carolina Personal Auto Manual.
- (5) Correctly determine and charge any applicable recoupment surcharges.
- b. As to other than private passenger cars ceded to the Facility, member companies shall develop sufficient identification, territory, use, and other information correctly to classify and price, in accordance with the approved North Carolina Reinsurance Facility Commercial Automobile Manual, the insurance afforded.

*

- c. Member companies shall make all underwriting records of business ceded to the Facility available for audit by the Audit Committee or its designate. Member companies shall not:
 - Cede any risk to the Facility except as provided by the rules outlined in Articles IX and X in the Plan of Operation.
 - (2) Refuse to insure any eligible risk for cedable coverages unless an exemption has been approved for that company by the Board of Governors.
- Application Requirements—Each member company shall provide agents with motor vehicle insurance application forms to obtain from applicants sufficient information properly to classify and rate each exposure. This shall include at least the following:
 - a. The name, address, date of birth, operator's license number, and state of issue for the applicant, each operator residing in the applicant's household, and any nonresidents who are regular operators, as well as the original date of licensing for any operator licensed for less than two years.
 - b. Identification of each of the specified vehicles to be insured to include the year, the make and model, the body type, and the vehicle identification number.
 - The use of each vehicle to be insured, as required by the approved classification plan, and the place of principal garaging.
 - d. A record of all accidents and convictions by the applicant and all operators as needed to establish the correct subclass, according to the North Carolina Safe Driver Insurance Plan.

 The correct gross weight and information regarding the use, including the radius of operation, of any commercial automobile.

ж Ф

- f. Any other information necessary to develop the correct rating and premium for any type of risk eligible to be ceded.
- A Statement of Eligibility for Cession of Higher Limits Form NCRF-30 (see Section 3 Exhibit F-1 in the Standard Practice **Manual)** when coverage limits above 100/300/50 are to be ceded to the Facility pursuant to paragraph C.2 of this Section and the coverage limits are required by rule, law, or regulation other than the Vehicle Financial Responsibility Act of 1957 (Article 13 Chapter 20, General Statutes of North Carolina). The insured must complete and sign a Form NCRF-30, and the signed form, or a copy thereof, must be retained in the ceding company's file. Absent a finding by the Facility of a lack of good faith by the ceding company, the ceding company shall be entitled to rely upon the insured's satisfactorily completed statement of eligibility for the cession of limits above 100/300/50. If, upon audit, the ceding company does not have a satisfactorily completed Form NCRF-30 in its file, the ceding company, in order to maintain cession of limits above 100/300/50 to the Facility or, in the event of a loss, in order to recover reimbursement from the Facility for losses in excess of 100/300/50, must prove, to the satisfaction of the Facility, that the higher limits were eligible to be ceded to the Facility as of the effective date of the initial cession of the insured's policy by the ceding company or as of the date notice of such cession was received by the Facility. A Form NCRF-30 is satisfactorily completed if the form is fully completed and the date the form was signed by the insured is prior to the later of (1) the date 45 days after the initial notice of cession of the insured's policy by the ceding company was received by the Facility or (2) the date of a loss.

The initial statement of eligibility by the insured shall remain in effect and may be relied upon by the ceding carrier for subsequent successive renewals of the policy until such time as the insured advises the ceding company that the insured is no longer required by the rules, laws, and regulations referenced in GS 58-37-35(b)(1)e. to maintain coverage limits in excess of 100/300/50 or until the ceding company becomes aware that the insured is no longer required by such rules, laws, or regulations to maintain coverage limits in excess of 100/300/50.

h. A Certification of Higher Coverage Limits Form NCRF-31 (See Section 3 Exhibit G-1 in the Standard Practice Manual) when liability coverage limits above 100/300/50 or medical payments limits above \$2,000 are to be ceded to the Facility pursuant to paragraph C.3 of this Section. The insured must complete and sign a copy of Form NCRF-31 and the signed form, or a copy thereof, must be

STANDARD PRACTICES

retained in the ceding company's file. Absent a finding by the Facility of a lack of good faith by the ceding company, the ceding company shall be entitled to rely upon the insured's satisfactorily completed certification for the cesof liability coverage limits above 100/300/50 and/or medical payments limits above \$2,000. If, upon audit, the ceding company does not have a satisfactorily completed Form NCRF-31 in its file, the ceding company, in order to maintain cession of such limits to the Facility or, in the event of a loss, in order to recover reimbursement from the Facility for losses in excess of 100/300/50 for the liability coverages and/or in excess of \$2,000 for medical payments, must prove, to the satisfaction of the Facility, that the higher limits were eligible to be ceded to the Facility as of the effective date of the initial cession of the insured's policy by the ceding company or as of the date notice of such cession was received by the Facility. A Form NCRF-31 is satisfactorily completed if the form is fully completed and the date the form was signed by the insured is prior to the later of (1) the date 45 days after the initial notice of cession of the insured's policy by the ceding company was received by the Facility or (2) the date of loss.

The initial certification by the insured shall remain in effect and may be relied upon by the ceding carrier for subsequent successive renewals of the policy until such time as the insured advises the ceding company that the higher limits are no longer needed in order to obtain or continue coverage under personal excess liability or personal "umbrella" insurance policies or until the ceding company becomes aware that the higher limits are no longer needed in order to obtain or continue coverage under personal excess liability or personal "umbrella" insurance policies.

Rate Evasion, Fraud—Reliable Proof—Other than Nonfleet Private Passenger Motor Vehicle Insurance

As provided in G.S. 58-2-164(c2), for the purpose of obtaining other than nonfleet private passenger motor vehicle insurance and to the extent relevant to a particular criterion, for eligible risk status, reliable proof of North Carolina residency or eligible risk status includes two or more of the following:

- A utility bill in the name of the applicant showing a North Carolina address for the principal place of business of the applicant.
- (2) A receipt for real property taxes paid by the applicant to a North Carolina locality within the preceding 12-month period and showing the applicant's current North Carolina address.
- (3) A valid North Carolina vehicle registration issued to the applicant and showing the applicant's current North Carolina address.
- (4) A federal income tax return filed by the applicant for the most recent prior filing

period showing the applicant's name and current North Carolina address.

- (5) A valid North Carolina driver's license of an owner of an applicant that is a corporation or an LLC, provided that the person holds at least twenty (20%) percent ownership interest in the applicant corporation or LLC.
- (6) If the principal place of business of a corporation or LLC is the primary residence of the sole owner, any of the documents identified in subdivisions (1) through (5) of this subsection, whether in the name of the corporation or LLC or in the name of the sole owner. For purposes of this subsection, "sole owner" shall mean an individual or a husband and wife.

For purposes of subdivisions (5) and (6) of this subsection, on policies to be ceded to the North Carolina Reinsurance Facility, proof of ownership is established through the execution by the owner of the corporation or LLC of Certification of Ownership Form NCRF – 47 (see Exhibit H-1 in the Standard Practice Manual).

NOTE: For a risk to be an eligible risk for the purpose of motor vehicle insurance other than nonfleet private passenger motor vehicle insurance, the requirements of G.S. 58-37-1(4) must be satisfied. A completed Form NCRF-47 alone does not satisfy those requirements.

The following definitions apply to the above:

"Applicant" means one or more persons applying for the issuance or renewal of an auto insurance policy on which the person or persons will be a named insured.

"Principal place of business" means the single physical location from which the majority of the essential operations of the applicant's business are directed and controlled. The location of a consultant, service agent, or attorney of the applicant shall not be sufficient to establish an applicant's principal place of business.

Ceding at Renewal—The Plan of Operation requires each risk to have an underwriting review and the Facility to be notified of cession prior to the effective date of each renewal if cession is to be effective on that date. This requirement applies to every renewal to be ceded, whether or not the expiring policy was ceded.

THIS WILL INCLUDE AS A MINIMUM OBTAINING CURRENT RECORDS OF CONVICTIONS FOR MOVING TRAFFIC VIOLATIONS EVERY YEAR FOR ALL OPERATORS OF THE VEHICLES INSURED UNDER EACH CEDED POLICY SUBJECT TO RATING UNDER THE SAFE DRIVER INSURANCE PLAN

4. Agents' Responsibility—It shall be the responsibility of each agent to obtain from the applicant answers to all relevant questions on the application for insurance and to obtain from the applicant any other information needed for correct premium determination

NOTES

GENERAL RULES SECTION

NOTES

GENERAL RULES SECTION

Rule 1. REINSURANCE FACILITY SELECTED RULES OF OPERATION

- For general rules of cession to the North Carolina Reinsurance Facility, refer to the Reinsurance Facility's Standard Practice Manual.
- B. The Standard Practice Manual includes information about the following:
 - 1. Facility membership obligations
 - 2. Eligibility for insurance
 - 3. Extent of coverage
 - 4. Rules, rates and policy forms
 - 5. Termination of insurance
 - 6 Commissions
 - Service standards
 - 8. Minimum underwriting requirements
 - 9. Facility member responsibilities

Rule 2. APPLICATION OF THIS MANUAL

A. Contents

The rules, classifications, territories, rates, and additional charges applicable to auto risks insured in accordance with the provisions of the North Carolina Reinsurance Facility are contained herein.

B. Sections

This Manual is divided into separate sections for the following:

- 1. General Rules
- 2. Common Coverages
- 3. Trucks, Tractors, and Trailers
- Public Transportation
- 5. Garage Dealers
- Special Types and Operations

*

- 7. Supplementary Rating Procedures
- 8. Territories
- 9. Rates

C. Rates

- 1. For rates, refer to the Rates Section of this Manual
- The rates and premium displayed in this manual are for an annual policy term. For policies written for a period other than 12 months, modify the annual rates and premiums in accordance with the provisions of the Premium Computation Rule (Rule 4).

D. Statistical Codes

Most statistical codes are shown on the rate schedules or in the specific rules. For statistical codes not shown, refer to the auto module of the commercial statistical plan.

E. Rules

Please note that if a rule regarding a type of coverage is not included in this Manual then the coverage is not eligible to be ceded to the Facility.

Rule 3. POLICY PERIOD

A. Policies may be written for a specific term up to 36 months or on a continuous basis. However, no policy may be written for a period longer than 36 months.

Note: Annual notices of cession are required for three-year policies if coverage for the entire policy period is to be ceded to the Facility.

B. A policy may be renewed by renewal certificates. When renewal certificates are used, they must conform in every respect to current rules, rates, and forms at the time of renewal.

Rule 4. PREMIUM COMPUTATION

- A. The premium to be charged for policy terms not exceeding 12 months shall be as follows:
 - 12-Month Policies—Charge the annual rates or minimum premiums, whichever apply. Compute the premium at the rates in effect at the policy inception.
 - 6-Month Policies—If a policy is written for a specified period of six months, the premium for the policy shall be 50%, respectively, of the one year premium.
 - ★This provision shall not apply to risks classified as public auto. ↔

B. Long Term Policies

For policies issued for more than one year, compute the premium at the rates in effect on each anniversary date of the policy's inception for each annual period. Use Calculation Of Premium Endorsement IL 00 03.

Rule 5. FACTORS OR MULTIPLIERS

Factors or multipliers are to be applied consecutively and not added together, unless otherwise specified.

Rule 6. PREMIUM ROUNDING

Each company may adopt and utilize its own auto insurance premium rounding rule, provided the company is consistent in the application of the rule.

Rule 7. MINIMUM PREMIUM

A. Unless otherwise provided in this Manual, the minimum annual premium charge is \$200 subject to no reduction for each policy covering one or more of the following perils:

> Bodily injury liability Property damage liability Medical payments

GENERAL RULES

- (but not including uninsured and underinsured motorists coverage) even though coverage against other perils may be included in the policy.
- B. The minimum premium shall be inclusive of additional charges imposed for additional hazards in connection with the perils named above.
- C. In the event of cancellation or the issuance of a short term policy, pro rata or .90 of the pro rata amount of such annual minimum premium shall be charged as the conditions require.
- D. This minimum premium shall apply to each policy, certificate or declaration under a bordereau.
- For continuous policies, apply the policy writing minimum premium for each annual period.

Rule 8. ADDITIONAL PREMIUM CHANGES

- A. Prorate all changes requiring additional premium.
- B. In computing the additional premium, charge the rates in effect at the time the addition is made or the rates in effect at the inception of the policy even if the policy inception premium was less than the policy minimum premium. With respect to the election of using the rates in effect at the time the addition is made or the rates in effect at the inception of the policy, a company's election shall be applied consistently by the company and not on a policy by policy basis.
- C. Waive additional premium of \$10 or less. This waiver only applies to cash exchange due on an endorsement effective date.

Each company may adopt and utilize its own additional premium waiver amount up to \$10 provided the company is consistent in the application of the rule between voluntary and ceded business.

Rule 9. RETURN PREMIUM CHANGES

- Compute return premium at the rates used to calculate the policy premium.
- B. Compute return premium pro rata and round to the next higher whole dollar when any coverage or exposure is deleted or an amount of insurance is reduced. Retain the policy minimum premium.
- C. Waive return premium of \$10 or less. Each company may adopt and utilize its own return premium waiver amount up to \$10, provided the company is consistent in the application of the rule between voluntary and ceded business. Grant any return premium due if requested by the insured. This waiver only applies to cash exchange due on the endorsement effective date.

Rule 10. CANCELLATION

The following provisions apply when a policy, auto, or form of coverage is cancelled:

A. If a policy, auto, or form of coverage is cancelled at the request of the insured, the return premium shall be calculated at .90 of the pro rata unearned premium for the

- policy term except in the situations described in paragraph C below.
- B. If a policy, auto, or form of coverage is cancelled by the company, the return premium shall be computed pro rata.
- C. In the following cases, if a policy, auto, or form of coverage is cancelled at the request of the insured, the return premium shall be computed pro rata:
 - if the insured has disposed of the auto, provided the insured takes out a new policy in the same company on another auto to become effective within 30 days of the date of cancellation;
 - if the insured auto is repossessed under terms of a financing agreement;
 - if an auto is cancelled from a policy, and the policy remains in force on other autos;
 - 4. if the insured enters the armed forces of the United States of America;
 - 5. if the insured auto is stolen or destroyed (total or constructive total loss) and cancellation is requested by the insured within 30 days following the date the auto is stolen or destroyed. The return premium for all coverages (including the premium for the coverage under which loss was paid) shall be calculated from the day following the date of such loss;
 - 6. if an insured who has been ceded to the Facility at rates higher than the insurer's voluntary rates obtains insurance through another insurer who elects not to cede the policy to the Facility and the insured cancels the ceded policy within 45 days of the effective date of the ceded policy.

Exception: This pro rata cancellation shall not apply to a cancellation by any insurance premium finance company.

- D. The following provisions apply to policies exceeding 12 months:
 - If cancelled during the first year, calculate the return premium at .90 of the pro rata unearned premium for the first year or pro rata of the premium for the first year in accordance with the provisions of this Rule, plus the full annual premium for the second and/or third years.
 - If cancelled after the first year, the full pro rata unearned premium shall be returned.
- E. If cancellation of the policy results in a return premium of less than \$10, no refund need be made except at the request of the insured, in which case the actual return premium shall be allowed. Each company may adopt and utilize its own additional premium waiver amount up to \$10, provided the company is consistent in the application of the rule between voluntary and ceded business.

F. Retention of Policy Writing Minimum Premium

Retain the policy writing minimum premium when return premium is calculated using the .90 of pro rata return premium calculation procedures except when a policy is cancelled as of the inception date.

COMMON COVERAGES SECTION

NOTES

COMMON COVERAGES SECTION

Rule 11. HOW TO CLASSIFY AUTOS

- A. If an auto has more than one use, use the highest rated classification, unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.
- Classify and rate autos of the private passenger type according to the Private Passenger Types Rule (<u>Rule 12</u>).
- C. Classify and rate autos of the truck type that transport property or are used in business according to the Trucks, Tractors, and Trailers Section.
- D. Classify and rate buses, taxicabs, and other autos that are used in the business of transporting people according to the Public Transportation Section.
- E. Classify and rate new and used auto dealers according to the Garage Section.
- F. Classify and rate autos that do not fit into these categories according to the Special Types and Operations Section.

Rule 12. PRIVATE PASSENGER TYPES

Fleet-Class Code 7398

- A. A private passenger auto is
 - a four-wheel motor vehicle, other than a truck type or van, owned or leased under contract for a continuous period of at least six months, and
 - Not used as a public or livery conveyance for passengers.
 - b. Not rented to others.
 - 2. a pickup truck or van that
 - is owned by an individual or by a husband and wife or individuals who are residents of the same household;
 - has a gross vehicle weight as specified by the manufacturer of less than 14,000 pounds; and
 - is not used for the delivery or transportation of goods and materials unless such use is
 - incidental to your business of installing, maintaining, or repairing furnishings or equipment; or
 - for farming or ranching.
- B. ★The rates displayed on the rate schedules for private passenger types apply to all private passenger autos which are rated as part of a fleet.

A fleet is any risk with five or more motor vehicles owned or hired under a long term contract.

EXCEPTIONS:

Five or more four-wheel private passenger autos owned by an individual or owned jointly by two or more individuals resident in the same household which are not used for business use, other than farming or ranching, and which are covered under a Personal Auto Policy shall not be considered a fleet.

C. Private passenger nonfleet motor vehicles must be written on a Personal Auto Policy and rated out of the Personal Auto Manual.

EXCEPTIONS:

A private passenger nonfleet auto may be written on a commercial auto policy if

- the vehicle is owned by an individual, husband and wife resident of the same household, or jointly by two or more individuals other than husband and wife, and the vehicle is written in conjunction with at least one commercial risk; or
- 2. the vehicle is not owned by a natural person.

However, these vehicles must be rated out of the Personal Auto Manual and coded as private passenger nonfleet for statistical purposes.

D. Premium Determination

- Determine the rating territory from the territory definitions based on the street address of principle garaging.
- Premiums for private passenger types are displayed on the rate schedules for the following:
 - a. Bodily injury liability
 - b. Property damage liability
 - c. Medical payments
- ★The Private Passenger Types rates displayed on the rate schedules apply to all private passenger autos which are rated as part of a fleet.
- For uninsured and underinsured motorist insurance, refer to the Uninsured and Underinsured Motorists Insurance Rule (<u>Rule 20</u>).

E. Classifications and Codes

- Fleet Classification—Use code 7398.
- Nonfleet—Use North Carolina Rate Bureau/ Reinsurance Facility Endorsement CA 01 99 when insuring nonfleet private passenger autos on a commercial auto policy. Code as private passenger nonfleet for statistical purposes.

Rule 13. FARMERS AUTOS

Class Code 7399

A. Eligibility

This Rule applies to private passenger autos, pickups, panel trucks, and vans rated as part of a fleet which meet all the following qualifications:

- 1. Principally garaged on a farm or ranch
- Owned by an individual or husband and wife resident in the same household, or by a farm family partnership or corporation
- Not used in any occupation other than farming or ranching
- Not used in going to and from work other than farming or ranching

B. Premium Computation

Charge 70% of the Private Passenger Types rate shown on the rate schedules.

COMMON COVERAGES

Rule 14. COMBINATION OF INTERESTS

More than one interest may be named on a policy and rated as a single risk if one interest owns more than 50% of another. All the interests that are combined must be named on the policy.

Rule 15. DRIVE OTHER CAR COVERAGE

(Class Code 9020)

- A. Drive other car coverage is provided for no additional charge in the following cases:
 - An individual named insured who is an auto dealer garage risk. Use Individual Named Insured—Dealers Only Endorsement CA 99 18.
 - An individual named insured who owns a private passenger auto, refer to the Individual As Named Insured Rule (<u>Rule 18</u>) in this Section. Use Individual Named Insured Endorsement CA 99 17.
- B. Except for an individual named insured who is an auto dealer garage risk or an individual named insured who owns a private passenger auto, use Drive Other Car Coverage—Broadened Coverage For Named Individuals Endorsement CA 99 10. For each named individual, charge the following rates:

Coverage	Limits	Premium per Named Individual
Bodily Injury	\$30/60	\$16
Property Damage	25	9
Medical Payments	500	4
•	1,000	5
	2,000	6

Uninsured Motorists—Charge the additional persons rate in the Uninsured and Underinsured Motorists Insurance Rule (Rule 20).

C. In all cases, drive other car coverage includes coverage for the spouse for no additional charge.

Rule 16. NONOWNERSHIP LIABILITY

A. Garage Dealer Risks

Coverage for nonownership liability for garage dealer risks is included in the basic garage charges. The following rating methodology applies to other than garage dealer risks.

B. Eligibility

For eligibility for this coverage, refer to Section I of the Facility Standard Practice Manual and General Statute 58-37-1.

- 1. Premium Development
 - a. Application

For All Risks Other than Social Service Agency Risks as Defined in the Public Transportation Section

 Apply one of the following procedures, as appropriate: (a) All Risks Other than Garage Service Operations

Determine the total number of employees of the insured at all locations and select the advance premium from the following table:

Class	Total Number	•	Injury and ty Damage
Code	of Employees	30/60 BI	\$25,000 PD
6601	0–25	\$ 7	\$ 8
6602	26-100	18	22
6603	101-500	58	72
6604	501-1,000	110	138
6605	Over 1,000	169	213

(b) Garage Service Operations (Class Code 6680)

Coverage is provided solely for the operation of nonowned autos by auto repair shops, service stations, storage garages, and public parking places, or tow truck operators. Refer to the General Liability or Market Segments Divisions for all other garage operations liability coverage.

- (i) Determine the total number of employees whose principal duty involves the operation of autos.
- (ii) Multiply this amount by .35.
- (iii) Multiply the result by the Private Passenger Types rates in the rate schedules of the North Carolina Reinsurance Facility Manual.
- (2) To extend nonownership liability coverage to cover the individual liability of employees (including employees of garage service operations) while using their autos and other covered nonowned autos in the employer's business, compute the additional premium by multiplying the premium determined in accordance with preceding paragraph 1.a.(1) or 1.a.(2) by .25 (Class Code 6671). Use Employees As Insureds Endorsement CA 99 33.
- (3) For Partnership as the Named Insured
 - (a) When nonownership liability coverage is afforded, the coverage form provides coverage to a partnership for the use of autos owned by individual partners which are used in the business of the partnership.
 - (b) Multiply the Private Passenger Types rates in the <u>rate schedules</u> by .10 for each active or inactive partner for the territory in which the partnership is located. Apply this rating base regardless of the type of autos being used (Class Code 7000).

COMMON COVERAGES

- Social Service Agency Risks (Class Code 6670)
 - Determine the advance premium based on the number of employees in accordance with paragraph a.(1)(a) above.
 - (2) Charge an additional premium determined as follows:

Determine the total number of volunteers at all locations who regularly use their own autos to transport social service clients in connection with the agency's programs and multiply this number by \$1.59 bodily injury, \$30,000/60,000 limits, and \$.75 property damage, \$25,000 limit per volunteer. The minimum premium shall be \$10 bodily injury, \$30,000/60,000 limits, and \$6 property damage, \$25,000 limit.

- (3) To extend nonownership coverage to cover the individual liability of agency employees, charge an additional premium determined in accordance with paragraph 1.a.(2) (Class Code 6671). Use Employees As Insureds Endorsement CA 99 33.
- (4) To extend coverage to cover the blanket individual liability of volunteers who use their own autos in the agency's social service programs, charge an additional premium of \$.37 bodily injury, \$30,000/ 60,000 limits, and \$.19 property damage, \$25,000 limit, per volunteer donor subject to a minimum premium of \$5 per policy (Class Code 6672). Use Social Service Agencies—Volunteers As Insureds Endorsement CA 99 34
- Unless there is substantial change in exposures during the policy period, the advance premium is the earned premium.

Rule 17. HIRED AUTOS

- A. Autos Hired, Loaned, Leased, or Furnished
 - If an insured, lessee, or renter is providing the primary insurance covering the auto (Class Code 6614) and the term of the lease is
 - a. 6 months or more:
 - (1) Rate as though owned by the insured, lessee, or renter; and
 - (2) If the policy is extended to cover the owner of the auto as an additional insured, multiply the otherwise applicable liability rate by 1.04. Use Lessor—Additional Insured And Loss Payee CA 20 01 or Hired Autos Specified As Covered Autos You Own Endorsement CA 99 16.
 - Less than 6 months (Class code 6614)—Rate according to the provisions in paragraph B except as follows:
 - For liability coverage, separately estimate the cost of hire for those autos for which the insured is providing the primary insurance.

- (2) Multiply the hired car premium by 6.00.
- (3) Multiply the rate determined in the preceding paragraph times each \$100 cost of hire.
- If the owner of the auto is providing the primary insurance, rate as though owned by the insured.
- If a lessor is an employee of the insured, use Employee As Lessor Endorsement CA 99 47.
- If an employee rents or hires an auto in his or her own name for the purpose of performing duties related to the insured's business, use Employee Hired Autos Endorsement CA 20 54.
- B. Cost of Hire Basis—Liability Coverages (Class Code 6611 Minimum Premium Class Code 6619) Class Code 6625 Without Hold Harmless Agreements and 6627 With Hold Harmless Agreements. Minimum Premium Class Code 6619
 - Truckers

For truckers, refer to the Truckers/Motor Carrier Rule (Rule 34).

- 2. Premium Computation
 - a. Estimate the total cost for the hire of autos for each state where the insured does business. Do not include charges for services performed by common or contract motor carriers subject to the insurance requirement of any public authority regulating motor carriers.
 - b. To compute the advance premium, multiply the cost of hire rate on the state rate schedules times each \$100 cost of hire in each state. Add the total cost of hire premium for all states.
 - Unless there is substantial change in exposures during the policy period, the advance premium is the earned premium.
 - d. The minimum premium is \$10 bodily injury, \$30,000/60,000 limits, and \$4 property damage, \$25,000 limit.

Rule 18. INDIVIDUAL AS THE NAMED INSURED

Endorse a policy covering an individually owned auto with the appropriate individual named insured endorsement.

- Family drive other car coverage is provided at no additional charge if the policy covers
 - a private passenger auto not used for public transportation or rented to others without a driver;
 - a pickup, panel truck, or van that is not customarily used in the business of the insured other than for farming or ranching.
 - Use Individual Named Insured Endorsement CA 99 17.
- B. Drive other car coverage is provided at no additional charge if the policy covers an auto dealer garage risk. Use Individual Named Insured—Dealers Only Endorsement CA 99 18.

COMMON COVERAGES

Rule 19. MEDICAL PAYMENTS

- A. The premiums for trucks, tractors, trailers, public autos, and private passenger types are on the rate schedules.
- B. For zone rated risks, refer to the zone rating tables.
- C. For all other classes, refer to the section Rules.
- For premiums for limits not shown, refer to the Increased Limits Rule (<u>Rule 22</u>).

* *

E. Use Auto Medical Payments Coverage Endorsement CA 99 03

Rule 20. UNINSURED AND UNDERINSURED MOTORISTS INSURANCE

For purposes of this Rule, the following definitions apply:

A commercial motor vehicle is defined as (1) any single motor vehicle with a GVWR of at least 26,001 pounds; (2) a combination of motor vehicles that has a combined GVWR of at least 26,001 pounds and includes as part of the combination a towed unit that has a GVWR of at least 10,001 pounds; (3) a combination of motor vehicles that includes a towing unit that has a GVWR of at least 26,001 pounds and a towed unit that has a GVWR of less than 10,001 pounds; (4) a motor vehicle that is designed to transport 16 or more passengers, including the driver; or (5) a motor vehicle transporting hazardous materials and required to be placarded in accordance with 49 C.F.R. Part 172, Subpart F.

A noncommercial motor vehicle is defined as any motor vehicle that is not a commercial motor vehicle as defined above, but that is otherwise subject to the requirements of North Carolina's Motor Vehicle Safety and Financial Responsibility Act of 1953

A. Uninsured Motorists Coverage Only

1. Owners—(Class Code—Refer to statistical plan.)

Bodily injury and property damage uninsured motorists coverage shall be afforded under every auto liability policy insuring the owner of a motor vehicle registered or principally garaged in North Carolina.

EXCEPTIONS:

- This coverage shall not apply when the insured has purchased bodily injury liability limits greater than \$30,000/\$60,000.
- For policies insuring only commercial motor vehicles or a fleet of only noncommercial motor vehicles, uninsured motorists coverage is not mandatory and will apply only if purchased by the insured.

For the purpose of determining whether a policy is applicable solely to fleet vehicles, an insurer may rely upon the number of vehicles reported by the insured at the time of issuance of the policy for the policy term in question. In the event of a renewal of the policy, when determining whether a policy is applicable solely to fleet vehicles, the insurer may rely upon the number of vehicles reported by the insured at the time of renewal of the policy for the policy term in question.

Note:

For any fleet or nonfleet policy insuring both commercial and noncommercial motor vehicles with bodily injury liability limits not greater than \$30,000/\$60,000, uninsured motorists coverage only is mandatory and shall be afforded.

a. Basic Limits

The limits of uninsured motorists bodily injury coverage shall be \$30,000/\$60,000 unless the insured purchases a higher limit of uninsured motorists bodily injury coverage but in no event shall an insurer be required to sell uninsured motorists bodily injury coverage at limits that exceed \$1,000,000/1,000,000. The limit of uninsured motorists property damage coverage shall equal the highest limit of liability for property damage liability coverage for any one noncommercial motor vehicle insured under the policy, provided, however, that (1) the limits shall not be required to exceed \$1,000,000 regardless of whether the highest limits of property damage liability coverage for any one vehicle insured under the policy exceed those limits, and (2) a named insured may purchase lesser limits of uninsured motorists property damage coverage but not less than the property damage liability limits required by North Carolina's financial responsibility law.

Each time a policy is issued or renewed, the insurer shall notify the named insured as provided in paragraph C of this Rule.

Basic limits of uninsured motorists coverage are \$30,000/\$60,000 bodily injury and \$25,000 property damage. Uninsured motorists property damage coverage is subject to an exclusion of the first \$100 of damage.

If provided, this coverage must apply to all autos insured under the policy at the limits determined in this Rule.

Rate—Charge the following for each auto insured under the policy.

 Individual or Married Couple (Other than Garage Risks)—Per Auto

Private Passenger Types \$15 Other than Private Passenger Types 8

(2) Garage Risks

\$6 for each set of dealer or transporter plates in addition to the premium charged for any separately registered autos

(3) All Others—Per Auto

Private Passenger Types \$13 Other than Private Passenger Types 6

This rate is not subject to modification under the provisions of any rating plan or other Manual rule.

Punitive damages must be excluded from all policies providing uninsured and/or underinsured motorists coverage. Use Endorsement CA 21 71.

COMMON COVERAGES

Use North Carolina Uninsured Motorist Coverage Limits—CA 21 16.

b. Increased Limits

Increased limits of uninsured motorists bodily injury coverage may be afforded. Uninsured motorists property damage limits may not exceed the property damage liability limit afforded by the policy.

(1) Bodily Injury Liability

(a) To compute the premium for limits higher than the basic limits for uninsured motorists coverage only, add the appropriate rate shown below for each auto or set of dealer or transporter plates to the basic limits premium:

		Addition	nal Charge
В	Limits	PP Types	Other than PP Types
\$	50/100	\$2	\$1
	85/85	3	2
	100/200	4	2
	100/300	5	2
	250/500	7	3
	300/300	8	3
	500/500	9	4
5	500/1,000	10	4
1,0	000/1,000	11	5
1,5	500/1,500	12	6
2,0	000/2,000	13	7
2,5	500/2,500	14	8
5,0	000/5,000	15	9
7,5	500/7,500	16	10
10,00	00/10,000	17	11
15,00	00/15,000	18	12

- (b) Compute the charges for limits not shown by interpolation.
- (2) Property Damage Liability
 - (a) To compute the premium for limits higher than the basic limits for uninsured motorists coverage only, add the rates shown for each auto or set of dealer or transporter plates to the basic limits premium:

Additional Charge

PD Limits	PP Types	Other than PP Types
\$ 50	\$1.00	\$1.00
85	1.01	1.01
100	1.02	1.02
300	1.03	1.03
400	1.04	1.04
500	1.05	1.05
750	1.06	1.06
1,000	1.07	1.07
1,500	1.08	1.08
2,000	1.09	1.09
2,500	1.10	1.10
5,000	1.11	1.11

Additional Charge Other than PD Limits PP Types PP Types 7,500 1.12 1.12 10,000 1.13 1.13

1.14

1.14

(b) Compute the charges for limits not shown by interpolation.

c. Additional Persons

15,000

Bodily injury uninsured motorists coverage only may be extended to an executive officer, partner, or employee of the named insured at a charge of \$3.08, provided such additional person does not own an automobile.

The charge for each additional person shall not be subject to modification under the provisions of any rating plan or other Manual rule.

Uninsured Motorists Insurance for Nonowners (Bodily Injury Only) (Class Code 9900)

Uninsured motorists insurance for a limit of \$30,000/\$60,000 bodily injury may be afforded to any person who does not own an auto and who is not afforded such coverage as a named individual under paragraph A.1 of this Rule. Such coverage shall be written for a period of one year or three years at the following rates:

RATES

The following rates apply to each individual, including the spouse and relatives of either, resident in the same household as the named insured:

1 Year Policy	 \$39

3. Trailers

Do not charge an uninsured motorists premium for trailers when power units designed to tow such trailers are insured for uninsured motorists insurance on the same coverage form.

Combined Uninsured/Underinsured Motorists Coverage

Owners—(Class Code—Refer to statistical plan.)

Bodily injury and property damage combined uninsured/underinsured motorists coverage shall be afforded under every auto liability policy insuring the owner of a motor vehicle registered or principally garaged in North Carolina.

EXCEPTIONS:

- This coverage shall not apply when the insured has purchased bodily injury liability limits not greater than \$30,000/\$60,000.
- For policies insuring only commercial motor vehicles or a fleet of only noncommercial motor vehicles, combined uninsured/underinsured motorists coverage is not mandatory and will apply only if purchased by the insured.

For the purpose of determining whether a policy is applicable solely to fleet vehicles, an insurer may rely upon the number of vehicles reported by the insured at the

COMMON COVERAGES

time of issuance of the policy for the policy term in question. In the event of a renewal of the policy, when determining whether a policy is applicable solely to fleet vehicles, the insurer may rely upon the number of vehicles reported by the insured at the time of renewal of the policy for the policy term in question.

Note:

For any fleet or nonfleet policy insuring both commercial and noncommercial motor vehicles with bodily injury liability limits greater than \$30,000/\$60,000, combined uninsured/ underinsured motorists coverage is mandatory and shall be afforded.

1. Limits

The limits of combined uninsured/underinsured motorists bodily injury coverage shall equal the highest limits of liability for bodily injury liability coverage for any one noncommercial motor vehicle insured under the policy, provided, however, that (1) the limits be required to \$1,000,000/1,000,000 regardless of whether the highest limits of bodily injury liability coverage for any one motor vehicle insured under the policy exceed those limits; (2) a named insured may purchase greater or lesser limits, except that the limits must exceed the bodily injury limits required by North Carolina's financial responsibility law, and in no event shall an insurer be required to sell combined uninsured/underinsured motorists bodily injury coverage at limits that exceed \$1,000,000/ 1,000,000; and (3) the limits shall be equal to the limits of uninsured motorists bodily injury coverage purchased. The limit of uninsured motorists property damage coverage, sold with combined uninsured/underinsured motorists bodily injury coverage, shall equal the highest limit of liability for property damage liability coverage for any one noncommercial motor vehicle insured under the policy, provided, however, that (1) the limits shall not be required to exceed \$1,000,000 regardless of whether the highest limits of property damage liability coverage for any one vehicle insured under the policy exceed those limits; and (2) a named insured may purchase lesser limits of uninsured motorists property damage coverage but not less than the property damage liability limits required by North Carolina's financial responsibility law.

Each time a policy is issued or renewed, the insurer shall notify the named insured as provided in paragraph C of this Rule.

The property damage coverage applies only on an uninsured motorists basis and is subject to an exclusion of the first \$100 of damage.

If provided, this coverage must apply to all autos insured under the policy at the limits determined in this Rule.

2. Rates

Add the rates shown below to the basic limits rates for uninsured motorists coverage only for each auto insured under the policy.

- a. Bodily Injury Liability
 - (1) To compute the premium for limits higher than the basic limits, add the rate shown below for each auto or set of dealer or

transporter plates to the basic limits premium:

Additional Charge

ВІ	Limits	PP Types	Other than PP Types
\$	50/100	\$8	\$6
	85/85	17	13
	100/200	24	18
	100/300	26	19
	250/500	55	41
	300/300	59	44
	500/500	73	55
	500/1,000	77	58
1,0	000/1,000	89	67
1,	500/1,500	97	73
2,0	000/2,000	103	78
2,	500/2,500	109	82
5,0	000/5,000	128	96
7,	500/7,500	137	103
10,00	00/10,000	143	108
15,00	00/15,000	151	111

(2) Compute the charges for limits not shown by interpolation.

b. Property Damage Liability

(1) To compute the premium for limits higher than the basic limits, add the rates shown for each auto or set of dealer or transporter plates to the basic limits premium:

Additional Charge

PD Limits	PP Types	Other than PP Types
\$ 50	\$1.00	\$1.00
85	1.01	1.01
100	1.02	1.02
300	1.03	1.03
400	1.04	1.04
500	1.05	1.05
750	1.06	1.06
1,000	1.07	1.07
1,500	1.08	1.08
2,000	1.09	1.09
2,500	1.10	1.10
5,000	1.11	1.11
7,500	1.12	1.12
10,000	1.13	1.13
15,000	1.14	1.14

(2) Compute the charges for limits not shown by interpolation.

These total rates are not subject to modification under the provisions of any rating plan or other Manual rule.

3. Trailers

Do not charge an uninsured motorist premium for trailers when power units designed to tow such trailers are insured for uninsured motorist insurance on the same coverage form.

COMMON COVERAGES

Punitive damages must be excluded from all policies providing uninsured and/or underinsured motorists coverage. Use Endorsement CA 21 71.

Use North Carolina Uninsured Motorist Coverage Limits—CA 21 16.

C. Notice Requirements

Every insurer that sells motor vehicle liability policies shall, when issuing and renewing a policy, give reasonable notice to the named insured of all of the following:

- The named insured is required to purchase uninsured motorists bodily injury coverage, uninsured motorists property damage coverage, and, if applicable, underinsured motorists bodily injury coverage.
- The named insured's uninsured motorists bodily injury coverage limits shall be equal to the highest limits of bodily injury liability coverage for any one vehicle insured under the policy unless the insured elects to purchase greater or lesser limits for uninsured motorists bodily injury coverage.
- The named insured's uninsured motorists property damage coverage limits shall be equal to the highest limits of property damage liability coverage for any one vehicle insured under the policy unless the insured elects to purchase lesser limits for uninsured motorists property damage coverage.
- 4. The named insured's underinsured motorists bodily injury coverage limits, if applicable, shall be equal to the highest limits of bodily injury liability coverage for any one vehicle insured under the policy unless the insured elects to purchase greater or lesser limits for underinsured motorists bodily injury coverage.
- The named insured may purchase uninsured motorists bodily injury coverage and, if applicable, underinsured motorists coverage with limits up to one million dollars (\$1,000,000) per person and one million dollars (\$1,000,000) per accident.

The insurer shall be deemed to have given reasonable notice if it includes, in at least 12 point type, Form NC 03 40 02 10-Notice Of Right To Purchase Higher Limits of UM/UIM or substantially similar language as a notice accompanying the original and renewal Declarations page or if it includes, in at least 12 point type, the same language as the language in said form, or substantially similar language, on the policy's original and renewal Declarations page.

Rule 21. CERTIFIED RISKS—FINANCIAL RESPONSIBILITY LAWS

For risks rated in accordance with this Manual for which the insured requests the company to certify the policy in accordance with financial responsibility laws, a fee of \$25 will be added to the total liability premium. This fee applies per driver and shall be applied each time the company provides such certification.

Rule 22. INCREASED LIMITS

A. Liability Increased Limits

- The rates and premiums in this Manual are for basic limits of \$30,000/60,000 bodily injury and \$25,000 property damage.
- For limits in excess of \$30,000/60,000 bodily injury and \$25,000 property damage, refer to the increased limit tables in the Commercial Auto Liability Rates Section of this Manual. For limits not shown, interpolation shall be used.

B. Medical Payments Limits Not Displayed on the Rate Schedules

- The \$500 basic limit medical payments premiums for trucks, tractors, public autos, and private passenger types are on the rate schedules.
- For limits not displayed on the rate schedules, compute the premium as follows:
 - a. Private Passenger Types

Multiply the \$500 limit by the following factors:

Limits	Codes	Factor
\$1,000	3	1.30
2.000	4	1.46

\$250 Limit (Limit Code 7)—Decrease the \$500 limit premium by \$1.

- b. Trucks, Tractors, Trailers, and Public Autos
 - (1) Other than Zone Rated Autos

Multiply the \$500 limit premium by the following factors:

Limit			
Limit	Codes	Factors	
\$ 250	7	0.85	
750	2	1.10	
1,000	3	1.18	
2,000	4	1.32	

(2) Zone Rated Autos

Multiply the \$500 limit premium by the following factors:

Limit	Limit Codes	Factors
\$ 250	7	0.85
750	2	1.10
1,000	3	1.20
2 000	4	1.30

Rule 23. DEDUCTIBLE INSURANCE

A. Eligibility

- Bodily injury liability insurance may be written on a deductible basis provided the company insures five or more autos owned by or under the control of the insured.
- Property damage liability insurance may be written on a deductible basis provided the company insures

COMMON COVERAGES

one or more autos owned by or under the control of the insured.

- If in addition to such autos the company insures both hired autos and the nonownership liability of the insured, the deductible form is also available for these coverages.
- Use Deductible Liability Coverage Endorsement CA 03 01 or CA 03 02.

B. Deductible Amounts

- The deductible amount applies to the loss portion of the claim and not to the expense incurred by the company.
- 2. The minimum deductible for bodily injury and property damage is \$250.

C. Rates

1. Bodily Injury

Reductions from the full coverage bodily injury rates for deductible amounts for the limits of \$30,000/60,000 are given in the table below:

Amount of Deductible	Percent Reduction From Full Coverage Rate	
	Per Claim	Per Accident
\$ 250	9%	7%
500	16	12
1,000	23	20
2,500	28	26
5,000	37	34
10,000	40	37
20,000	52	49
25,000	92	55

2. Property Damage

Reductions from the full coverage property damage rates for deductible amounts per accident for the limit of \$25,000 are given in the table below:

Amount of Deductible	Percent Reduction From Full Coverage Rate
\$ 250	42%
300	44
400	47
500	48
1,000	49
2,000	50
3,000	51
4,000	52
5,000	53

3. Only those deductibles shown are available.

Rule 24. POLLUTION LIABILITY

Coverage for bodily injury or property damage arising out of the discharge of pollutants that are being transported or towed by, loaded onto or unloaded from, or, with the exception of certain fuels, stored, disposed of, treated or processed in or upon a covered auto is excluded under the Business Auto and Truckers Policies.

A. Pollution Liability—Broadened Coverage for Covered Autos

Business Auto and Truckers Policies shall be endorsed to delete that part of the pollution exclusion and the definition of covered pollution cost or expense, for bodily injury, property damage, and covered pollution cost or expense relating to discharge of pollutants which are in or upon, being transported or towed by, being loaded onto or unloaded from a covered auto for risks which are subject to the Motor Carrier Act of 1980 or any similar or equivalent North Carolina financial responsibility filing requirement. This extension of coverage does not apply to liability assumed under any contract or agreement.

Attach applicable endorsement.

B. Classes of Pollutants

Pollutants that are or that are contained in any property that is being transported or towed by or handled for movement into, onto, or from, covered autos are classed as follows:

- 1. Property (Nonhazardous)
- Hazardous substances as defined in 49 CFR 171.8, transported in cargo tanks, portable tanks, or hopper-type vehicles with capacities in excess of 3,500 water gallons; or in bulk Class A or B explosives, poison gas (Poison A), liquefied compressed gas, or compressed gas; or highway route controlled quantity radioactive materials as defined in 49 CFR 173.455.
- Oil listed in 49 CFR 172.101; hazardous waste, hazardous materials, and hazardous substances defined in 49 CFR 171.8 and listed in 49 CFR 172.101, but not mentioned in 2 above or 4 below.
- Any quantity of Class A or B explosives; any quantity of poison gas (Poison A); or highway route controlled quantity radioactive materials as defined in 49 CFR 173.455.

C. Premium Development

Business Auto and Truckers Policies

- 1. Owned Autos
 - a. Charge an additional 5% of the otherwise applicable bodily injury and property damage premium for each covered auto transporting any substance described in B.1 above.
 - Charge an additional 25% of the otherwise applicable bodily injury and property damage premium for each covered auto transporting any substance described in B.2 above.
 - c. Charge an additional 10% of the otherwise applicable bodily injury and property damage premium for each covered auto transporting any substance described in B.3 above.
 - d. Charge an additional 25% of the otherwise applicable bodily injury and property damage premium for each covered auto transporting any substance described in B.4 above.
 - e. Where more than one class of pollutants is transported by a covered auto, apply the charge which develops the highest premium.

COMMON COVERAGES

2. Hired Autos

Charge an additional percentage of the otherwise applicable bodily injury and property damage premium for hired auto coverage. Such percentage is the highest one determined in accordance with 1 above for any covered auto. Where hired autos will transport more than one class of pollutants, apply the charge which develops the highest premium.

Rules 25-30. RESERVED FOR FUTURE USE

NOTES

TRUCKS, TRACTORS, AND TRAILERS SECTION

NOTES

TRUCKS, TRACTORS, AND TRAILERS SECTION

Rule 31. ELIGIBILITY

This Section applies to all trucks, including pickup, panel, and van types, truck-tractors, trailers, and semitrailers except for the following:

- A. Autos used for public transportation. Refer to the Public Transportation Section.
- Autos leased or rented to others without drivers by leasing or rental concerns. Refer to the Leasing or Rental Concerns Rule (Rule 67).
- C. Pickups, panel trucks, or vans owned by an individual, husband and wife resident in the same household, or a family farm partnership or corporation and used for farming or ranching and not used in any occupation other than farming or ranching. Refer to the Farmers Autos Rule (Rule 13).
- Individually owned nonfleet pickups, panel trucks, or vans. Refer to Rule 12. Private Passenger Types.
- E. Self-propelled vehicles with the following types of permanently attached equipment. Refer to the Special or Mobile Equipment Rule in the Special Types Section (Rule 72).
 - 1. Equipment designed primarily for
 - a. snow removal;
 - road maintenance, but not construction or resurfacing;
 - c. street cleaning;
 - Cherry pickers and similar devices mounted on auto or truck chassis and used to raise or lower workers;
 - Air compressors, pumps, and generators, including spraying, welding, building cleaning, geophysical exploration, lighting, and well servicing equipment.

Rule 32. PREMIUM DEVELOPMENT— OTHER THAN ZONE RATED AUTOS

- A. This Rule applies to
 - 1. all light trucks and trailers used with light trucks;
 - all other trucks, tractors, and trailers which regularly operate within a 200-mile radius from the street address of principal garaging. For those autos regularly operating beyond a 200 mile radius, refer to the Premium Development—Zone Rated Autos Rule (Rule 35).
- B. Determine the classification, rating factor, and class code as follows:
 - Determine whether the risk is classified as fleet or nonfleet according to the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).
 - Determine the primary rating factor from the Trucks, Tractors, and Trailers Classifications Rule (Rule 33) based on size class, business use class, and radius class.
 - Determine the secondary rating factor, if any, from the Trucks, Tractors, and Trailers Classifications

Rule (Rule 33) based on the special industry classifications.

- Determine the combined rating factor by adding or subtracting the secondary rating factor to or from the primary rating factor.
- For trailers used with light trucks which regularly operate beyond a 200-mile radius, use the rating factor for the intermediate rating class.

C. Premium Computation

- ★For vehicles principally garaged in North Carolina:
 - Determine the rating territory from the territory definitions based on the street address of principal garaging.
 - b. Liability Coverage .
 - Determine the fleet or nonfleet base premiums from the liability base premium schedule on the rate schedules.
 - (2) Multiply the base premium by the combined rating factor.
 - ★Medical Payments Coverage ◆
 - (1) Trucks and Tractors
 - (a) Primary and secondary rating factors do not apply.
 - (b) Determine the premiums from the liability base premium schedule. For premiums not shown, refer to the Increased Limits Rule (Rule 22).
 - (2) Trailers
 - (a) Determine the base premium from the liability base premium schedule. For premiums not shown, refer to the Increased Limits Rule (Rule 22).
 - (b) Multiply the base premium by the primary rating factor.
 - (c) Secondary rating factors do not apply.
 - d. Uninsured and Underinsured Motorists Insurance
 - Primary, secondary, and fleet rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.
- ★For vehicles principally garaged in states other than North Carolina:
 - a. Liability Coverage
 - (1) Determine the fleet or nonfleet base premiums from the liability base premium schedule from the rate schedules for the state where the vehicle is principally garaged.
 - (2) Multiply the base premium by the combined rating factor.

TRUCKS, TRACTORS, AND TRAILERS

- b. Medical Payments Coverage
 - (1) Trucks and Tractors
 - (a) Primary and secondary rating factors do not apply.
 - (b) Determine the premium from the liability base premium schedule. For premiums not shown, refer to the Increased Limits Rule (Rule 22).

(2) Trailers

- (a) Determine the base premium from the liability base premium schedule. For premiums not shown, refer to the Increased Limits Rule (Rule 22).
- (b) Multiply the base premium by the primary rating factor.
- (c) Secondary rating factors do not apply.
- Uninsured and Underinsured Motorists Insurance
 - (1) Primary, secondary, and fleet rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.❖

Rule 33. TRUCKS, TRACTORS, AND TRAILERS CLASSIFICATIONS

Classify trucks, tractors, and trailers for liability coverages as follows:

A. Fleet—Nonfleet Classifications

- Classify as fleet the autos of any risk that has five or more self-propelled autos of any type that are under one ownership. Do not include autos owned by allied or subsidiary interests unless the insured holds a majority financial interest.
- Do not include mobile equipment insured on a general liability policy in determining if the risk is a fleet.
- Do not include trailers in determining if the risk is a fleet, but apply the fleet classification to the trailers if the risk otherwise is classified as a fleet.
- 4. Classify the autos of any other risk as nonfleet.
- Do not change the fleet or nonfleet classification because of midterm changes in the number of owned autos, except at the request of the insured. The policy must be cancelled and rewritten in accordance with the Cancellation Rule.

B. Primary Classifications

- Gross vehicle weight (GVW) and gross combination weight (GCW) mean the following:
 - a. GVW—The maximum loaded weight for which a single auto is designed, as specified by the manufacturer.

GCW—The maximum loaded weight for a combination truck-tractor and semitrailer or trailer for which the truck-tractor is designed, as specified by the manufacturer.

Size Class

- Light Trucks—Trucks that have a gross vehicle weight (GVW) of 10,000 pounds or less.
- b. Medium Trucks
 - (1) Trucks that have a gross vehicle weight (GVW) of 10,001–20,000 pounds.
 - Include crawler type trucks in this class.
- Heavy Trucks—Trucks that have a gross vehicle weight (GVW of 20,001–45,000 pounds.
- Extra Heavy Trucks—Trucks that have a gross vehicle weight (GVW) over 45,000 pounds.
- Truck-Tractors—A truck-tractor is a motorized auto with or without body for carrying commodities or materials, equipped with fifth wheel coupling device for semitrailers.
 - Heavy Truck-Tractors—Truck-tractors that have a gross combination weight (GCW) of 45,000 pounds or less.
 - (2) Extra Heavy Truck-Tractors—Truck-tractors that have a gross combination weight (GCW) over 45,000 pounds.
- f. Semitrailers—A semitrailer is a trailer equipped with fifth wheel coupling device for use with a truck-tractor with load capacity over 2,000 pounds. This includes bogies used to convert containers into semitrailers.
- g. Trailers—Any trailer with load capacity over 2,000 pounds, other than a semitrailer.
- Service or Utility Trailer—Any trailer or semitrailer with load capacity of 2,000 pounds or less.

3. Business Use Class

If a truck, tractor, or trailer has more than one use, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.

- a. Service Use—For transporting the insured's personnel, tools, equipment, and incidental supplies to or from a job location. This classification is confined to autos principally parked at job locations for the majority of the working day or used to transport supervisory personnel between job locations.
- Retail Use—Autos used to pick up property from, or deliver property to, individual households.
- Commercial Use—Autos used for transporting property other than those autos defined as service or retail.

TRUCKS, TRACTORS, AND TRAILERS

4. Radius Class

Determine radius on a straight line from the street address of principal garaging.

- Local—up to 50 miles—The auto is not regularly operated beyond a radius of 50 miles from the street address where such auto is principally garaged.
- b. Intermediate—51 to 200 miles—The auto is operated beyond a radius of 50 miles but not regularly beyond a radius of 200 miles from the street address where such auto is principally garaged.
- Long Distance—over 200 miles—The auto is operated regularly beyond a 200-mile radius

from the street address where such auto is principally garaged. Apply zone rates for other than light trucks.

Nonfleet and Fleet Primary Classifications—Rating Factors and Statistical Codes

See the primary classifications—rating factors on the following pages.

C. Primary Classifications—Rating Factors and Classification Designators

See the secondary classification rating factor tables for the rating factors and statistical codes.

TRUCKS, TRACTORS, AND TRAILERS

E. Special Provisions for Certain Risks

- Truckers/Motor Carriers. If the business of the insured involves transporting materials or commodities for another, the Truckers/Motor Carrier Rule (Rule 34) also applies.
- Transporters of liquid products. A coverage form that covers an auto used for the bulk transportation of liquid products must exclude accidents resulting from the erroneous delivery of one liquid product for another, or the delivery of any liquid product into the wrong receptacle if the accident occurs after the operations have been completed. Use Wrong Delivery Of Liquid Products Endorsement CA 23 05.
- 3. Amusement devices (Class Code 7905). A coverage form that covers an auto with an amusement device mounted on it must cover the operation of the amusement device at the additional premium of \$154 for \$30,000/60,000 bodily injury and \$30 for \$25,000 property damage liability. The premium is for the period of coverage and not subject to any return.
- Rolling stores. A coverage form that covers autos equipped as a rolling store must exclude product liability. Use Rolling Stores Endorsement CA 23 04.
- 5. Trailers or Semitrailers Used as Showrooms
 - a. To provide liability coverage for trailers or semitrailers used as showrooms or salesrooms, multiply the trailer or semitrailer rating factor by 2.00. The minimum premium per trailer or semitrailer is \$22 for bodily injury, \$30,000/60,000 limits and \$3 property damage, \$25,000 limit. The policy must exclude product liability. Use Rolling Stores Endorsement CA 23 04.
 - For medical payments coverage, multiply the private passenger medical payments premiums for the territory in which the risk is located by 3.00.

Rule 34. TRUCKERS/MOTOR CARRIERS

A. Eligibility

- A trucker is a person or organization in the business of transporting goods, materials, or commodities for another. A motor carrier is a person or organization providing transportation by auto in the furtherance of a commercial enterprise.
- A risk engaged in trucking operations described in preceding paragraph 1 is assigned to the truckers' classification even though they advertise or describe themselves as a contractor, building contractor, building material dealer, sand and gravel hauler, or some other similar name.
- Movers are classified as truckers even though they are not subject to the truckers secondary rating factors.
- For details of coverage refer to the Motor Carrier Coverage Form CA 00 20. Use the Business Auto Coverage Form CA 00 01 when coverage is provided for bobtail operations only.

B. Special Provisions

- 1. Bobtail Operations (Class Code 7489)
 - Coverage may be limited to nontrucking use when the autos are not rented, nor used for business purposes to carry property or to haul someone else's trailers.

Use Truckers—Insurance For Non-Trucking Use Endorsement CA 23 09.

b. Premium Computation

Liability coverages. Multiply the truck, tractor, and trailer nonfleet base premium by a rating factor of 1.75 per unit or combined unit. Primary, secondary, and fleet rating factors do not apply.

c. Premium Determination

Rate autos transporting exclusively for one concern on the same basis as though owned by such concern for both territory and classification

- Specified Car Basis. Truckers may be written on a specified car basis—see the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).
- (2) Cost of Hire Basis. (Class Code 6613, Minimum Premium Class Code 6619) Truckers may be written on the cost of hire basis to cover their liability because of a contract involving the hire of trucks, tractors, and trailers.
 - (a) Determine the total cost of hiring the autos. If autos are hired without operators, include the actual wages of the operators of such autos.
 - (b) Determine the average specified car rate by
 - computing the premium for all autos owned and leased by the insured that are used in trucking operations;
 - (ii) dividing this by the number of trucks and truck-tractors owned and leased by the insured.
- (3) The cost of hire rate is determined by multiplying the average specified car rate by .0033.
- (4) Compute the advance premium by multiplying each \$100 of the total amount estimated for the cost of hire during the policy period by the cost of hire rate.
- (5) Unless there is a substantial change in exposure during the policy period, the advance premium computed at the beginning of the policy term is the earned premium.
- (6) Compute the earned premium at the rates in force at the inception of the policy, in the same manner as the advance premium.

TRUCKS, TRACTORS, AND TRAILERS

(7) If the company which insures the owned autos of the risk also insures the hired autos, the minimum premium is \$11 for \$30,000/60,000 bodily injury and \$6 for \$25,000 property damage liability. Otherwise, the minimum premium is the average applicable specified car rate.

Rule 35. PREMIUM DEVELOPMENT—ZONE RATED AUTOS

A. Except for light trucks and trailers used with light trucks, this Rule applies to trucks, tractors, and trailers regularly operated beyond a 200-mile radius from the street address of principal garaging.

B. ★Premium Development

 For vehicles principally garaged in North Carolina and regularly operate beyond a 200-mile radius.

When an auto is principally garaged in a regional zone and operates from terminals in that zone and in one or more metropolitan zones, the zone combination is the regional zone and the metropolitan zone farthest away.

In all other situations, the zone combination is the zone of principal garaging and the zone of the terminal (included in the auto's operations) farthest from that point.

A terminal is any point at which an auto regularly loads or unloads. It is not limited to a terminal facility which the insured owns and operates.

EXAMPLES:

The auto is principally garaged in Raleigh, North Carolina (regional zone 47) and its operations include terminals in Sacramento, California (regional zone 40) and Denver, Colorado (metropolitan zone 10). The proper zone combination is 47 and 10.

The auto is principally garaged in Raleigh, North Carolina (regional zone 47) and its operations include a terminal in Asheville, North Carolina (regional zone 47). The proper zone combination is 47.

The auto is principally garaged in Charlotte, North Carolina (metropolitan zone 5) and has terminals in Denver, Colorado (metropolitan zone 10) and Sacramento, California (regional zone 40). The proper zone combination is 5 and 40.

- a. Determine the classification rating factor and class code as follows:
 - Determine whether the auto is classified as fleet or nonfleet according to the Trucks, Tractors, and Trailers Classifications Rule (<u>Rule 33</u>).
 - (2) Determine the primary rating factor from the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).
 - (3) Determine the secondary classifications code from the Trucks, Tractors, and Trailers Classifications Rule (<u>Rule 33</u>).

b. Liability Coverages

- Determine the liability base premiums for the zone combination from the <u>Zone Rating</u> <u>Table</u>—Garaged in North Carolina.
- (2) For fleets, multiply the base premiums by .70.
- (3) Multiply the base premium by the long distance rating factor from the primary classification table in the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).

c. Medical Payments

- (1) Trucks and Tractors
 - (a) Determine the \$500 medical payments premium of the zone combination from the Zone Rating Table—Garaged in North Carolina.
 - (b) Primary and secondary rating factors do not apply.
 - (c) For limits not shown, refer to the Commercial <u>Auto Liability Rate schedules</u>.

(2) Trailers

- (a) Determine the \$500 medical payments premium of the zone combination from the Zone Rating Table—Garaged in North Carolina.
- (b) Multiply the medical payments premium by the primary rating factor.
- (c) For limits not shown, refer to the Commercial <u>Auto Liability Rate schedules</u>.
- (3) Secondary rating factors do not apply.
- d. Uninsured and Underinsured Motorists Insurance
 - Primary and secondary rating factors do not apply.
 - (2) For rates, refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.
- For vehicles principally garaged in states other than North Carolina and regularly operate beyond a 200mile radius.

When a vehicle is principally garaged in a state other than North Carolina, only regional zones will be utilized. The zone combination is the regional zone of principal garaging and the regional zone of the terminal (included in the auto's operation) farthest from that point.

A terminal is any point at which an auto regularly loads or unloads. It is not limited to a terminal facility which the insured owns and operates.

EXAMPLE

The auto is principally garaged in Charleston, South Carolina (regional zone 47) and has terminals in Sacramento, California (regional zone 40). The proper zone combination is 47 and 40.

TRUCKS, TRACTORS, AND TRAILERS

- Determine the classification rating factor and class code as follows:
 - Determine whether the auto is classified as fleet or nonfleet according to the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).
 - Determine the primary rating factor from the Trucks, Tractors, and Trailers Classifications Rule (<u>Rule 33</u>).
 - (3) Determine the secondary classifications code from the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).

b. Liability Coverages

- Determine the liability base premiums for the zone combination from the <u>Zone Rating</u> <u>Table</u>—Garaged in States Other than North Carolina.
- For fleets, multiply the base premiums by .70.
- (3) Multiply the base premium by the long distance rating factor from the primary classification table in the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).

c. Medical Payments

- (1) Trucks and Tractors
 - (a) Determine the \$500 medical payments premium of the zone combination from the Zone Rating Table—Garaged in States Other than North Carolina
 - (b) Primary and secondary rating factors do not apply.
 - (c) For limits not shown, refer to the Commercial <u>Auto Liability Rate schedules.</u>

(2) Trailers

- (a) Determine the \$500 medical payments premium of the zone combination from the Zone Rating Table—Garaged in States Other than North Carolina.
- (b) Multiply the medical payments premium by the primary rating factor.
- (c) For limits not shown, refer to the Commercial Auto Liability Rate schedules.
- (3) Secondary rating factors do not apply.
- Uninsured and Underinsured Motorists Insurance
 - (1) Primary and secondary rating factors do not apply.
 - (2) For rates, refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual. ❖

C. Long Distance Zone Definitions

Metropolitan Zones

- 01. ATLANTA Zone includes Clayton and Cobb Counties and Atlanta, Georgia territories.
- 02. BALTIMORE—WASHINGTON Zone includes Baltimore, Baltimore Suburban, and Outer Suburban, Montgomery County Suburban and Outer Suburban, and Prince Georges County Suburban and Outer Suburban, Maryland territories; the entire District of Columbia; and Alexandria City, Arlington, Falls Church City, and Arlington—Alexandria Suburban, Virginia territories.
- BOSTON Zone includes all of Essex, Middlesex, Norfolk, and Suffolk, Massachusetts Counties.
- BUFFALO Zone includes Erie County (Balance), Buffalo, Buffalo Semisuburban, Buffalo Suburban, Niagara Falls, and Niagara Falls Suburban, New York territories.
- CHARLOTTE Zone includes Charlotte and all of Mecklenburg County, North Carolina territories.
- 06. CHICAGO Zone includes all of Cook and Du Page County territories, Lake County (Balance), Waukegan—North Chicago and all Chicago, Illinois territories; and East Chicago, Indiana territory.
- CINCINNATI Zone includes Cincinnati, Dayton, and Hamilton—Middletown, Ohio; and Covington— Newport, Kentucky territories.
- CLEVELAND Zone includes all of Geauga, Lorain, and Medina County territories, Portage County (excluding the village of Mogadore), all Cleveland and Painesville, Ohio territories.
- DALLAS—FORT WORTH Zone includes all of Dallas and Tarrant, Texas Counties.
- DENVER Zone includes Denver and North Central, Colorado territories.
- 11. DETROIT Zone includes all Detroit, Dearborn, and Pontiac, Michigan territories.
- HARTFORD Zone includes all of Hartford and New Haven Counties and Bridgeport and Fairfield— Stratford, Connecticut territories.
- 13. HOUSTON Zone includes all of Chambers, Galveston, and Harris, Texas Counties.
- 14. INDIANAPOLIS Zone includes all of Marion County, Indiana territory.
- 15. JACKSONVILLE Zone includes all of Jacksonville, Florida territory.
- KANSAS CITY Zone includes all of Kansas City, Kansas; and Independence and all Kansas City, Missouri territories.
- LITTLE ROCK Zone includes all of Pulaski County, Arkansas territory.
- LOS ANGELES Zone includes all of Los Angeles and Orange Counties and also Riverside and San Bernardino, California territories.
- LOUISVILLE Zone includes all of Jefferson County, Kentucky; and New Albany and Jeffersonville, Indiana territories.

TRUCKS, TRACTORS, AND TRAILERS

- MEMPHIS Zone includes all of Shelby County, Tennessee territory.
- MIAMI Zone includes Miami and Miami Beach, Florida territories.
- MILWAUKEE Zone includes Kenosha, Milwaukee Metropolitan, Semisuburban, and Suburban, and Racine, Wisconsin territories.
- MINNEAPOLIS—ST. PAUL Zone includes Minneapolis Metropolitan and Suburban; and St. Paul Metropolitan and Suburban, Minnesota territories.
- NASHVILLE Zone includes all of Davidson County, Tennessee territory.
- NEW ORLEANS Zone includes all of New Orleans, Louisiana territory.
- 26. NEW YORK CITY Zone includes all of New York City, Nassau, and Westchester, New York Counties; all of Bergen, Essex, and Hudson Counties, Elizabeth, New Brunswick, Perth Amboy, and Plainfield, New Jersey territories; and Darien—Greenwich and Stamford, Connecticut territories.
- OKLAHOMA CITY Zone includes all of Oklahoma County, Oklahoma territory.
- OMAHA Zone includes all of Douglas and Sarpy, Nebraska Counties; and Council Bluffs, Iowa territory.
- PHOENIX Zone includes Mesa—Tempe and Phoenix, Arizona territories.
- PHILADELPHIA Zone includes Bucks County (Balance), Chester County (Balance), Delaware County (Balance), Montgomery County (Balance), Allentown—Bethlehem, and all Philadelphia, Pennsylvania territories; Wilmington, Delaware; and Camden, Camden Suburban, and Trenton, New Jersey territories.
- 31. PITTSBURGH Zone includes all of Allegheny and Beaver Counties, Pennsylvania territories.
- 32. PORTLAND Zone includes all of Portland, Portland Semisuburban, and Portland Suburban, Oregon; and Vancouver, Washington territories.
- 33. RICHMOND Zone includes all of Richmond, Virginia territory.
- 34. ST. LOUIS Zone includes all of St. Louis County, Missouri; and East St. Louis, Illinois territories.
- 35. SALT LAKE CITY Zone includes all of Salt Lake City County, Utah territory.
- SAN FRANCISCO Zone includes all of Alameda, Contra Costa, Marin, San Francisco, San Mateo, and Santa Clara, California Counties.
- TULSA Zone includes all of Tulsa, Oklahoma territory.

Regional Zones

- PACIFIC COAST Zone includes the states of California (excluding Los Angeles and San Francisco Zones), Oregon (excluding Portland Zone), and Washington (excluding Portland Zone).
- MOUNTAIN Zone includes the states of Arizona, (excluding Phoenix Zone), Colorado (excluding

- Denver Zone), Idaho, Montana, Nevada, New Mexico, Utah (excluding Salt Lake City Zone), and Wyoming.
- 42. MIDWEST Zone includes the states of Iowa (excluding Omaha Zone), Kansas (excluding Kansas City Zone), Missouri (excluding Kansas City and St. Louis Zones), Minnesota (excluding Minneapolis—St. Paul Zone), Nebraska (excluding Omaha Zone), North Dakota, South Dakota, and Wisconsin (excluding Milwaukee Zone).
- 43. SOUTHWEST Zone includes the states of Arkansas (excluding Little Rock Zone), Oklahoma (excluding Oklahoma City and Tulsa Zones), and Texas (excluding Dallas—Fort Worth and Houston Zones).
- 44. NORTH CENTRAL Zone includes the states of Illinois (excluding Chicago and St. Louis Zones), Indiana (excluding Chicago, Indianapolis, and Louisville Zones), Ohio (excluding Cincinnati and Cleveland Zones), and Michigan (excluding Detroit Zone).
- 45. MIDEAST Zone includes the states of Kentucky (excluding Cincinnati and Louisville Zones), Tennessee (excluding Memphis and Nashville Zones), and West Virginia.
- GULF Zone includes the states of Alabama, Louisiana (excluding New Orleans Zone), and Mississippi.
- 47. SOUTHEAST Zone includes the states of Florida (excluding Jacksonville and Miami Zones), Georgia (excluding Atlanta Zone), North Carolina (excluding Charlotte Zone), South Carolina, and Virginia (excluding Baltimore—Washington and Richmond Zones).
- 48. EASTERN Zone includes the states of Delaware (excluding Philadelphia Zone), Maryland (excluding Baltimore—Washington Zone), New York (excluding Buffalo and New York City Zones), New Jersey (excluding New York City and Philadelphia Zones), and Pennsylvania (excluding Philadelphia and Pittsburgh Zones).
- NEW ENGLAND Zone includes the states of Connecticut (excluding Hartford and New York City Zones), Maine, Massachusetts (excluding Boston Zone), New Hampshire, Rhode Island, and Vermont.

D. Zone Rating Tables Are Located in the Commercial Automobile Liability Rates Section

★For liability the following tables include the zone or combination zone base premiums.

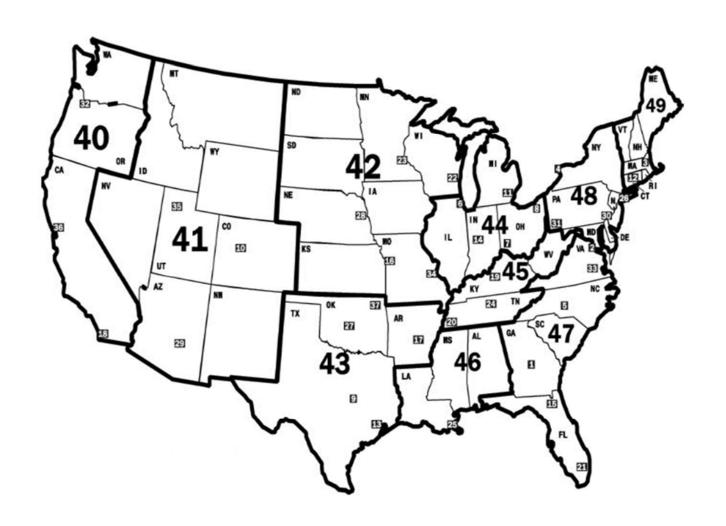

KEY TO ZONE RATING TABLES			
The liability premiums are displayed as follows:			
Liability			
\$30,000/60,000 Bodily Injury	\$400 BI		
\$25,000 Property Damage	300 PD		
\$500 Medical Payments	70 MP		
•	·

Rules 36-40. RESERVED FOR FUTURE USE

NOTES

PUBLIC TRANSPORTATION SECTION

NOTES

PUBLIC TRANSPORTATION SECTION

Rule 41. ELIGIBILITY

This Section applies to autos registered or used for the transportation of members of the public.

When the coverage form insures public autos, use Public Transportation Autos Endorsement CA 24 02 to amend the care, custody, or control exclusion.

Rule 42. PREMIUM DEVELOPMENT— OTHER THAN ZONE RATED AUTOS

- A. This Rule applies to
 - all taxis, limousines, school, church, and urban buses, and van pools;
 - all other public autos which regularly operate within a 200-mile radius from the street address of principal garaging. For those autos regularly operated beyond a 200-mile radius, refer to the Premium Development—Zone Rated Autos Rule (Rule 44).
- B. Determine the classification rating factor and class code as follows:
 - Determine whether the risk is classified as fleet or nonfleet according to the Public Auto Classifications Rule (Rule 43).
 - Determine the primary rating factor from the Public Auto Classifications Rule (Rule 43) based on use class and radius class. For van pools, the rating factor is based on seating capacity.
 - Except for taxicabs, van pools, and limousines (other than airport limousines), determine the secondary rating factor, if any, from the Public Auto Classifications Rule (Rule 43) based on the seating capacity.
 - Determine the combined rating factor by adding the secondary rating factor to, or subtracting it from, the primary rating factor.

C. Premium Computation

- For public autos operated the greatest percentage of time in North Carolina:
 - a. Determine the rating territory for each public auto from the territory definitions based on the territory where the public auto is operated the greatest percentage of the time.
 - Liability and Medical Payments Coverages
 - Determine the fleet or nonfleet base premiums on the state rate schedules.
 - (2) Multiply the base premium by the combined rating factor.
 - Uninsured and Underinsured Motorists Coverage
 - Primary and secondary rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.

d. Special Provisions

(1) If a truck, tractor, or trailer is rated as public auto, determine the seating capacity from the size class as follows:

Size Class	Seating Capacity
Light	1–8
Medium	9–20
Heavy	21–60
Extra Heavy	Over 60

(2) If a bus is rated at truck, tractor, or trailer rates, determine the size class from the seating capacity:

Seating Capacity	Size Class
1–8	Light
9–20	Medium
21-60	Heavy
Over 60	Extra Heavy

- (3) ★For a unit that combines a motorized auto with one or more trailers or semitrailers, charge according to the gross combined vehicle weight rating and refer to paragraph d.(1) above.
- 2. For public autos operated the greatest percentage of the time in states other than North Carolina:
 - a. Liability and Medical Payments Coverages
 - (1) Determine the fleet or nonfleet base premiums on the state rate schedules for the state in which the public auto is operated the greatest percentage of the time.
 - (2) Multiply the base premium by the combined rating factor.
 - Uninsured and Underinsured Motorists Insurance
 - Primary and secondary rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.
 - c. Special Provisions

S

(1) If a truck, tractor, or trailer is rated as public auto, determine the seating capacity from the size as follows:

Size Class	Seating Capacity
Light	1–8
Medium	9–20
Heavy	21-60
Extra Heavy	Over 60

(2) If a bus is rated at truck, tractor, or trailer rates, determine the size class from the seating capacity:

eating Capacity	Size Class
1–8	Light
9–20	Medium
21-60	Heavy
Over 60	Extra Heavy

PUBLIC TRANSPORTATION

(3) For a unit that combines a motorized auto with one or more trailers or semitrailers, charge according to the gross combined vehicle weight rating and refer to paragraph c.(1) above.❖

Rule 43. PUBLIC AUTO CLASSIFICATIONS

Classify public autos as follows:

A. If an auto has more than one use, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.

B. Fleet—Nonfleet Classification

- Classify as fleet the autos of any risk that has five or more self-propelled autos of any type that are under one ownership. Do not include autos owned by allied or subsidiary interests unless the insured holds a majority financial interest.
- Do not include mobile equipment insured on a general liability policy in determining if the risk is a fleet.
- Do not include trailers in determining if the risk is a fleet, but apply the fleet classification to the trailers if the risk otherwise is classified as a fleet.
- 4. Classify the autos of any other risk as nonfleet.
- Do not change the fleet or nonfleet classification because of midterm changes in the number of owned autos except at the request of the insured. The policy must be cancelled and rewritten in accordance with the Cancellation Rule (Rule 10).

C. Seating Capacity

- Use the seating capacity specified by the manufacturer of the auto unless a public authority rules otherwise.
- Do not include the driver's seat when determining seating capacity.

D. Primary Classifications

- Radius Class—Determine radius on a straight line from the street address of principal garaging.
 - Local—up to 50 miles—The auto is not regularly operated beyond a radius of 50 miles from the street address where such auto is principally garaged.
 - b. Intermediate—51 to 200 miles—The auto is operated beyond a radius of 50 miles but not regularly beyond a radius of 200 miles from the street address where such auto is principally garaged.
 - c. Long distance—over 200 miles—The auto is operated regularly beyond a 200-mile radius from the street address where such auto is principally garaged. Apply zone rates for all autos other than taxis, limousines, school, church, and urban buses, and van pools.

2. Use Class

Taxicab or Similar Passenger Carrying Service—A metered or unmetered auto with a seating capacity of eight or less that is operated for hire by the named insured or an employee, but

- does not pick up, transport, or discharge passengers along a route.
- b. Limousine—An unmarked auto with a seating capacity of eight or less that is operated for hire by the named insured or an employee and used on a prearranged basis for special or business functions, weddings, funerals, or similar purposes. For autos with a seating capacity of nine or more, refer to public autos not otherwise classified.
- c. School Bus—An auto that carries students or other persons to and from school, or in any school activity including games, outings, and similar school trips.
 - Separate codes and rating factors apply to the following:
 - (a) School buses owned by political subdivisions or school districts
 - (b) All others including independent contractors, private schools, and church owned buses
 - (2) A policy covering a school bus may be written on an annual term for liability coverages with premium prorated to reflect the actual school term. However, do not give credit for Saturdays, Sundays, or holidays or for any other periods of lay-up during the school term.
 - (3) If a publicly owned school bus is used for special trips unrelated to school activities, refer to company for the additional charge.
- d. Church Bus—An auto used by a church to transport persons to or from services and other church related activities. This classification does not apply to public autos used primarily for daily school activities.
- Intercity Bus—An auto that picks up and transports passengers on a published schedule of stops between stations located in two or more towns or cities.
- f. Urban Bus—An auto that picks up, transports, and discharges passengers at frequent local stops along a prescribed route. This classification applies only to vehicles operated principally within the limits of a city or town and communities contiguous to such city or town, and includes scheduled express service between points on that route.
- g. Airport Bus or Airport Limousine—An auto for hire that transports passengers between airports and other passenger stations or motels.
- Charter Bus—An auto chartered for special trips, touring, picnics, outings, games, and similar uses.
- Sightseeing Bus—An auto accepting individual passengers for a fare for sightseeing or guided tours, making occasional stops at certain points of interest and returning the passengers to the point of origin.
- Transportation of Athletes and Entertainers— An auto owned by a group, firm, or organization

that transports its own professional athletes, musicians, or other entertainers.

- If it is used to transport other professional athletes or entertainers, rate as a charter bus.
- (2) An auto owned by a group, firm, or organization to transport its own nonprofessional athletes, musicians, or entertainers, rate as a public auto not otherwise classified.
- k. Van Pools—An auto of the station wagon, van truck, or bus type used to provide prearranged commuter transportation for employees to and from work and is not otherwise used to transport passengers for a charge.
 - (1) Employer Furnished Transportation. Transportation is held out by the employer as an inducement to employment, a condition of employment, or is incident to employment.
 - (a) Employer Owned Autos—Autos owned, or leased for one year or more, by an employer and used to provide transportation only for his employees.
 - (b) Employee Owned Autos—Autos owned, or leased for one year or more, by an individual employee and used to provide transportation only for fellow employees of his employer.
 - (2) All Other. Autos which do not meet the eligibility requirements of paragraph (1) above.
- Transportation of Employees—Other than Van Pools—Autos of any type used to transport employees other than in van pools.
 - Autos owned, or leased for one year or more, by an employer and used to transport only his own employees.
 - (a) Private Passenger Autos—Charge rates shown on the state rate schedules for private passenger types (Class Code 5851).
 - (b) All Other Autos—Rate as a van pool all other (Class Code 5851).
 - (2) Autos owned, or leased for one year or more, by a person or organization who is in the business of transporting employees of one or more employers. Rate as public auto not otherwise classified.

m. Social Service Agency Auto

An auto used by a government entity, civic, charitable, or social service organization to provide transportation to clients incident to the social services sponsored by the organization, including special trips and outings.

- (1) This classification includes, for example, autos used to transport the following:
 - (a) Senior citizens or other clients to congregate meal centers, medical facilities, social functions, shopping centers

PUBLIC TRANSPORTATION

- (b) Handicapped persons to work or rehabilitative programs
- (c) Children to day care centers, Head Start programs
- (d) Boy Scout or Girl Scout groups to planned activities.
- (2) The following autos are eligible for this classification:
 - (a) Autos owned, or leased for one year or more, by the social service agency
 - (b) Autos donated to the social service agency, without a driver
 - (c) Autos hired under contract by the social service agency. This does not apply to a subcontractor or any individual that has not executed a contract with a social service agency.
- (3) If an auto has more than one use, use the highest rated classification unless 80% of the use is in a lower rated activity. In that case, use the lower rated classification.
- (4) Separate codes and rating factors apply to the following:
 - (a) Employee-Operated Autos—Autos operated by employees of the social service agency. If a social service auto is also operated by volunteer drivers or other nonagency employees, use the all other classification unless 80% of the use is by agency employees.
 - (b) All Other—Autos which do not meet the requirements of paragraph (a).
- (5) Excess liability coverage may be provided to cover autos not owned or licensed by the agency while being used in its social service transportation activities. This coverage may be extended to cover the agency's liability only or the liability of both the agency and, on a blanket basis, the individual liability of agency employees or volunteer donors or owners of the autos. For autos hired, loaned, leased, or furnished, refer to the Hired Autos Rule (Rule 17). For all other nonowned autos, refer to the Nonownership Rule (Rule 16).
- n. Public Auto not Otherwise Classified—This classification includes, but is not limited to, autos such as country club buses, cemetery buses, real estate development buses, courtesy buses run by hotels, day care facility buses, and limos with a seating capacity of nine or more.
- See Primary Classifications—Rating Factors and Classification Designators tables.

E. Secondary Classifications

These classifications do not apply to taxicabs, limousines (except airport limousines), van pools, and zone rated autos.

Rule 44. PREMIUM DEVELOPMENT—ZONE RATED AUTOS

A. This Rule applies to all public autos, other than taxis, limousines, school, church, and urban buses, or van pools, which regularly operate beyond a 200-mile radius from the street address of principal garaging.

B. ★Premium Development

 For vehicles principally garaged in North Carolina and regularly operate beyond a 200-mile radius.

Use the long distance zone definitions in the Trucks, Tractors, and Trailers Section.

When an auto is principally garaged in a regional zone and operates in that zone and in one or more metropolitan zones, the zone combination is the regional zone and the metropolitan zone farthest away.

In all other situations, the zone combination is the zone of principal garaging and the zone included in the auto's operations farthest from that point.

EXAMPLES:

The auto is principally garaged in Raleigh, North Carolina (regional zone 47) and operates in Sacramento, California (regional zone 40) and Denver, Colorado (metropolitan zone 10). The proper zone combination is 47 and 10.

The auto is principally garaged in Raleigh, North Carolina (regional zone 47) and operates in Asheville, North Carolina (regional zone 47). The proper zone combination is 47.

The auto is principally garaged in Charlotte, North Carolina (metropolitan zone 5) and operates in Denver, Colorado (metropolitan zone 10) and Sacramento, California (regional zone 40). The proper zone combination is 5 and 40.

- Determine the classification rating factor and class code as follows:
 - Determine whether the auto is classified as fleet or nonfleet according to the Public Auto Classifications Rule (<u>Rule 43</u>).
 - Determine the primary rating factor from the Public Auto Classifications Rule (Rule 43).
 - (3) Secondary rating factors do not apply.
- b. Liability and Medical Payments Coverages
 - Determine the liability base premiums for the zone combination from the trucks, tractors, and trailers <u>Zone Rating Table</u>—Garaged in North Carolina.
 - (2) Multiply the base premium by the primary rating factor.
- Uninsured and Underinsured Motorists Insurance
 - (1) Primary and secondary rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (<u>Rule 20</u>) in the

PUBLIC TRANSPORTATION

Common Coverages Section of this Man-

 For vehicles principally garaged in states other than North Carolina and regularly operate beyond a 200mile radius.

Use the long distance zone definitions in the Trucks, Tractors, and Trailers Section.

When an auto is principally garaged in a state other than North Carolina, only regional zones will be utilized. The zone combination is the regional zone of principal garaging and the regional zone (included in the auto's operation) farthest from that point.

EXAMPLE:

The auto is principally garaged in Charleston, South Carolina (regional zone 47) and operates in Sacramento, California (regional zone 40). The proper zone combination is 47 and 40.

- a. Determine the classification rating factor and class code as follows:
 - Determine whether the auto is classified as fleet or nonfleet according to the Public Autos Classifications Rule (Rule 43).
 - Determine the primary rating factor from the Public Auto Classifications Rule (<u>Rule</u> 43).
 - (3) Secondary rating factors do not apply.
- Liability Coverages and Medical Payments Coverage
 - Determine the base premiums for the zone combination from the trucks, tractors, and trailers <u>Zone Rating Table</u>—Garaged in States Other than North Carolina.
 - (2) Multiply the base premium by the primary rating factor.
- c. Uninsured and Underinsured Motorists Insurance
 - Primary and secondary rating factors do not apply.
 - (2) Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.❖

Rule 45. TRANSPORTATION OF SEASONAL OR MIGRANT FARM WORKERS BY FARM LABOR CONTRACTORS

- A. This Rule applies only to autos of a farm labor contractor required to be registered in accordance with the Migrant And Seasonal Agricultural Worker Protection Act, 29 U.S.C.A. Section 1801 et. seq., because of the transportation of migrant workers. Use Transportation of Seasonal or Migrant Agricultural Workers Endorsement CA 24 01.
- B. Passenger Hazard Included (Class Code 5926)

Multiply the nonfleet intercity bus liability base premium for the highest rated territory in which or through which

PUBLIC TRANSPORTATION

the auto will be customarily operated for the transportation of migrant workers by .50.

C. Passenger Hazard Excluded (Class Code 5927)

Coverage for the passenger hazard may be excluded if the farm labor contractor can furnish proof to the Department of Labor that he has other means of protection for migrant workers.

Multiply the nonfleet intercity bus liability base premium by .375.

D. If a vehicle insured under this Rule is of a truck type, rate as a vehicle of 21–60 seating capacity in accordance with this Rule.

Rules 46-50. RESERVED FOR FUTURE USE

GARAGE AND AUTO DEALERS SECTION

NOTES

GARAGE AND AUTO DEALERS SECTION

GARAGE DEALERS SECTION

Rule 51. AUTO DEALERS—ELIGIBILITY

 This Section applies to franchised and nonfranchised auto dealers and trailer dealers.

B. Classifications and Codes

Only one classification and code apply to a risk.

•		
Classification	Limited Customer Coverage	Unlimited Customer Coverage
Franchised private pas- senger auto dealer (with or without any other type of franchise)	7301	7302
Franchised truck or truck-tractor dealer (with or without any other type of franchise except pri- vate passenger auto franchise)	7311	7312
Franchised motorcycle dealer including all two- wheeled cycle vehicles (no private passenger or truck franchise)	7321	7322
Franchised recreational vehicle dealer (no private passenger, snowmobile, or residence type mobile home trailer franchise)	7331	7332
Other franchised self- propelled land motor ve- hicle dealer	7341	7342
Nonfranchised dealer (any risk described above that is not a fran- chised dealer)	7351	7352
Franchised and non- franchised residence trailer dealers	7344	7345
Franchised and non- franchised commercial trailer dealers	7354	7355
Equipment and implement dealer (no other franchise)	genera	rules for I liability ance.

Rule 52. AUTO DEALERS—PREMIUM DEVELOPMENT

For each location, determine the rating territory from the territory definitions based on the street address.

Compute the advance premium at inception and the earned premium as developed by audit separately for each location according to the following procedures:

A. Limited Liability Coverage for Customers

 All Risks Other than Franchised and Nonfranchised Trailer Dealers

Multiply the rates on the state rate schedules by the total rating units determined as follows:

Class I—Employees Including Part-Time Employees

Multiply the number of Class I employees working an average of less than 20 hours a week for the number of weeks worked by .50 before determining the number of rating units.

- Determine the number of rating units by multiplying the number of these employees by 1.00:
 - (a) Proprietors, partners, and officers active in the business
 - (b) Sales persons, general managers, service managers
 - (c) Any employee whose principal dutyinvolves the operation of autos or who is furnished a garage auto
- (2) For all other employees, determine the number of rating units by multiplying the number of these employees by .40.

b. Class II—Nonemployees

Any individual other than a person described in Class I who is regularly furnished with a dealer's auto. If more than one person has use of the same furnished auto, count as only one operator in determining rating units. Determine the number of rating units by multiplying the number of these persons by .55.

2. Franchised and Nonfranchised Trailer Dealers

Multiply the rates in the state rate schedules by the total number of employees, then multiply the result by .45.

3. Minimum Premium

The minimum policy premium is the dealer's rate shown on the state rate schedules for the highest rated location multiplied by 2.00.

B. Unlimited Liability Coverage for Customers

- Liability coverage may be extended to provide unlimited customer coverage.
- Multiply the total premium developed for the limited liability by 1.25.

GARAGE AND AUTO DEALERS

C. Autos Furnished for Regular Use

Autos furnished for regular use to other than Class I or Class II operators, for example welcome wagons, or autos furnished to driver training programs. Compute the premiums for all coverages for each owned auto as follows:

- Private passenger autos (Class Code 7877).
 Charge private passenger type premiums.
- Trucks, tractors, and trailers (Class Code 7878).
 Charge the premiums developed by the applicable trucks, tractors, or trailers classification.

D. Pick Up or Delivery of Autos (Class Code 7070)

 If the exposure for nonfranchised dealer includes the pick up or delivery of autos beyond a 50-mile radius of the limits of the city or town where operations are conducted, rate each driver per trip for such pick up or delivery operations as follows:

Per Driver Trip Rates

Mileage	Bodily Injury \$30/60	Property Damage \$25
51-200 miles	\$3	\$1
Over 200 miles	5	2

The minimum premium is the private passenger types premium for the rating territory where the dealer is located.

E. Medical Payments

Use Auto Medical Payments Coverage Endorsement CA 99 03 to provide auto medical payments insurance.

Use Garage Locations And Operations Medical Payments Coverage Endorsement CA 25 05 to provide garage locations and operations medical payments insurance.

- Proprietors and executive officers. When auto dealers are insured for liability but not auto medical payments, the following provisions apply:
 - a. A proprietor or executive officer may be afforded medical payments provided that person is included in the total number of rating units that determines the liability premium. Multiply the private passenger types medical payments premium by 2.00 for each person. Use the rating territory where the dealer is located.
 - b. Medical payments may also be afforded to the spouse of a proprietor or executive officer or relatives of either if residents of the same household. Charge the private passenger types medical payments premium for each person. Use the rating territory where the dealer is located.
- Individual proprietors. Provide drive other car medical payments insurance at no additional charge if the dealer has auto medical payments coverage.

Use Individual Named Insured—Dealers Only Endorsement CA 99 18.

- Auto Exposure, Garage Operations, or Combined Garage Operations and Auto Exposure
 - Multiply the \$30,000/60,000 bodily injury liability premium by the factors from the applicable table.
 - Medical payments with unlimited liability coverage

	Medical Payments Limit per Person			
Limit Codes	\$500 (1)	\$750 (2)	\$1,000 (3)	\$2,000 (4)
Auto (a)	.094	.100	.108	.127
Gar. Operations (b)	.023	.025	.027	.029
Combined (c)	.117	.125	.136	.157

(2) Medical payments with limited liability coverage

	Medical Payments Limit per Person			
Limit Codes	\$500 (1)	\$750 (2)	\$1,000 (3)	\$2,000 (4)
Auto (a)	.098	.105	.115	.134
Gar. Operations (b)	.025	.027	.029	.031
Combined (c)	.124	.131	.144	.165

For the purpose of paragraphs 3.a.(1) and 3.a.(2) above, the rating categories are as follows:

- (a) Auto medical payments only
- (b) Garage operations medical payments only
- (c) Combined garage operations and auto medical payments
 - b. When the bodily injury liability limits are other than \$30,000/60,000, compute the medical payments factor as follows:

Medical payments percentage for \$30,000/60,000 limit	÷	Applicable fac- tor for in- creased limit
IIIIII		

F. Uninsured Motorists Insurance

Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.

Rule 53. AUTO DEALERS—ADDITIONAL PROVISIONS

A. \$100 Deductible for Completed Operations (Class code 7072)

To eliminate the \$100 deductible that applies to property damage to autos arising out of work completed by the named insured, charge an additional .10 of the property damage liability premium.

Use \$100 Dollar Deductible For Completed Operations Does Not Apply Endorsement CA 03 03.

The minimum premium is \$20 (Class Code 7072).

GARAGE AND AUTO DEALERS

Broad Form Products (Class Code 7070)

The exclusion relating to property damage to the named insured's products may be eliminated subject to a \$250 deductible per accident. Multiply the property damage liability premium by .10.

Use Broad Form Products Coverage Endorsement CA 25 01.

C. Pollution Exclusion—Garages

truck franchise)

7324

A Garage Policy may be endorsed to exclude bodily injury or property damage arising out of any discharge of pollutants with the exception of bodily injury or property damage arising out of the ownership, maintenance, or use of covered autos and certain off-premises discharges.

When Endorsement CA 25 16 is attached, document company files showing that the Endorsement is needed for the particular risk. Give the insured written notice of coverage change at least 15 days prior to the effective date of the renewal, with a copy to the agent. Do not attach the Endorsement midterm.

GARAGE AND AUTO DEALERS

schedules as modified by the rating procedures described in the following paragraphs.

A. Rating Unit Determination

 All Risks Other than Franchised and Nonfranchised Trailer Dealers

Add the results of paragraphs A.1.a and A.1.b to determine the total number of rating units.

a. Class I—Employees

Class I rating units include individuals employed by the auto dealership. Do not include any employees whose principal duty is regularly operating tow trucks which are rated on a specified auto basis.

- Determine the number of the following employees:
 - (a) Proprietors, partners, and officers active in the business
 - (b) Salespersons, general managers, service managers
 - (c) Any employee whose principal duty involves the operation of autos or who is furnished a covered auto
- (2) Multiply the number of these employees working an average of at least 20 hours or more a week by the following factor:

Factor

1.00

(3) Multiply the number of these employees working an average of less than 20 hours a week by the following factor:

Factor

.50

- (4) Determine the number of all other employees not included in paragraph (1).
- (5) Multiply the number of these employees working an average of at least 20 hours a week by the following factor:

Factor

.40

(6) Multiply the number of all other employees working an average of less than 20 hours a week by the following factor:

Factor

.20

- (7) Add the result of paragraphs A.1.a.(2) through (6) to determine the number of Class I risks.
- b. Class II—Nonemployees
 - Class II rating units include any of the following persons who are regularly furnished with a covered auto:

- (a) Proprietors, partners, and officers who are not active in the business
- (b) Family members of an employee
- (c) Family members of an inactive proprietor, partner, and officer
- Multiply each individual by the factor in the following table and add the results. If more than one person has use of the same furnished auto, count as only one operator in determining rating units.

Factor

.55

2. Franchised and Nonfranchised Trailer Dealers

Determine the number of rating units by multiplying the total number of employees by the following factor:

Factor

.45

B. Specified Auto Basis

All Coverages

Autos Regularly Operated By Class I or Class II Operators

Noninventory vehicles, including tow trucks, regularly operated by Class I or Class II operators may be classified and rated on a specified auto basis. If an employee is furnished an auto for regular use, that employee should also be included in the rating units unless otherwise specified.

Autos Furnished for Regular Use to Other than Class I or Class II Operators

Autos furnished for regular use to other than Class I or Class II operators may be classified and rated on a specified auto basis. Such autos may include autos furnished to driver training programs or autos exclusively loaned to customers, without charge, on a temporary basis while the customers' autos are being serviced or repaired.

3. Specified Auto Basis Premium Development

Compute the premiums for all coverages for each specified auto as follows:

- a. Private Passenger Autos (Class Code 7877)
 Charge private passenger type premiums.
- Trucks, Tractors, and Trailers (Class Code 7878)

Charge the premiums developed by the applicable trucks, tractors, and trailers classification.

C. Liability Coverage

- 1. Base Premium Computation
 - a. Determine the applicable base rate.
 - b. Multiply the base rate by the applicable factor in the following table:

GARAGE AND AUTO DEALERS

Factor	
Franchised and Nonfranchised Auto Dealers	1.00
Franchised and Nonfranchised Trailer Dealers	1.00
Equipment and Implement Dealers	.70

- Apply the procedures in Rule 22 for increased liability limits. Apply the procedures in Rule 23 for liability deductibles.
- d. Auto Dealers Coverage Form CA 00 25 provides coverage for customers up to the compulsory or financial responsibility law limits under certain conditions. Liability coverage may be extended to provide the full covered autos liability limit for customers by attaching Full Covered Autos Liability Limit For Customers Endorsement CA 25 15. Multiply the liability premium developed in the preceding paragraph by the following factor:

Factor

1.25

2. Minimum Premium

The liability minimum premium is the auto dealers liability rate shown on the rate schedules for the highest rated location multiplied by the following factor:

Factor

2.00

D. Pick Up or Delivery of Autos (Class Code 7070)

 If the exposure for nonfranchised dealer includes the pick up or delivery of autos beyond a 50-mile radius of the limits of the city or town where operations are conducted, rate each driver per trip for such pick up or delivery operations as follows:

Liability Rate per Driver, per Trip

Mileage	Bodily Injury \$30/60	Property Damage \$25
51-200 Miles	\$3	\$1
Over 200 Miles	5	2

The minimum premium is the private passenger type premium for the rating territory where the auto dealer is located.

E. Medical Payments

- 1. Coverage Options
 - a. The Auto Dealers Coverage Form includes auto dealers locations and operations medical payments coverage. To exclude auto dealers locations and operations medical payments coverage, use Exclusion—Locations And Operations Medical Payments Endorsement CA 25 52.
 - Use Auto Medical Payments Coverage Endorsement CA 99 03 to provide auto medical payments coverage.

Premium Development

a. For each of the coverages described in paragraph E.1 that are provided, multiply the liability rate shown on the rate schedules by the applicable factor from the following table:

	Medical Payments Limit per Person			
	\$500	\$1,000	\$2,000	\$5,000
Auto	.098	.105	.115	.134
Locations and Operations	.025	.027	.029	.031

Multiply the result by the applicable factor in the following table:

Factor	
Franchised and Nonfranchised Auto Dealers	1.00
Franchised and Nonfranchised Trailer Dealers	1.00
Equipment and Implement Dealers	.70

F. Uninsured Motorists Insurance

Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in the Common Coverages Section of this Manual.

G. Pollution Exclusions—Auto Dealers

An Auto Dealers policy may be endorsed to exclude bodily injury or property damage arising out of any discharge of pollutants with the exception of bodily injury or property damage arising out of the ownership, maintenance, or use of covered autos and certain off-premises discharges.

When Auto Dealers Coverage Form—General Liability Coverages—Total Pollution Exclusion Endorsement CA 25 16 is attached, document company files showing that the endorsement is needed for the particular risk. Give the insured written notice of coverage change at least 15 days prior to the effective date of the renewal, with a copy to the agent. Do not attach the endorsement midterm.

NOTES

SPECIAL TYPES AND OPERATIONS SECTION

NOTES

SPECIAL TYPES AND OPERATIONS SECTION

Rule 56. ELIGIBILITY

This Section applies to all autos that are not classified and rated in the other Sections.

Rule 57. PREMIUM DEVELOPMENT

A. Rating Territory

Determine the rating territory from the territory definitions based on the street address of principal garaging unless otherwise provided in this Section.

B. Liability

See specific rating instructions for each classification in this Section.

C. Medical Payments

- Refer to specific rules in this Section. If no premium or procedures to determine medical payments are shown, determine premiums as follows:
- If liability premiums are developed from truck, tractor, and trailer premiums, charge truck, tractor, and trailer medical payments premiums.
- If liability premiums are developed from private passenger types premiums, charge private passenger medical payments premiums.

D. Uninsured and Underinsured Motorists Insurance

Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in this Manual.

E. Trucks, Tractors, and Trailers Base Premiums

Where the rules in this Section refer to trucks, tractors, and trailers base premiums it means the \$30,000/60,000 bodily injury and \$25,000 property damage fleet and nonfleet base premiums on the rate schedules. For limits higher than \$30,000/60,000 bodily injury and \$25,000 property damage, use the increased liability limits table that applies to all other risks.

Rule 58. AMBULANCE SERVICES

A. Eligibility

- This Rule applies to autos used for rescue or ambulance corps operations.
- 2. One of the following endorsements must be attached to the policy:
 - a. Emergency Services—Volunteer Firefighters'
 And Workers' Injuries Excluded Endorsement
 CA 20 30 which excludes coverage for bodily
 injury to any fellow volunteer workers of the insured and bodily injury to any fellow volunteer
 workers of the insured while such volunteers
 are engaged in volunteer firefighting, rescue
 squad, or ambulance corps operations; or
 - Emergency Services—Volunteer Firefighters' And Workers' Injuries Limited Exclusion Endorsement CA 20 07 which
 - excludes coverage for bodily injury to any volunteer workers of the insured while such

- volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations; and
- (2) provides coverage for bodily injury to any fellow volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations.
- The policy must exclude coverage for bodily injury or property damage which results from providing or failing to provide any professional services. Use Professional Services Not Covered Endorsement CA 20 18.

B. Premium Computation (Class Code 7913)

- Multiply the fleet or nonfleet trucks, tractors, and trailers base premium by 2.50.
- When Endorsement CA 20 07 is attached, determine the additional premium by multiplying the liability premium developed in paragraph B.1 for each auto which is owned by the named insured and used by volunteer workers engaged in volunteer firefighting, rescue squad, or ambulance corps operations by .25.

Rule 59. AMPHIBIOUS EQUIPMENT

A. Application

For autos designed to operate on both land and water, rate as land autos according to their use. The policy must exclude coverage while the auto is being launched into, used on, or beached from the water. Use Amphibious Vehicles Endorsement CA 23 97.

B. Premium Determination

Classify and rate each amphibious vehicle according to its land use.

Rule 60. ANTIQUE AUTOS (CLASS CODE 9620)

A. Eligibility

This Rule applies to autos that are 25 years old or more; and maintained primarily for use in exhibitions, club activities, parades, and other functions of public interest; and occasionally used for other purposes.

B. Premium Computation

Liability: Multiply the private passenger types rates by .25 regardless of the type of auto.

Rule 61. AUTO BODY MANUFACTURERS AND INSTALLERS (CLASS CODE 7924)

A. Application

An auto body or trailer manufacturer may be insured for the testing or delivery of autos it manufactures, assembles, rebuilds, or repairs.

SPECIAL TYPES AND OPERATIONS

B. Premium Computation

- Compute the premium for owned autos, hired autos, and employers nonownership liability in the usual manner.
- Compute the premium for the factory testing hazard by multiplying the appropriate fleet or nonfleet trucks, tractors, or trailers base premium for each employee engaged in these operations by 2.00.

Rule 62. DRIVER TRAINING PROGRAMS (EDUCATIONAL INSTITUTIONS AND COMMERCIAL DRIVING SCHOOLS) AND AUTO REPAIR TRAINING

A. Driver Training Programs—Educational Institutions (Class Code 7926)

1. Eligibility

This Rule applies to private passenger autos used for driver training as part of a school curriculum.

- 2. Premium Computation
 - a. Liability Coverages
 - For autos equipped with dual controls, multiply the private passenger types rates by .75. There must be dual brakes to qualify as dual control.
 - (2) For autos not equipped with dual controls, multiply the private passenger types rates by 1.50.
 - All Other Coverages. Charge private passenger types rates.
- A policy covering autos used by schools in driver training programs may be written on an annual term for liability coverages with premium prorated to reflect the actual school term. However, do not give credit for Saturdays, Sundays, or holidays or for any other periods of lay-up during the school term.

B. Commercial Driving Schools (Class Code 7927)

1. Eligibility

This Section applies to autos used by driving schools to give driving instruction. Use Driving Schools Endorsement CA 20 06.

- 2. Premium Computation
 - a. Owned Private Passenger Autos
 - (1) Liability Coverages
 - (a) For autos equipped with dual controls, charge the private passenger types rates. There must be dual brakes to qualify as dual controls.
 - (b) For autos not equipped with dual controls, multiply the private passenger types rates by 2.00.
 - All Other Coverages. Charge private passenger types rates.

- b. Owned Trucks, Tractors, and Trailers
 - (1) Liability Coverages
 - (a) For autos equipped with dual controls, multiply the truck, tractor, and trailer rates by 2.00. There must be dual brakes to qualify as dual controls.
 - (b) For autos not equipped with dual controls, multiply the truck, tractor, and trailer rates by 4.00.
 - (2) All Other Coverages. Charge the truck, tractor, and trailer rates.
- c. All Other Types of Owned Autos.

Refer to company for rating.

C. Nonowned Autos

- The policy must cover the driving instructors and their students.
- 2. Premium Computation

Charge the private passenger types or the truck, tractor, and trailer rates for each instructor in excess of the number of owned autos.

D. Autos Repair Training

For autos used by schools in auto repair training, the rules and rates for owned autos, hired autos, and employers nonownership liability apply.

Rule 63. DRIVE-AWAY CONTRACTORS (CLASS CODE 7923)

A. Application

A person, firm, or corporation which drives away autos under their own power for factories or auto dealers may be insured for the operation of such autos. Use Drive-Away Contractors Endorsement CA 20 05.

B. Premium Computation

- For each set of registration plates not issued for attachment to a specific auto, multiply the private passenger types premium in the highest rated territory in which or through which each auto is driven by 2.00.
- Exception: Each set of plates assigned by the insured for exclusive use with a specific auto shall be rated in accordance with the regular use of the auto.

Rule 64. FIRE DEPARTMENTS

A. Eligibility

- This Rule applies to autos used for firefighting purposes.
- 2. One of the following endorsements must be attached to the policy:
 - Emergency Services—Volunteer Firefighters' And Workers' Injuries Excluded Endorsement CA 20 30 which excludes coverage for bodily injury to any volunteer workers of the insured and bodily injury to any fellow volunteer workers

of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations; or

- Emergency Services—Volunteer Firefighters' And Workers' Injuries Limited Exclusion Endorsement CA 20 07 which
 - excludes coverage for bodily injury to any volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations; and
 - (2) provides coverage for bodily injury to any fellow volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations.
- The policy must exclude coverage for bodily injury or property damage which results from providing or failing to provide any professional services. Use Professional Services Not Covered Endorsement CA 20 18.

B. Premium Computation (Class Code 7913)

- 1. Multiply the fleet or nonfleet trucks, tractors, and trailers base premium by 1.60.
- For private passenger autos, charge the private passenger types rates.
- For trailer types, classify and rate according to the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).
- 4. When Endorsement CA 20 07 is attached, determine the additional premium by multiplying the liability premium developed in paragraphs B.1 and B.2 for each auto which is owned by the named insured and used by volunteer workers engaged in volunteer firefighting, rescue squad, or ambulance corps operations by .25.

Rule 65. FUNERAL DIRECTORS

A. Eligibility

- This Rule applies to autos owned or used by a funeral director.
- The policy must exclude coverage for bodily injury or property damage which results from providing or failing to provide any professional service. Use Professional Services Not Covered Endorsement CA 20 18.

B. Premium Computation

Limousines (Class Code 7915)

Liability and Medical Payments Coverages. Multiply the private passenger types rates by .90.

2. Hearses and Flower Cars (Class Code 7922)

Liability and Medical Payments Coverages. Multiply the fleet or nonfleet trucks, tractors, and trailers base premiums by .90.

SPECIAL TYPES AND OPERATIONS

Combination Hearses and Ambulances

Classify and rate the auto according to the Ambulance Services Rule (Rule 58).

4. Autos Used for Other Purposes

Classify and rate the auto according to its regular

C. Medical Payments Coverage for Hired and Nonowned Autos

- Medical payments coverage may be provided for hired and nonowned autos.
- 2. Premium Computation

Multiply the total medical payments premium for all owned autos (whether or not all owned autos are insured for medical payments) by .50.

Rule 66. LAW ENFORCEMENT AGENCIES

A. Eligibility

- This Rule applies to autos used by government law enforcement agencies or police departments.
- 2. One of the following endorsements must be attached to the policy:
 - a. Emergency Services—Volunteer Firefighters' and Workers' Injuries Excluded Endorsement CA 20 30 which excludes coverage for bodily injury to any volunteer workers of the insured and bodily injury to any fellow volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations; or
 - Emergency Services—Volunteer Firefighters' And Workers' Injuries Limited Exclusion Endorsement CA 20 07 which
 - excludes coverage for bodily injury to any volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations; and
 - (2) provides coverage for bodily injury to any fellow volunteer workers of the insured while such volunteers are engaged in volunteer firefighting, rescue squad, or ambulance corps operations.
- The policy must exclude coverage for bodily injury or property damage which results from providing or failing to provide any professional services. Use Professional Services Not Covered Endorsement CA 20 18.

B. Premium Computation (Class Code 7913)

- Multiply the private passenger autos base premium by 1.60.
- For motorcycles, charge according to the motorcycles rule (Rule 69) in this Section.
- For trailer types, classify and rate according to the Trucks, Tractors, and Trailers Classifications Rule (Rule 33).

SPECIAL TYPES AND OPERATIONS

4. When Endorsement CA 20 07 is attached, determine the additional premium by multiplying the liability premium developed in paragraphs B.1, B.2, and B.3 for each auto which is owned by the named insured and used by volunteer workers engaged in volunteer firefighting, rescue squad, or ambulance corps operations by .25.

Rule 67. LEASING OR RENTAL CONCERNS

A. Eligibility

- This Rule applies to risks which lease or rent autos to others without drivers. For autos leased or rented with drivers, refer to the Truckers/Motor Carriers Rule (Rule 34) or the Public Auto Classifications Rule (Rule 43).
- 2. Trucks, tractors, or trailers leased or rented by the concern to truckers and buses leased or rented by the concern to bus risks. In rating such vehicles, consideration must be given to insurance required to be provided by truckers and public passenger carriers and the exposure to be developed by the leasing or rental concern which will not be covered by such insurance.

B. Premium Computation

- When computing the premiums, use the territory where the auto is principally garaged.
- 2. Specified Car Basis
 - Long Term—Autos Leased for Six Months or More
 - (1) Full Coverage for Owner and Lessee
 - Rate the auto at the classification rates in this Manual that apply to the lessee.
 - (2) Contingent Coverage (Class Code 7219)
 - Use Leasing Or Rental Concerns—Contingent Coverage Endorsement CA 20 09 to provide liability coverage if insurance covering the leasing concern on a direct primary basis is provided by the lessee. Multiply the classification rates in this Manual that apply to the lessee by .05.
 - Short Term and Irregular Term—Autos Rented By the Hour, Day, Week, or Month But Less than a Year
 - Trucks, Tractors, or Trailers

Multiply the trucks, tractors, and trailers base premiums by the following factors:

	Liability	Code
Trucks	4.00	7211
Tractors	5.00	7212
Trailers, Semitrailers,		
and Service Trailers	.25	7213

(2) Private Passenger Autos (Class Code 7214)

For liability, multiply the private passenger types rates by 3.00.

- (3) Special Types (Class Code 7216).
 - (a) For motorcycles, motorbikes, and other similar motor vehicles, multiply the rates developed in the Motorcycles Rule (Rule 69) by 4.00.
 - (b) For snowmobiles and other similar vehicles designed for travel over ice and snow and used primarily off public roads, multiply the rates developed in the Motorcycles Rule (Rule 69) by 4.00.
- (4) Nondealers Garage Risks—Customer Rental (Class Code 7216)

For private passenger autos rented to customers while their autos are temporarily left with named insured for service, repair or sale, charge the private passenger types rates.

- (5) Motor Homes (Class Code 7215)
 - Multiply the rates developed in the Mobile Homes Rule (Rule 68) by 2.00.
- (6) Rent-It-There/Leave-It-Here Autos

Use Leasing Or Rental Concerns—Rent-It-There/Leave-It-Here Autos Endorsement CA 20 12 to exclude coverage for the owner or rentee of any rent-it-there/leave-it-here auto not owned by the named insured.

Rule 68. MOBILE HOMES

A. Trailers (Class Code 7963)

- Mobile home trailers equipped as living quarters (including cooking, dining, plumbing, or refrigeration facilities), other than recreational or camper types designed for use with a private passenger auto.
 - Liability. Multiply the appropriate fleet or nonfleet trucks, tractors, and trailers base premium by .40.
 - b. Medical payments. Charge the trucks, tractors, and trailers premiums.
- 2. Mobile home trailers designed for use with a private passenger auto if used with another type auto.
 - Liability. Multiply the appropriate fleet or nonfleet trucks, tractors, and trailers base premium by .40.
 - Medical payments. Charge the trucks, tractors, and trailers premiums.

B. Motor Homes (Class Code 7957)

- Self-propelled autos equipped as living quarters (including cooking, dining, plumbing, or refrigeration facilities).
- Bodily Injury and Property Damage Liability— Charge 65% of the rates for private passenger types.
- Medical Payments—Use rates for private passenger types.

C. Toter Homes (Class Code 7973)

- A toter home is a motor home built around a semitruck chassis with the ability to tow or carry a vehicle, boat, trailer, etc. and has a GCW greater than 20,001 lbs.
- Bodily Injury and Property Damage Liability—Based upon the GCW, multiply the appropriate heavy or extra heavy Trucks, Tractors, Trailers base rate from the state rate pages by the appropriate increased limits factor. Then multiply the result by 2.6. After determining the otherwise applicable rate, multiply the result by .75.
- Medical Payments—Use the rates for trucks, tractors, and trailers.

D. Camper Bodies

 Pickup trucks used solely in connection with and to transport a camper body or other similar living quarters

All coverages—Rate as a motor home.

Pickups used to transport a portable camper body or similar living quarters but also used for other purposes.

Bodily Injury and Property Damage Liability and Medical Payments—Rate according to the otherwise regular use of the pickup truck.

Rule 69. MOTORCYCLES, GOLFMOBILES, AND SNOWMOBILES

A. Eligibility

This Rule applies to fleet motorcycles, motorscooters, motorbikes, and any other similar autos used for commercial purposes. Refer to paragraph B below for rating.

For nonfleet motorcycles, refer to the Personal Auto Manual.

- This Rule also applies to fleet golfmobiles and snowmobiles. It also applies to nonfleet golfmobiles and snowmobiles used for commercial purposes, including electric powered versions of these vehicles, that are licensed for road use. Refer to paragraph C below for rating.
- All premiums apply for the period of coverage. If the insured cancels, do not return premium.

B. Motorcycle Premium Computation (Class Code 7942)

1. Liability Factors

Based on the size of the engine in cubic centimeters, multiply the private passenger types rates by the following factors:

Factor
.29
.38
.59
.65
.76
.85

SPECIAL TYPES AND OPERATIONS

Uninsured and Underinsured Motorists

Refer to the Uninsured and Underinsured Motorists Insurance Rule (Rule 20) in this Manual.

C. Golfmobiles and Snowmobiles

1. Golfmobiles (Class Code 9460)

Liability and Medical Payments Coverages: Multiply the private passenger types rates by a factor of 0.29.

- Snowmobiles (Class Code 7964). Use Snowmobiles Endorsement CA 20 21.
 - Bodily Injury Liability
 - Bodily Injury (excluding the passenger hazard): Multiply the private passenger types rates by a factor of 0.29.
 - (2) Bodily Injury (including the passenger hazard): Multiply the excluding the passenger hazard rates determined in paragraph C.2.a.(1) above by a factor of 3.00.
 - b. Property Damage Liability: Multiply the private passenger types rates by a factor of 0.29.
 - Uninsured and Underinsured Motorists Coverage: Charge rates as shown in the Uninsured and Underinsured Motorists Insurance Rule (Rule 20).
 - d. Medical Payments: Charge \$10, \$500 limit per person.
 - e. For (1) vehicles of this type which are used as a public or livery conveyance for passengers, and (2) for propeller-driven equipment, refer to company for rating.

Rule 70. REGISTRATION PLATES NOT ISSUED FOR A SPECIFIC AUTO (CLASS CODE 7929)

A. Eligibility

- This Rule applies to risks other than auto dealers which possess registration plates not issued for attachment to a specific auto. Use Registration Plates Not Issued For A Specific Auto Endorsement CA 20 27
- 2. A set of plates is the number of plates required to legally operate an auto on public roads.

B. Premium Computation

- For each set of plates, multiply the private passenger types rates by 2.00.
- Rate each set of plates assigned by the insured for exclusive use with a specific auto according to the regular use of the auto.

SPECIAL TYPES AND OPERATIONS

Rule 71. REPOSSESSED AUTOS— FINANCE COMPANIES AND BANKS (CLASS CODE 7925)

A. Eligibility

- This Rule does not apply to autos that finance companies and banks own or operate for their own business or pleasure purposes. Insure such autos according to the regular use of the auto.
- 2. If a finance company is owned and operated by an auto sales agency, refer to Garage Section.
- In all other cases, auto finance companies and banks may be insured for the repossession and use in connection with reselling financed autos. Use Repossessed Autos Endorsement CA 20 19.

B. Premium Computation

The premium for this coverage shall be determined as follows:

- The rate per car repossessed shall be the rate shown on the rate schedules for private passenger types for the territory in which the principal office of the risk is located, divided by 200.
- 2. The advance premium shall be determined by applying the rate per car repossessed to the estimated number of cars repossessed annually.
- The earned premium shall be determined at the rates in force at the inception of the policy on the basis of the total number of cars repossessed during the policy period.
- 4. The minimum premium shall be 25% of the private passenger types rates shown on the rate schedules for the territory in which the principal office of the risk is located. For banks, if the same company insures all owned autos, all repossessed autos, hired autos, and the employers nonownership liability of such risks, a minimum premium of \$14 bodily injury, \$30,000/60,000 limits, and \$6 property damage, \$25,000 limit, applies on a combined basis for the repossessed autos, hired autos, and employers nonownership liability exposures.

Rule 72. SPECIAL OR MOBILE EQUIPMENT

A. Eligibility

This Rule applies to vehicles fitting into any of the following categories:

- Specialized equipment such as bulldozers, power shovels, road rollers, graders or scrapers, cranes, street sweepers or other cleaners, diggers, forklifts, pumps, generators, air compressors, drills, and other similar equipment.
- Vehicles maintained solely to provide mobility for permanently attached specialized equipment.
- 3. Vehicles not required to be licensed.
- Autos used solely on the named insured's premises or that part of the roads or other accesses that adjoin the premises.

B. Premium Computation

- Refer to manuals of general liability insurance.
- For land motor vehicles (Class Code 7906) other than farm equipment not eligible for general liability insurance, charge the appropriate fleet or nonfleet trucks, tractors, and trailers base premiums.

Rule 73. AUTOS HELD FOR SALE BY SERVICE OPERATIONS

Liability

Refer to the Nonownership Liability Rule (Rule 16).

Rules 74–90. ★RESERVED FOR FUTURE USE ❖

SUPPLEMENTARY RATING PROCEDURES SECTION

NOTES

SUPPLEMENTARY RATING PROCEDURES SECTION

Rule 91. RETROSPECTIVE RATING PLAN D—REINSURANCE FACILITY RISKS

Retrospective Rating Plan D is not to be used in rating risks ceded to the North Carolina Reinsurance Facility.

Rule 92. RATING PROCEDURES— REINSURANCE FACILITY RISKS

Gross receipts and mileage basis rating procedures and the Composite Rating Plan are not to be used in rating risks ceded to the North Carolina Reinsurance Facility.

Rule 93. ★RESERVED FOR FUTURE USE ❖

Rule 94. RULE FOR RATING SINGLE LIMIT COVERAGES

The premium for a single limit per occurrence shall be calculated as follows:

- A. Apply a single discount of 3% to both the bodily injury and the property damage normal factors for separate limits equal to the desired single limit.
- Calculate the separate bodily injury and property damage premiums, the sum of which is the combined premium.

	Example: Single Limit of \$50,000								
(1)	(2)	(3)	(4)	(5)	(6)				
	Basic Limits	Normal Factors For			Increased				
Coverage	Premium (Rate)	Separate Limits	Discount Factor	Factor (3) x [100 - (4)]	Premium (2) x (5)				
BI PD	\$620 380	1.48 1.25	3.0% 3.0	1.48 x .97 = 1.44 1.25 x .97 = 1.21	\$ 892.80 459.80				
				_	\$1,352.60

PRE-FILED TESTIMONY of JOANNA BILIOURIS

OCTOBER 2023

2023 COMMERCIAL AUTOMOBILE INSURANCE RATE FILING BY THE NORTH CAROLINA REINSURANCE FACILITY

- Q. Would you state your full name and business address?
- A. My name is Joanna Biliouris. My business address is 2910 Sumner Blvd, Raleigh, North Carolina 27616.
- Q. Are you employed by the North Carolina Reinsurance Facility ("Facility")?
- A. Yes.
- Q. In what capacity?
- A. I am the General Manager.
- Q. What is the Facility's function with respect to rates for commercial automobile insurance?
- A. The Facility promulgates rates for commercial automobile liability insurance written in North Carolina that is ceded to the Facility.
- Q. Can you identify the document (Exhibit RF-1) dated October 30, 2023?
- A. Yes. This is a portion of a filing ("Filing") that is dated October 30, 2023, submitted by the Facility to the Honorable Mike Causey, Commissioner of Insurance, with respect to revised commercial automobile liability insurance rates in North Carolina for ceded business. The entire Filing is comprised of Exhibits RF-1 through RF-5.
- Q. Do you know how the expense data underlying the Filing were compiled?
- A. Yes. The underwriting expense provisions included in the Filing were derived on the basis of a special call for expense experience that is issued on an annual basis to all member companies of the Facility. The responses received from that special call were compiled, checked, and furnished to Insurance Services Office ("ISO") for incorporation into the Filing.

- Q. Do you know how the exposure and loss data underlying the Filing were compiled?
- A. Yes. The exposure and loss data used in the Filing were collected by Facility staff pursuant to a special call for detailed exposure and loss experience for ceded commercial auto business. The special call was issued to companies whose ceded business make up more than 95% of the total ceded commercial auto business in the latest year of the experience period. Facility staff collected and reviewed the information reported pursuant to that data call, and staff worked with the individual companies to resolve any questions arising from their review of the responses. Facility staff then furnished the results of that data call to ISO, and ISO also reviewed the data call results for reasonableness.
- Q. Was the information from the special call for expense experience and the special call for exposure and loss experience that was furnished to ISO and utilized in the Filing correct and accurate to the best of your knowledge, information and belief?
- A. Yes.
- Q. Can you identify the document (Exhibit RF-2) entitled the North Carolina Reinsurance Facility Commercial Automobile Manual of Rules and Rates?
- A. Yes. The North Carolina Reinsurance Facility Commercial Automobile Manual of Rules and Rates is a manual of the rules, rates and classifications used to write commercial automobile liability insurance ceded to the Facility. This manual and any approved amendments are on file with the North Carolina Department of Insurance and a copy is maintained at the offices of the Facility.
- Q. To the extent that actuarial expertise was necessary in the preparation of this Filing, where did the Facility obtain that expertise?
- A. Actuarial expertise was obtained from ISO. ISO is retained by the Facility to provide actuarial services to the Facility for, among numerous other things, preparation of this Filing. The Facility's Rating Committee reviewed the data underlying the Filing and made recommendations to the Board of Governors of the Facility as to the items contained in the Filing. In addition, the Facility has an actuary on its staff who assisted in the review and the preparation of the Filing.
- Q. What is the proposed effective date of the rates in the Filing?
- A. The rate review was prepared with the assumption that the effective date would be April 1, 2024 and that the new rates will apply to all policies becoming effective on or after April 1, 2024.
- Q. Does the Filing include, to the extent available, the information to be furnished in connection with the filings under Article 37 of Chapter 58 of the General Statutes?

- A. Yes. Those data that were available have been submitted to the Commissioner as part of the Filing.
- Q. Does that complete your pre-filed testimony?
- A. Yes.

PRE-FILED TESTIMONY OF JAMES DAVIDSON

COMMERCIAL AUTOMOBILE INSURANCE RATE FILING BY THE NORTH CAROLINA REINSURANCE FACILITY October, 2023

- Q. Please state your name and business address.
- A. My name is James Davidson. My business address is Insurance Services Office, Inc., 545 Washington Boulevard, Jersey City, New Jersey 07310.
- Q. By whom are you employed?
- A. I am employed by Insurance Services Office ("ISO") and have been employed by ISO since May 27, 2003.
- Q. What are your responsibilities at ISO?
- A. I am the Senior Actuarial Director for Commercial Casualty Lines (including Automobile) at ISO. My responsibilities include the management of ISO's total ratemaking operation as it pertains to commercial automobile insurance. We are generally responsible for doing everything that pertains to ratemaking for the commercial automobile coverages, including reviewing experience, making filings, analysis of classification plans, etc.
 - ISO is involved in ratemaking for the commercial automobile coverages in general in virtually all states plus the District of Columbia and Puerto Rico.
- Q. What is your employment background?

- A. When I was first employed by ISO, I was an Analyst in ISO's Increased Limits and Rating Plans Division, where I was involved in conducting increased limit reviews for various lines of business, both Personal and Commercial. I was promoted to various positions through the years, including Actuarial Manager in 2013, when I became responsible for Increased Limit reviews for both Personal and Commercial Auto. In 2015, I was promoted to Actuarial Director for Commercial Auto, and in 2019 was promoted to my current position as Senior Actuarial Director for Commercial Casualty Lines.
- Q. What is your background in actuarial science and your educational background?
- A. I have a Bachelor of Arts degree in Mathematics from the University of Connecticut. I am a Fellow of the Casualty Actuarial Society ("CAS") and a member of the American Academy of Actuaries, and I am in good standing with both organizations.
- Q. Are you familiar with automobile experience review procedures in other states?
- A. Yes. As part of my duties at ISO, I am familiar with data collection and experience review procedures in use in other states as well as in North Carolina. I have participated in reviews for Commercial Automobile for many states. I am responsible at the present time for supervising the preparation of loss cost filings for all jurisdictions where ISO acts as an advisory organization.
- Q. What work have you performed with respect to the Reinsurance Facility Commercial Automobile rate filing in North Carolina?
- A. Through ISO, I have been involved in the preparation of the Commercial Automobile rate filing for the Reinsurance Facility in two respects. First, Reinsurance Facility staff collected rate-related data from a significant number of the companies which cede Commercial Automobile liability insurance to the North Carolina Reinsurance Facility (NCRF). ISO reviewed the data for reasonableness and then compiled all of the data and put them in proper format to determine whether loss costs are adequate or inadequate. Second, we provide consulting actuarial services directly to the Reinsurance Facility. My staff and I worked closely with the North Carolina

Reinsurance Facility staff and the NCRF Rating Committee with respect to the ratemaking procedures and trends that are utilized in the filing. The Rating Committee is comprised of several member companies of the Facility plus one of the agent members of the Facility's Board of Governors.

- Q. What is the nature of this filing labeled Exhibits RF-1 through RF-5?
- A. The Reinsurance Facility's filing is identified as Exhibits RF-1 through RF-5. The ratemaking experience is reflected in Exhibit RF-1 and is, in general, supplied by the individual companies. The data are submitted to the NCRF, and are subject to a series of verification edits and then consolidated into a format and detail necessary for ratemaking.

This filing revises the North Carolina Reinsurance Facility basic limits rates and increased limits factors for Commercial Automobile bodily injury liability, property damage liability and medical payments. Separate filed amounts are determined for Trucks, Tractors, & Trailers, Private Passenger Types, Auto Dealers, Zone Rated Risks, and Publics. The filed amounts by coverage, as shown on page "a" of Exhibit RF-1, are:

	Basic Limits	Increased Limits	
Major Class	Filed	Filed	
	Change	Change	Combined
Trucks, Tractors, & Trailers			
Bodily Injury	+10.6%	+0.9%	+11.6%
Property Damage	+18.1%	+3.1%	+21.8%
Combined	+12.9%	+1.6%	+14.7%
Private Passenger Types			
Bodily Injury	+26.9%	+0.6%	+27.7%
Property Damage	+45.8%	+1.4%	+47.8%
Combined	+34.5%	+0.9%	+35.7%

Auto Dealers			
Bodily Injury	-5.3%	+0.6%	-4.7%
Property Damage	+2.5%	+1.1%	+3.6%
Combined	-2.3%	+0.8%	-1.5%
Zone Rated Risks			
Bodily Injury	+4.1%	+1.2%	+5.3%
Property Damage	+20.1%	+5.5%	+26.7%
Combined	+6.8%	+1.9%	+8.8%
Publics			
Bodily Injury	-0.9%	+0.8%	-0.1%
Property Damage	-1.7%	+2.2%	+0.4%
Combined	-1.1%	0.0%	-1.1%
Grand Total			
Bodily Injury	+8.1%	+1.0%	+9.2%
Property Damage	+17.9%	+3.6%	+22.1%
Combined	+10.8%	+1.7%	+12.7%

- Q. Mr. Davidson, what is the assumed effective date which was used in the preparation of the present filing?
- A. The actuarial calculations assume an effective date of April 1, 2024. This is the effective date proposed for the filing.
- Q. What data are utilized in Exhibit RF-1, Section B?
- A. With respect to Exhibit RF-1, the supporting data for the basic limits rate level changes for bodily injury liability and property damage liability are contained in Section B. Five years of premium and loss experience are used for each of the Trucks, Tractors, & Trailers, Private Passenger Types, Auto Dealers, and Zone Rated coverages in Section B. The years are the latest available.

For all classes, the loss experience used in the filing is what we call "accident year" experience. The five years of experience used in the filing are the accident years ending December 31, 2018 to December 31, 2022. For example, the losses for the accident year ended December 31, 2018 consist of all losses caused by accidents which occurred during the one-year period ended December 31, 2018. If an accident occurred December 31, 2018 and resulted in either a loss being paid or reserve being established, that loss would be a part of the accident year losses for the period ended December 31, 2018. The test for assigning losses to accident years is the date the accident occurred.

- Q. How is Exhibit RF-1 arranged?
- A. Exhibit RF-1 is divided into eight sections. Sections A and B display the exhibits where the rate level changes are determined. Exhibit 1 of Section A shows the overall calculation of the basic limits rate level changes by major class and coverage. Exhibits 1, 2, 3 and 4 of Section B display the adjustment of the losses and calculation of the rate level loss ratios for Trucks, Tractors, & Trailers, Private Passenger Types, Auto Dealers and Zone Rated Risks respectively. Section C presents the exhibits of revised rates. Section D provides the supporting exhibits for loss development, trend, expenses, credibility, contingency, and investment income. Sections E, F, and G contain the analysis of Increased Limits Factors. Section H contains the analysis of the Publics relativities.
- Q. Mr. Davidson, please turn to the exhibit labeled Section B, Exhibit 1 of Exhibit RF-1. Would you explain what that exhibit is?
- A. This exhibit consists of two sheets 1&2 which display the loss and premium data for the Trucks, Tractors, & Trailers liability coverages for the North Carolina Reinsurance Facility. Sheet 1 displays the calculation of the rate level loss ratio for bodily injury and property damage coverages for the Trucks, Tractors, & Trailers classes. Sheet 2 displays the adjustment of the experience period incurred losses and loss adjustment expenses used on Section B, Exhibit 1, Sheet 1. The data shown are for ceded business; they are the experience on policies that are placed in the Reinsurance Facility.

My testimony will concentrate on the calculations underlying the Trucks, Tractors, & Trailers bodily injury coverage on this exhibit. This is done to simplify the explanations and to provide examples of the calculations in the filing. Although I will be focusing my testimony on the Trucks, Tractors, & Trailers bodily injury coverage, the concepts and explanations apply to the other classes and coverages unless stated otherwise.

- Q. Column (1) on Section B, Exhibit 1, Sheet 1 for bodily injury contains a reference to "30/60/25". What does that mean?
- A. These are the minimum bodily injury and property damage liability policy limits (in thousands) which are needed to comply with the current financial responsibility laws in North Carolina. While this rate review is not dependent on the minimum limits required under the financial responsibility law, it contains increased limit factors which allow carriers to adjust limits as needed. What we are doing in this section of the filing is calculating the rate change that is needed for this "basic limits" coverage. For the purpose of the filing, we assume that losses are "capped" at these basic limits and that the premium which is charged is the premium for the basic limits coverage at existing rates. This means the indicated rate change we get from the calculation is the actuarially sound rate assuming all the ceded risks purchased basic limits coverage. The use of the "basic limits" premiums and losses for the purpose of determining statewide average rates is a proper procedure to be followed and is widely accepted. To illustrate how it works, assume that a risk bought a policy with 100/300 bodily injury policy limits and had an accident which caused the risk's insurer to make a payment to a claimant of \$75,000. The premium which is shown in column 1 is the premium which the policy would have cost the risk at today's rates assuming that the risk had bought only the 30/60 basic limits. The unadjusted losses which are shown in row 1 of this exhibit, sheet 2 would include only \$30,000 as opposed to the \$75,000 total loss.
- Q. Referring again to column 1, Section B, Exhibit 1, Sheet 1 entitled "Earned Premium at Present Rates," what does the figure \$23,789,359 represent and how was it determined?
- A. It represents the total amount of premium which would have been paid by Facility policyholders for basic limits Trucks, Tractors, & Trailers bodily injury coverage for accident year ending

12/31/2022 if current Facility rates had been in effect. It is calculated by extending the exposures at the current Facility rates.

- Q. Are the earned premium at present rates for the other classes and coverages calculated in the same manner?
- A. Yes. The earned premiums at present rates for the other classes are calculated in the same manner.
- Q. Turning to row 1 on Sheet 2 of this exhibit under the bodily injury column, what are "incurred losses and allocated loss adjustment expenses"?
- A. The incurred losses in row 1 are the losses resulting from accidents which occurred during the one-year period ending December 31, 2022 or one of the preceding one-year periods, as noted. These figures include both losses which have already been paid as well as losses which are not yet paid and are represented by outstanding claim reserves. The figure also includes allocated loss adjustment expenses. Allocated loss adjustment expenses are expenses which relate to a specific claim. For example, the fees which an insurance company pays to attorneys to defend a claim or to outside adjusters to investigate that claim would be classified as allocated loss adjustment expenses. On the other hand, adjustment-related expenses which cannot be identified to a specific claim are called unallocated loss adjustment expenses. An example of this would be the salaries and overhead associated with operating a company's in-house claims department. Allocated loss adjustment expenses are included in the row 1 figures; unallocated loss adjustment expenses are not.
- Q. Have the losses and allocated loss adjustment expenses as reported by the companies been adjusted in any way?
- A. Yes, there are several adjustments. First, as I mentioned earlier, ratemaking is done on a basic limits basis. For that reason, we adjust the reported losses by eliminating those losses which exceed the amount which would have been paid had the policy limits been 30/60. The second adjustment results from the use of a loss development factor. Third is the inclusion of unallocated loss adjustment expense. Finally, trend is applied to the reported losses.

- Q. What is the purpose of adjusting the reported losses by applying a loss development factor?
- Reported losses need to be adjusted for loss development in order to appropriately reflect the late A. emergence of claims as well as changes in the value of known claims. This is accomplished through the use of loss development factors. For Trucks, Tractors, & Trailers, the losses as they are reported cover all accidents which occurred during the year-ended periods 12/31/2018 to 12/31/2022. When they are reported they are evaluated as of March 31, 2023. As of this date, some of the losses have already been paid and some have not, i.e., they are represented by loss reserves. The loss reserves, of course, are estimates of what will ultimately be paid on these outstanding claims. Since we want the estimates to be as accurate as possible, we look at history to see how losses have changed, or "developed," in the past from the time they were initially reported to the time they were ultimately paid. For example, if we look back and see that historically there has been a 1% increase in the amount of losses from the time they were initially reported as reserves until the time they were ultimately paid, we would logically assume that the same development pattern will hold true for losses incurred during future accident years. Accordingly, we would make an adjustment by increasing the losses as they are initially reported by 1%.
- Q. What causes losses to change or develop as you have described?
- A. The losses which are paid as of the date of the initial reporting, of course, do not change. As to the reserve portion of the losses, however, changes would typically result from the fact that the ultimate loss payments are more or less than estimated at the time of the initial report. Another factor would be the late reporting of claims. For example, if an accident occurred on December 26 of any given year and for some reason was not reported to the company in a timely fashion, it might very well be that the losses as initially reported would not include any provision for that particular claim. By the time of the next year's evaluation, however, the claim would have worked its way into the system and the total loss would include either the paid amount or the reserved amount for that particular claim. This would cause an upward development in the losses as initially reported.

- Q. Would you please turn to Exhibit 1 of Section D of Exhibit RF-1 and explain how the loss development factors for Trucks, Tractors, & Trailers bodily injury and property damage were calculated?
- A. The Trucks, Tractors, & Trailers bodily injury loss development factors are calculated on Sheets 1 through 4 of this Exhibit. The data are North Carolina only experience reported for policies ceded to the Facility. Link ratios for several twelve-month periods have been calculated and then averaged. The resulting link ratio averages are then multiplied to produce loss development factors to ultimate settlement. The ultimate settlement is assumed to be 63 months.
- Q. Are the incurred losses for the other classes and coverages determined in the same manner as you just testified for the Trucks, Tractors, & Trailers bodily injury and property damage coverage?
- A. Yes.
- Q. Do you have an opinion as to whether the incurred losses for all the classes and coverages in the filing which are shown in row 2 of sheet 2 of Exhibits 1, 2, 3, & 4 of Section B accurately represent the ultimate value of liability losses and allocated loss adjustment expense?
- A. Yes, I do.
- Q. What is that opinion?
- A. I believe that the losses and allocated loss adjustment expenses shown on row 2 of Sheet 2 of Exhibits 1, 2, 3, & 4 of Section B do accurately represent the expected ultimate value of those losses.
- Q. Please refer to row 3 of Section B, Exhibit 1, Sheet 2. With reference to the column headed "Bodily Injury", please tell us what the figure \$812,905 represents.
- A. These are the unallocated loss adjustment expenses associated with accidents that occurred in the accident year ended December 31, 2022. As I explained earlier, unallocated loss adjustment expenses are those loss adjustment expenses which cannot be attributed on an accident-by-

accident basis. As to the number itself, footnote (B) notes that it is 5.6% of the figure shown in row 2 - developed losses and allocated loss adjustment expense. Each year a special call is sent to the Facility's member companies for expense-related data. The most recent special call showed that unallocated loss adjustment expenses for the calendar year ended December 31, 2022 were 5.6% of incurred losses and allocated loss adjustment expenses for the same period. Thus, it is reasonable and appropriate to use the same 5.6% figure to arrive at the unallocated loss adjustment expense in row 3 of this Exhibit.

- Q. Have you reviewed the compilation of the expense data furnished by the Facility's member companies in response to the special call?
- A. Yes, I have. When we get the expense information from the Reinsurance Facility, we routinely review it for reasonableness.
- Q. Are loss adjustment expenses for property damage coverages calculated in the same manner that you testified with respect to the bodily injury coverages?
- A. Yes. The same procedures are utilized. Again, the appropriate factor for each coverage is utilized in the filing. These factors are set forth in footnote (B) of Sheet 2 of Section B, Exhibits 1, 2, 3, & 4.
- Q. Do you have an opinion as to the reasonableness and reliability of the loss adjustment expenses set forth in row 3 of Section B, Exhibits 1, 2, 3, & 4, Sheet 2?
- A. Yes, I do.
- Q. What is that opinion?
- A. In my opinion the figures shown in row 3 for each of the classes and coverages and years in the filing are reasonable and reliable.
- Q. Referring again to Section B, Exhibit 1, Sheet 2, please explain what is meant by row 4 -- Average Annual Change in Loss Ratios.

- Using the assumed April 1, 2024 effective date, what we are doing in the filing is making rates to A. cover policies issued during the period April 1, 2024 to March 31, 2025. In order to do that, it is necessary to project the amount of losses which will be covered under policies issued during that period. Since we know that losses change because of such things as changes in accident frequency and changes in injury and damage costs, it would not be appropriate to assume that the losses covered under these policies will be the same as the losses which are shown in row 2 for the accident years ended 12/31/2018 to 12/31/2022. The purpose of row 4 is to trend the losses which are shown in row 2 to the anticipated level for policies issued in the 4/1/2024 - 3/31/2025period. Row 4 shows what is generally referred to as the trend factor. It is the anticipated annualized rate of change in losses. For the bodily injury liability coverage, the annual factor is +7.0% per year. In order to apply that annual trend to policies to be written under the new rates, the trend is applied over a period from 6.750 years for the 12/31/2018 experience to 2.750 years for the 12/31/2022 experience, as shown in footnote (C). Mathematically, this is done by raising the factor of 1.070 to the 6.750 power, or the power for the appropriate year. This gives you the total amount of the trend projection.
- Q. What components does the average annual change in losses include?
- A. The average annual change in losses, which is also known as the average annual change in "pure premium," can be divided into two components. The first is the average annual change in claim frequency, and the second is the average annual change in claim cost.
- Q. What are the changes in these two components which have been used for the bodily injury liability coverage in the filing?
- A. For the bodily injury liability coverage, the filing uses an average annual change in claim cost of 7.0%, and an average annual change in claim frequency of 0.0%. These percentages are shown in Section D, Exhibit 2 of Exhibit RF-1.
- Q. How were the average annual changes in claim cost and claim frequency determined?

- They were determined by an analysis of past experience, separately for claim cost and claim A. frequency. For claim cost, trend lines, which are technically referred to as exponential curves, were determined for several different time intervals in order to determine what the actual changes have been in the recent past. The data from which the trends were calculated are the cost data for ISO companies writing Commercial Automobile voluntary insurance in North Carolina as well as multistate data. These data are what we generally refer to as "internal trend" data. After making these calculations to determine what the past changes in loss severity have been, we analyzed the historical trends and considered other relevant factors which would affect our judgment as to whether those historical trends are likely to continue into the future. Based on that review and analysis, the Rating Committee exercised its informed judgment and selected the severity trends which are utilized in the filing. Historically, frequency trend for commercial auto liability has been quite variable, often cyclical in nature. As a result, an exponential curve like the one used for severity trend does not fit the data well over the long term. Frequency trend is being selected to be 0.0% for bodily injury and 0.0% for property damage to reflect the recent pattern in frequency trend as well as the economic environment. The claim cost and claim frequency data are shown in Section D, Exhibit 2.
- Q. In your opinion, are the annual loss trends used in the filing reasonable estimates of the prospective annual changes in losses in North Carolina?
- A. Yes, they are.
- Q. Please refer to row 5 of Section B, Exhibit 1, Sheet 2 of Exhibit RF-1 and explain what the purpose of that line is.
- A. The average annual change in expenses of 5.5% represents the appropriate prospective change in general expenses, other acquisition expenses and unallocated loss adjustment expenses. These expenses are treated as fixed expenses and do not vary in direct relationship to the actual premium dollars. These expenses represent salaries, overhead, rents and other expenses that should vary according to general economic trends and not as a direct function of how premium increases or decreases. For example, commissions are calculated as a percent of premium. If the premium rate goes up a certain percentage, the dollars of commission go up by the same percentage. On the other hand, the salary paid to an employee in the Home Office, which is a

part of general expenses or other acquisition expenses, is not directly tied to premium. Just because premium may go up 10% does not mean that the employee's salary will go up 10%. The salary will be influenced by general economic trends and not by what the premium level is doing. That is why general expenses, other acquisition expenses and unallocated loss adjustment expenses are treated differently from those expenses that vary as a function of premium in this filing.

- Q. Would you explain the derivation of the 5.5% factor in row 5?
- A. The 5.5% factor is based on an analysis of the latest average annual changes in the All Items CPI (both including and excluding energy), and the Compensation Cost Index. The Rating Committee included the analysis using the All Items CPI (excluding energy) because it was concerned that the recent volatility in energy prices has made the All Items CPI more volatile and therefore less valuable as a predictor of future costs. A weighted average of 25% of the All Items CPI, 25% of the All Items (excluding energy) CPI and 50% of the Compensation Cost Index is utilized to estimate changes in these expenses. The data are shown in Section D, Exhibit 3 of Exhibit RF-1. Based on an analysis of these data, a selected expense trend factor of +5.5% is quite reasonable.
- Q. Would you explain row 6 of Section B, Exhibit 1, Sheet 2 labeled "trended losses and loss adjustment expenses"?
- A. The figures in row 6 are calculated by applying trend factors to the developed losses and allocated loss adjustment expenses in row 2 and the unallocated loss adjustment expenses in row 3. The trend factors are based on the selected annual trends shown in rows 4 and 5 raised to the appropriate power. The trended loss and loss adjustment expenses are the loss and loss adjustment expenses expected to prevail for policies issued in the one year period 4/1/2024 through 3/31/2025. These loss and loss adjustment expenses are then used in Section B, Exhibit 1, Sheet 1 to calculate the loss and loss adjustment ratios in column 3.
- Q. Turning back to Section B, Exhibit 1, Sheet 1, how are the loss and loss adjustment ratios in column 3 used?

- These loss and loss adjustment ratios are used in a series of steps to calculate the rate level loss A. ratio shown in row 10. We use five years of Facility experience to calculate the rate level loss ratio in order to ensure stable indications. The table of weights used in weighting these loss and loss adjustment ratios is shown on Section D, Exhibit 5. Whenever appropriate, we assign a greater weight to the latest year. The weights used for the Trucks, Tractors, & Trailers classes are shown in column 4 of Section B, Exhibit 1, Sheet 1. The resulting weighted loss and loss adjustment ratios are shown in row 6. The next step in calculating the rate level loss ratio is accounting for the credibility of the experience. Credibility is based upon the five year total of claims for the coverage. The standard for full credibility is 1084 claims for Trucks, Tractors, & Trailers and Private Passenger Types, and 683 for Zone Rated. The tables for determining partial credibility are shown in Section D, Exhibit 5. The weighted loss and loss adjustment ratios are assigned credibility based on these tables. The complement of credibility is assigned to the adjusted expected loss ratio shown in row 8. For the Trucks, Tractors, & Trailers classes, the number of claims exceeds the full credibility standard so a credibility of 1.00 is given to the weighted loss and loss adjustment ratio in row 6. This results in the rate level loss ratios in row 10 being equal to the weighted loss and loss adjustment ratios in row 6.
- Q. Would you explain the purpose of row 7 "expected loss ratio" and row 8 "adjusted expected loss ratio" more fully?
- A. The expected loss ratio is the percentage of the premium dollar you will have available to pay for loss and loss adjustment expenses. The adjusted expected loss ratio represents what you would expect the loss and loss adjustment expense ratio to be without benefit of any later experience since the last filing. It is calculated by applying the average combined loss and loss adjustment expense trend factor to the expected loss ratio.
- Q. What is the source of the expense provisions shown in footnote (C) on Section B, Exhibit 1, Sheet 1?
- A. With the exception of the underwriting profit and contingency factors, they were calculated from the North Carolina Special Expense Call for 2022 data. We used the expense ratios collected under the special call with two exceptions. For commissions, a 10% provision is assumed for Trucks, Tractors, & Trailers and Private Passenger Types, and a 5% provision is assumed for

Zone Rated Risks since these are the minimum commission allowances for Facility business. For Garages, an additional 3% provision is added to the general expense provision to account for expenses specific to these classes; that is, expenses due to inspection costs and auditing of exposures. This percentage is a reasonable and historically accepted estimate of the additional expense incurred in writing and servicing a garage policy. The general expense provisions for the other classes of business were reduced so that, overall, the general expense provisions used average to the provisions indicated by the special call.

- Q. What is the significance of the rate level loss ratio shown for Trucks, Tractors, & Trailers bodily injury in row 10 of Section B, Exhibit 1, Sheet 1?
- A. The figure of 0.856 means that losses and loss adjustment expenses will be lower than premium income by 14.4%. This means the Facility would make 14.4 cents on every premium dollar before considering contingencies, commissions, other acquisition costs, general expense and taxes, licenses and fees. The rate level loss ratio is used on Exhibit 1 of Section A to determine the rate level indications after accounting for the remaining expenses and the investment income of the Facility.
- Q. Referring now to Exhibit 1 of Section A, would you explain how the rate level loss ratio is used?
- A. The rate level loss ratio in row 1 of Section A, Exhibit 1 is added to the trended fixed expense ratio in row 2 and the sum is displayed in row 3. The resulting ratio accounts for losses, loss adjustment expenses, other acquisition costs and general expenses.
- Q. Would you explain the trended expense ratio?
- A. The trended expense ratio is the sum of the expense provisions for other acquisition costs and general expenses adjusted for 2.25 years of trend. The assumption underlying this ratio is that these expenses are adequately provided for at this time but need to be adjusted to reflect the appropriate level for the prospective period. As I mentioned earlier in my testimony, other acquisition costs and general expenses are treated as fixed expenses and do not vary in direct relationship to the actual premium dollars. As stated in footnote (a) on Section A, Exhibit 1, the

- calculation of the trended expense ratio uses an average annual expense trend of +5.5%. Earlier in my testimony, I explained the derivation of this trend factor.
- Q. What is the significance of the ratio 0.970 shown on row 3 for Trucks, Tractors, & Trailers bodily injury of Section A, Exhibit 1?
- A. This ratio means that the Facility would make 3.0 cents on every premium dollar before considering the remaining variable expenses commissions and taxes, licenses and fees, and contingencies and before reflecting investment income.
- Q. Would you explain the ratio 0.827 on row 4 labeled "expected loss ratio + expected fixed expense ratio"?
- A. This ratio represents the percentage of the premium dollar available to cover losses, loss adjustment expenses, other acquisition costs and general expenses. Mathematically, it is calculated as 1.00 minus the provision for commissions (which is 10%) and taxes, licenses and fees (2.3%) and contingency (5%).
- Q. Mr. Davidson, would you please explain how the rate level change is calculated?
- A. Rows 5 and 6 of Section A, Exhibit 1 display the results of the calculated rate level changes. Row 5 shows the calculation of the rate level change without reflecting investment income; row 6 is the same calculation but with the reflection of investment income. Basically, the rate level indication without reflecting investment income results from the comparison of the projected loss and fixed expense ratio shown on row 3 to the provision for losses and fixed expenses shown on row 4. Investment income is reflected by modifying the provision in row 4. We use an investment income provision of 5.01%, the derivation of which I will discuss later in my testimony. Mathematically, this investment income provision of 5.01% is added to the expected loss and fixed expense provision of 82.7% to obtain a provision of 87.71% available to cover losses and fixed expenses. The indicated rate level changes reflecting investment income result from the comparison of the projected loss and fixed expense ratio on row 3 to this provision of 87.71%. For Trucks, Tractors, & Trailers bodily injury, the projected loss & fixed expense ratio of 0.970 is greater than 0.8771 and thus indicates a rate level change (after reflecting investment

income) of +10.6%. The effect of investment income on the indication for Trucks, Tractors & Trailers bodily injury is to reduce the indication by 6.7 percentage points overall.

- Q. Are the calculations for the other classes and coverages on Section A, Exhibit 1, performed in essentially the same manner as the 30/60 Trucks, Tractors, & Trailers bodily injury coverage?
- A. Yes.
- Q. Mr. Davidson, please turn to Section D, Exhibit 6 of Exhibit RF-1. What do these pages represent?
- A. This exhibit details what are commonly known as "State X" calculations. They are calculations of the estimated investment earnings on unearned premium reserves and loss and loss expense reserves. Each line is explained, and the appropriate data source is cited.
- Q. Would you explain the calculations.
- A. Part A in Sheet 1 is the determination of the average unearned premium reserve for the ceded liability coverages for the State of North Carolina. Line 1 gives the earned premium for the calendar year ended December 31, 2022. From the earned premium the mean unearned premium reserve is calculated. The portion of the earned premium that is held as unearned premium reserve is determined from the average unearned premium reserve for the year 2021. In this case, the mean unearned premium reserve is 44.4% of the earned premium. You must then deduct prepaid expenses since these prepaid dollars would not be available to earn investment income.

For Commission and Brokerage expense, 100% of the expense provision is considered pre-paid. For Taxes, Licenses and Fees, 83% is considered pre-paid, and for Other Acquisition expense and Company Operating expense, one-half is considered pre-paid.

Line A-5 shows the amount of unearned premium reserves that were available for investment.

Part B calculates the impact that the delayed remission associated with the lag in the transfer of funds to the companies has on funds available for investment. The average agents balance is 20.5% of premiums. The calculation of this 20.5% is shown in the explanatory notes. The average agents balance includes amounts that have been booked as written premiums but have not been paid by insureds due to installment premium plans.

Part C shows the calculations of the expected mean loss reserves held by the companies. Line C-2 entitled Expected Incurred Losses and Loss Adjustment Expenses is based upon the expense provisions utilized in the filing. The expected mean loss reserve in line C-3 is based upon the 2020 and 2021 ratios of mean loss reserves to incurred losses for commercial auto data only.

Part D adds up the unearned premium reserves subject to investment and the loss reserves subject to investment and backs out the amount that is not invested due to delayed remissions. This gives you the total amount of unearned premium reserves and loss and loss expense reserves available for investment.

Once you have determined how much is available for investment, you then apply the average investment return to determine total investment earnings. This estimate was provided to us by the Facility. Line E shows an average rate of return of 3.22%.

Applying the yield in line E to the net subject to investment in line D gives you the total investment earnings in North Carolina. Line G merely relates the total earnings to the earned premium in line A-1 to show a yield of 5.01% as a percent of earned premium.

- Q. Mr. Davidson, were these State X pages prepared by you or under your direct supervision and are they correct to the best of your knowledge and belief?
- A. Yes.
- Q. Do you have an opinion as to whether the State X calculations accurately set forth the estimated investment earnings on unearned premium reserves and loss and loss expense reserves as a percentage of direct earned premium for the North Carolina Reinsurance Facility, and if so, what is that opinion?

- A. Yes. In my opinion they accurately set forth the estimated investment earnings on unearned premium reserves and loss and loss expense reserves as a percentage of direct earned premium for the North Carolina Reinsurance Facility.
- Q. Mr. Davidson, please turn to Section D, Exhibit 8 of Exhibit RF-1. What does this exhibit represent?
- A. This exhibit presents the details underlying the selection of the contingency factor.
- Q. Can you explain what a contingency factor is?
- A. Yes. A contingency is defined as an uncertain, unexpected, or unforeseen event which may impact underwriting results. These events do not occur with predictable regularity yet result in differences between the expected cost estimates and the actual average costs which cannot be eliminated by other aspects of the ratemaking process. If these differences persist over time, a contingency provision to account for these differences should be reflected in the ratemaking calculations through the application of a contingency factor.
- Q. How is the contingency factor determined?
- A. In this instance, the contingency factor is determined by examining the historical Commercial Auto underwriting results of the Facility. Section D Exhibit 8 shows these results over the most recent 15 years, which is a long enough period to eliminate short term fluctuations in the results. After a careful review of these results, the Rating Committee chose to implement a contingency factor of 5%.
- Q. In your opinion, does this selection provide a reasonable margin for contingencies?
- A. Yes, in my opinion this is a reasonable selection.
- Q. Mr. Davidson, please turn to Section C and explain the purpose of this section.

- A. Section C derives the proposed Facility territory base rates and presents the exhibits of revised Facility manual rate pages. Exhibit 2 refers to the Trucks, Tractors, & Trailers and related classes. Exhibit 3 refers to the Private Passenger Types classes. Exhibit 4 refers to the Auto Dealers classes. Exhibit 5 refers to the Zone Rated classes. The first two sheets of Exhibits 2 and 3 present the calculations of the revised territory base rates. Sheet 1 derives the territory base rates for 30/60 bodily injury coverage; Sheet 2 derives the territory base rates for \$25,000 property damage coverage.
- Q. What is the purpose of Exhibit 1 of Section C?
- A. Exhibit 1 summarizes the standard relativities used for determining revised rates for medical payments coverage and public automobile bodily injury and property damage liability coverage.

 This exhibit also summarizes the procedure for calculating the revised rates for hired cars coverage.
- Q. Turning to Exhibit 2, Sheet 1 of Section C, would you explain the calculations on this exhibit?
- A. This exhibit displays the calculations underlying the revised Facility territory base rates for Trucks, Tractors, & Trailers 30/60 bodily injury liability coverage. The revised Facility base rates are based upon the voluntary territory relationships that become effective on 3/1/2024. We base the revised Facility rates on the voluntary relationships because of the larger volume of voluntary experience and because we continue to believe, as we have in the past, that it is reasonable to assume that the Facility territory experience mirrors the voluntary territory relationships. Column 2 displays the voluntary base loss costs by territory in effect on that date. Column 4 displays these voluntary territory base loss costs indexed to the overall statewide average voluntary base loss cost. This index in column 4 is applied to the revised overall statewide average Facility base rate shown in the footnote. As an example, the revised rate for territory 111 is calculated by multiplying the index of 0.886 shown in column 4 by the overall statewide average base rate of 352.3937. The result of this calculation is \$312.221 shown in column 5; rounding column 5 to the nearest whole dollar yields a revised base rate for territory 111 of \$312 as shown in column 6. Column 7 shows the base rate change by territory. It is calculated by dividing column 6 by column 3, and reflects the +7.2% indicated change.

- Q. Are the revised Facility territory base rates for the other classes and coverages determined in a manner similar to the Trucks, Tractors, & Trailers bodily injury base rates?
- A. Yes, they are, for Trucks, Tractors, & Trailers property damage and for Private Passenger Types and Auto Dealers bodily injury and property damage, which are the only other class/coverages for which territory rates are determined.
- Q. Please describe Sections E-G of Exhibit RF-1.
- A. The Reinsurance Facility's increased limits filing is contained in Sections E-G. The experience data contained in this section are reported to the NCRF by the individual companies.
 - The filing proposes to revise the North Carolina Reinsurance Facility increased limits factors for Commercial Automobile bodily injury liability and property damage liability insurance.
- Q. What is the assumed effective date used in the calculation of these proposed increased limits factors?
- A. An effective date of April 1, 2024 was assumed in the compilation of the filing material. This is the same date assumed in the calculation of the proposed rates in Sections A-D of Exhibit RF-1.
- Q. Is that in fact the proposed effective date?
- A. Yes, it is.
- Q. What data are utilized in Sections E-G?
- A. The supporting data for the indicated increased limits factor changes in Sections E-G consist of accident year data. As previously described, accident year experience is compiled based on the year that the accident occurred.
- Q. How are Sections E-G arranged?

- A. Section E presents a comparison of revised and current increased limit factors for selected policy limits. Section F contains detailed exhibits of the increased limits experience review. Section G presents the revised increased limits factors as they will appear in the North Carolina Reinsurance Facility Commercial Automobile Manual of Rules and Rates.
- Q. Mr. Davidson, please turn to Exhibit 1 in Section F. Would you explain the calculations in this exhibit?
- A. Exhibit 1, Sheet 1 of Section F presents the calculation of the indicated change in bodily injury increased limits factors (+1.0%). The indicated change is calculated by comparing the indicated average increased limits factor to the present average increased limits factor. The indicated average increased limits factor is calculated as the 5-year ratio of total limits losses (including allocated loss adjustment expense) to basic limits losses (including allocated loss adjustment expense). These losses have been developed to an ultimate settlement basis and trended from the average date of accident to twelve months beyond the anticipated effective date of April 1, 2024. Sheet 2 of this exhibit presents the calculation of the indicated change in property damage increased limits factors (+3.6%).
- Q. How were the losses trended to twelve months beyond the anticipated effective date?
- A. The developed losses (including allocated loss adjustment expense) have been multiplied by an exponential projection of annual average paid claim cost trend factors calculated in Exhibit 2 of Section F.
- Q. How are the developed losses obtained?
- A. Section F, Exhibit 4 presents the North Carolina Reinsurance Facility loss data. Sheet 1 shows the basic and total limits losses including allocated loss adjustment expense by class group separately for bodily injury and property damage. These losses are then developed to an ultimate settlement basis by applying the appropriate development factors shown in Exhibit 3. The results of this operation are displayed in Exhibit 4, Sheet 2.

The calculation of the development factors is performed in the same manner as previously described. Exhibit 1 of Section D presents the calculation of these factors.

- Q. What is the significance of Exhibit 4, Sheet 3 of Section F?
- A. After the losses (including allocated loss adjustment expense) have been developed to an ultimate settlement basis, the resultant values are then trended to twelve months beyond the anticipated effective date of April 1, 2024. The final trended values appear by class group on Sheet 3 of Exhibit 4. These final values are summed across class groups and the resultant numbers are used to obtain the indicated average increased limits factors in Exhibit 1.
- Q. How are the present average increased limits factors calculated?
- A. The present average increased limits factors are calculated as a weighted average of the increased limits factors which are currently in effect for the North Carolina Reinsurance Facility. Exhibit 5, Sheets 1 and 2 present the weights which are used. These weights are based on the basic limits loss distribution for risks ceded to the Facility, which uses losses (including allocated loss adjustment expense) reported to ISO from calendar accident year ending 06/30/2018 through calendar accident year ending 06/30/2022.
- Q. Turning to Section G Revised Increased Limits Tables, how are the individual increased limits factors calculated?
- A. The actual indicated factors are calculated using a uniform excess change procedure. In this procedure, rather than multiply each factor by a desired percentage change, the excess portion of each increased limits factor is multiplied by a factor specifically calculated to achieve the desired overall percentage change in the increased limits factors.

For example, the indicated total limits percentage change for the bodily injury increased limits factors is +1.0%. This is calculated in Exhibit 1, Sheet 1 of Section F as the indicated average factor divided by the present average factor minus unity (3.463/3.428) - 1 = +1.0%). In order to achieve this percentage change, a uniform excess change factor is calculated by dividing the indicated average excess portion (3.463 - 1.000 = 2.463) by the present average excess portion

(3.428 - 1.000 = 2.428). The result of this calculation (2.463/2.428 = 1.014) is the factor used to develop the indicated excess portion of each individual increased limits factor.

For a specific example of this calculation, let's look at the current bodily injury increased limits factor for a Heavy Truck with a \$100,000/\$300,000 policy limit (1.82). The excess portion of this factor (1.82 - 1.00 = 0.82) is multiplied by the uniform excess change factor (0.82 * 1.014 = 0.83) to obtain the indicated excess portion of the increased limits factor. The indicated increased limits factor is then obtained by adding the base portion back to give the revised increased limit factor (0.83 + 1.00 = 1.83). This results in a change of +0.5% ((1.83/1.82) - 1 = +.005) in this factor.

After the indicated factors have been calculated, a weighted average of these factors is calculated to ensure that the desired percentage change is achieved.

- Q. Was the desired percentage change achieved?
- A. Yes. The overall effect of the revised increased limits factors displayed in Section G, based on the loss distribution shown in Section F Exhibit 5, is +1.0% for bodily injury and +3.6% for property damage.
- Q. Turning to Section H Publics Relativities, what data are utilized in this section?
- A. With respect to Section H, the data for the Publics relativities changes for bodily injury liability and property damage liability are five accident years of premium and loss experience for each of the Publics class groups Taxis and Limousines, School and Church Buses, and Other Buses as well as five accident years of Trucks, Tractors, and Trailers premium and loss experience.

The five years of experience used in the filing are the accident years ending December 31, 2018 to December 31, 2022. The years are the latest available.

Q. How are the revised Publics relativities calculated?

- A. The ratio of the Basic Limit Losses to the Aggregate Loss Costs at current level was calculated for each of Taxis and Limousines, School and Church Buses, and Other Buses. Each of these ratios was then divided by the ratio for Trucks, Tractors, and Trailers to determine if the current relativities needed to be increased or decreased. For example, in Exhibit 1, the 0.664 ratio calculated for Taxis and Limousines BI divided by the 0.913 ratio calculated for Trucks, Tractors, and Trailers BI resulted in the change of -27.27%. The current relativity for each Publics class was then multiplied by the corresponding change to obtain the revised relativities. For example, for Taxis and Limousines BI, the -27.27% was multiplied by the current relativity 6.35 to obtain the revised relativity 4.62 in Exhibit 3.
- Q. Do you have an opinion as to whether the data utilized and the method of calculating the filed rate level changes contained in the filing are sound and actuarially reliable and if so, what is that opinion?
- A. Yes. In my opinion they are sound and actuarially reliable.
- Q. Do you have an opinion as an actuary as to whether the filed rate level changes are fully justified and result in rates that are neither excessive, inadequate, nor unfairly discriminatory, and if so, what is that opinion?
- A. Yes. In my opinion they are fully justified and result in rates that are neither excessive, inadequate, nor unfairly discriminatory.
- Q. Does that conclude your pre-filed testimony?
- A. Yes.

OF ALYSSA A. IRVING

2023 COMMERCIAL AUTOMOBILE INSURANCE RATE FILING BY THE NORTH CAROLINA REINSURANCE FACILITY October 2023

- **Q.** Please state your name and business address for the record.
- A. Alyssa Irving

Wellington Management Company LLP

280 Congress Street

Boston, MA 02110

- **Q.** By whom are you employed?
- A. Wellington Management Company LLP
- **Q.** In what capacity?
- A. My formal title is Senior Managing Director, Fixed Income Portfolio Manager.

 I am a Fixed Income Portfolio Manager on the Financial Reserves Portfolio Management Team.
- Q. What are your duties in your roles at Wellington Management Company LLP?
- A. As a fixed income portfolio manager I am responsible for managing U.S. Broad Market portfolios for clients, such as insurance companies, with customized risk and return objectives, often related to accounting and/or regulatory constraints.

- Q. Is it correct that Wellington Management Company LLP is an investment manager handling investable assets of the North Carolina Reinsurance Facility (the Facility)?
- A. Yes.
- Q. As investment manager for the Facility, does Wellington Management Company LLP have discretionary investment authority over the Facility's funds?
- A. Yes, as permitted by the Investment Management Agreement between the North Carolina Reinsurance Facility and Wellington Management Company LLP.
- **Q.** What is your role personally with respect to the Facility's investment account?
- A. I am the lead Portfolio Manager responsible for managing the Facility's investment portfolio according to the investment guidelines set forth in the Investment Management Agreement. I am responsible for all buy and sell decisions executed in the portfolio.
- **Q.** How long have you been employed by Wellington Management Company LLP?
- A. I joined Wellington Management Company LLP in 2006.
- Q. How long have you been employed by Wellington Management Company LLP in the division or department which specializes in fixed-income investments?
- A. I have been involved in our fixed income business since joining the firm in 2006.
- Q. How long has Wellington Management Company LLP managed the Facility's investment portfolio?
- A. Wellington was engaged by the Facility on October 1, 2009.
- **Q.** How long have you personally been the portfolio manager for that account?

- A. I have been a member of Financial Reserves portfolio management team since 2012, and I assumed the lead Portfolio Manager role for the NCRF portfolio in December 2015.
- Q. In connection with the Facility's 2023 Commercial Automobile Insurance rate filing, has the Facility requested that you make any calculations concerning the investment yield that the Facility could reasonably expect during the two-year period beginning April 1, 2024?
- A. Yes.
- **Q.** Did you make those calculations?
- A. Yes, working in conjunction with Wellington's internal fixed income quantitative analysts.
- Q. Would you please describe how your calculations were performed?
- A. To determine the investment yield that the Facility could reasonably expect during the two-year period beginning April 1, 2024, we employed a security-level book yield projection approach, rolling forward the book yield on the Facility's investment portfolio as it stood on July 31, 2023 as a starting point. The book yield projection incorporates the actual book yield of the existing assets held in the portfolio and also a reinvestment yield associated with projected principal (maturity and pre-payments) and coupon cash payments projected to be received going forward. We assume that projected future cash flows (principal maturities, prepayments, paydowns and coupon payments) are reinvested at a yield which reflects the portfolio's performance benchmark yield as it stood on July 31, 2023 adjusted for lower expected reinvestment rates consistent with the US Treasury forward curve as it existed at the time the estimate was developed. We used the benchmark yield because we believe this yield represents a good approximation of the mix of assets that would be

purchased in the portfolio. Using this methodology, the projected month-end portfolio book yield was calculated for each month during the two-year period beginning April 1, 2024 and the resulting yields for these 24 months were then averaged to arrive at the estimate of the Facility's portfolio yield for the overall time period.

- **Q**. What was the result of your calculations?
- A. Our calculations resulted in an estimated investment yield of 3.22%.
- Q. Do you have an opinion as to whether the 3.22% investment yield estimate that is based on your calculations and the assumptions used in your methodology is a reasonable estimate of what the Facility's investment yield will be?
- A. Yes.
- **Q.** What is that opinion?
- A. I believe the yield estimate is a reasonable estimate of the Facility's investment portfolio yield during the two-year period beginning April 1, 2024, based on the information available when we made the calculations.
- **Q.** Does that conclude your pre-filed testimony?
- A. Yes.
